CANNING THE KAISER

LONDON—The newspapers declare today that the American soldiers and marines have already found a slogan which is "Can the kaiser?" The British are much puzzled by the ability of the Americans to invent new slang and the papers explain that the word "can" is used in the sense of hermetically sealing the kaiser to prevent his further activity.

(Tune: "Marching Through Georgia") Bring the good old bugle, boys, we'll sing another song, Sing it with a spirit that will move the world along, Sing it as we need to sing it, half a million strong—

While we are canning the Kaiser, Chorus— Oh, Bill! Oh, Bill! We're on the job today! Oh, Bill! Oh, Bill! We'll seal you so you'll stay We'll put you in ginger in the good old Yankee way—

While we are canning the Kaiser, Hear the song we're singing on the shining roads of France, Hear the Tommies cheering, and see the Pollus prance; Africaners and Kanneks and Scots without their pants—

While we are canning the Kaiser, Bring the guns from Bethlehem, by way of Old New York, Bring the beans from Boston and don't forget the pork; Bring a load of soda-pop, and pull the grape juice cork—

While we are canning the Kaiser, Come, you men from Dixieland, you lumber jacks from Maine; Come, you Texas cowboys and you farmers of the plain; From Florida to Oregon, we boast the Yankee strain—

While we are canning the Kaiser, Now we've started on the job, we mean to put it through; Ship the kings and kaisers, all, and make the world anew; Clear the way for common folk, for men like me and you—

KUEHLMANN BEGINS HIS NEW DUTIES

COPENHAGEN, Aug. 9.—An official dispatch from Berlin says that Dr. von Kuehlmann began his duties as foreign minister yesterday. He has gone with Chancellor Michaelis and Dr. William von Stumme, under-secretary for foreign affairs, to main headquarters of the army, where he will be joined by Vice-Chancellor Helfferich. After leaving headquarters, Dr. Michaelis will visit the Grand Dukes of Baden and Darmstadt.

COPENHAGEN, Aug. 9.—Dr. Michaelis, imperial German chancellor, has been promoted from captain to lieutenant-colonel. Dr. von Bethmann-Hollweg, Dr. Michaelis' predecessor, bore the title of major-general.

AMERICAN PEOPLE SOON TO EAT HORSES

MINNEAPOLIS, Minn., Aug. 9.—Charles Grismer of Brooklyn was elected president today by the United Master Butchers of America in annual convention here. Mr. Grismer said he believed the American people would soon be using horse meat as food. "People eat pork without question," he said. "Just think how much cleaner a horse lives than a hog. Horse flesh is wholesome and as palatable as the best beef."

"GOTT STRAFE AMERIKA"

ACCORDING to Ex-Ambassador Gerard, German paper money now bears the legend "Gott strafe England und Amerika." Photographs of this money are printed as illustrations in his copyrighted narrative of his experiences as ambassador.

Persons returning from Germany confirm the report that German hate, formerly concentrated upon England, is now centered upon the United States, and an American is not safe from attack in German cities.

The interference of England in behalf of the weaker nations spoiled the well-laid German plans for a brief conquest of Europe and overlordship of the world. Hence for months the hymn of hate was daily sung against the British. The participation of the United States renders certain the eventual failure of German ambition, hence the vials of wrath poured upon Albion are condensed upon America.

This is in keeping with the chivalry and humanity the Germans have shown their enemies, which the kaiser brags about. We have had many instances of this chivalry. It began early in the war my maiming Belgian and French children, murdering their parents, ravishing their sisters, deporting their men and women into slavery and burning their cities. It was continued by bombardments of defenseless towns, of Zeppelin raids upon farming communities, by destruction of ocean liners at sea, thru submarine warfare, by shelling of lifeboats, by poison gas, liquid fire and a thousand barbarities. Murder, rapine, the torch, famine and terrorism have been the instruments of the chivalrous supermen.

German chivalry has not been confined to enemy nations. Up to the time Germany forced America into the conflict by waging war against the United States by destroying American life and property at home and on the sea, and by conspiring with other nations for the invasion of the United States, German chivalry had, without warning, sunk 849 ships of friendly neutral nations, with a tonnage of 1,653,654 tons. The list comprised 20 American ships, 76 Dutch ships, 101 Swedish ships, 436 Norwegian ships, 114 Danish ships, 35 Spanish ships, 2 Brazilian ships, 60 Greek ships, and one ship each of Argentine, Peru and Uruguay. The only reason all these nations have not declared war upon Germany is because they are little and powerless against German might, and fear even to cease feeding Germany because of threats of German ruthlessness.

This slaughter of innocents of every nationality, these tragedies of the sea, these murders of friends engaged in valiantly relieving German distress, guilty of no belligerent acts; this universal impoverishment of the world which humanity will never forgive and history never forget, is an instance of German chivalry.

Who wants the friendship of such a nation of moral monstrosities? There is nothing to gain from such friendship. What self-respecting nation seeks it? It is indeed a compliment to be the bullseye of the target of German hate. But the realization that German autocracy is praying to God to strike down America, and the realization of what America's fate will be in case of German victory as a vassal nation, should stop the seditious tongues of the sissy pacifists who still claim to be Americans, and silence the sneering snarls of the flunkies of juggertum.

Peace? There can be no peace for the world until autocracy is beaten to its knees and the world made free for democracy to solve the problems of humanity and the menace of the mailed fist forever removed. Germany's war is a war upon civilization, and the kaiser, still defiant and unrepentant after three years of conflict, is still blasphemously and familiarly calling upon God to strike down democracy.

Napoleon remarked that God was on the side that had the biggest guns and the strongest armies—and it is up to America to secure the Lord's assistance by meriting it in the field—which we are going to do—and instead of, like heathens, calling upon God to strike their enemies, Germans will be praying to Him to save Germany—a Christian prayer.

MULCTING THE FARMER

THE annual skimming of the farmers of the Rogue River valley is in progress by grain and hay speculators. Wheat is selling in Portland as high as \$2.40, and in eastern Oregon at \$2.25 and upwards, and being sold here at \$2. The crop of the nation is short, the war has created an abnormal demand and wheat will not fall below these figures. Yet the local farmers, who organize only to fight irrigation, which would benefit them, do not organize to build their own warehouses and elevators, to hold, finance and market their own crops.

The Rogue River valley does not produce half enough grain to supply local demands. There is practically no grain, flour or feed shipped out. It is bought up after harvest at Portland prices, less the freight, held and resold later at Portland prices plus the freight. The farmer could have these profits, instead of the speculator or middleman. The wheat the farmer sells now will be resold later, without moving out of the valley, for from \$2.50 to \$3.50.

In 1910 we imported 48 cars of oats and barley, 432 cars of flour and millfeed. In 1911, 23 cars of grain, 276 of flour and feed. In 1913, 40 cars of grain and 403 of flour and feed. In 1914, 74 cars of grain and 463 of flour and feed. In 1915, 34 cars of grain and 413 of flour and feed, and a still greater quantity in 1916, while the exports were negligible—all of which proves that there is a home market for every kernel of grain raised.

It is the same with hay. All hay growers should save their hay for local feeding. There is a shortage thruout the country. If the hay is sold to speculators or foreign purchasers, and sent out of the valley, hay to replace it will have to be bought elsewhere and shipped in. If the hay leaves the valley, the livestock will be driven out to where it can be obtained and the industry be crippled.

Let the farmers organize to market their own grain and hay and secure the profits now going to those who neither sow nor reap. The entire valley would profit, no one more than the growers.

HOW TO HAVE A BEAUTIFUL NECK

Justine Johnstone

By IDA McGLONE GIBSON.

"I know of nowhere that the aesthetic laws of gradation and gentle curvature are more beautifully illustrated than in the column that supports Justine Johnstone's head upon her exquisite shoulders," said the man who sat across from me at a cabaret table.

And as usual, he was right. Justine Johnstone has that exquisite line from ear to shoulder that made Mrs. Langtry's fame as a professional beauty.

"Many women spend hours beautifying their faces; but stop there. I have always contended if one mas-

saged the head and neck carefully little time need be spent on the face.

No girl can afford to get fat if she wishes to have a beautiful neck, for nothing is so fatal as rolls of fat to columnar beauty.

An excellent cream to use on one's throat is made of sweet almond oil, 1-8 pound; white wax, 1-2 ounce; spermaceti, 1-2 ounce; oil of bitter almonds, 1-10 dram; oil of geranium 1-8 dram; tincture of benzoin, 10 drops. Melt at together and beat with an egg-beater until cold.

If you wish a beautiful neck, do not wear a very low necked bathing costume. Sunburned skin never regains its delicate texture.

KERENSKY TO HEAD DEFENSE OF RUSSIA

LONDON, Aug. 9.—The special department of defense of Russia, or the war cabinet, Reuter's correspondent at Petrograd learns, will be under the control of Premier Kerensky and will include Foreign Minister Teretshenko, Vice Premier Nekha-

soff, Minister of the Interior Aksemtieff and M. Savinkoff, the assistant minister of war. The meetings will be attended by General Korniloff, the commander-in-chief, when his duties permit.

AMERICAN ARMY TO BE REMODELED ON EUROPEAN LINES

WASHINGTON, Aug. 9.—Reductions of the strength of American army divisions to the European standard of 19,000 men and revival of the old army corps major tactical unit was recommended, it was learned today, by Major General Pershing, after a careful study of conditions at the front. American officers are convinced that sound military reasons induced the French and British war offices to adopt this tactical formation for trench warfare.

Reductions of the divisions means a big job for the war department. Much administrative work, already completed, probably will have to be thrown aside and done over. General Pershing's recommendations are positive, however, and the department's attitude is the same as it was toward General Funston during the Mexican trouble. The wishes of the men on the ground, on whom rests the responsibility for actual operations, will be met as far as practicable.

One effect of the reduction of both brigades and divisions will be to create many additional vacancies in the grades of major and brigadier-general.

RHENISH WESTPHALIA UNIONS OPPOSE PEACE

AMSTERDAM, Aug. 9.—Two hundred delegates from the Rhinish Westphalian Industrial unions assembled in congress at Dortmund, Germany, adopted a resolution against the peace declaration of the reichstag majority, and recorded their condemnation of any participation of the international social democrat movement fostered by enemies to sow dissension in the ranks of the German workers.

Good Farming Now Means Wealth

Farm products have never been so high as now, and the future, even the many, many years of reconstruction following the world war, holds forth no hope of cheap food for the consumer. Let us carefully consider our every opportunity, both present and future, and wisely decide to

Become Producers Instead of Consumers

To start with, a couple of cows, a few pigs and chickens and a good big garden and family orchard on a few acres of productive, well tilled land will make an independent living and will cost but comparatively little on a real good homestead. As you bring more land under cultivation your products will bring you a big cash price, whether it be grain or livestock or small farm produce. We wish to impress upon you that you are about to witness in the near future one of the

Greatest Government Land Openings in All History

Millions of acres of railway land has been forfeited, known as the O. & C. grant. Some of it is good, some poor, some rough and mountainous, but to our absolute knowledge there are many thousands of acres that we have personally cruised very carefully that constitute some of the best agricultural lands of all Oregon, often adjoining improved farms, near towns, etc.

THE FINDING AND ACCURATE SHOWING OF THIS BEST LAND NOW IS OUR BUSINESS. Call and see us for particulars of our club plan and auto excursion of inspection.

NO LOCATION FEE—TOTAL COST \$35.00—MONEY BACK IF MISREPRESENTED. And money talks. Do not deceive yourself or let others discourage you and ruin your opportunity.

Nine-tenths of all wisdom consists of being wise in time, says Roosevelt. Act now. Investigate. We know the facts. See for yourself. Later on it will certainly be too late. Let us tell you all about this splendid opportunity which none of us can ever see again.
