

PROVE POISONING OF KLAMATH CATTLE DURING I. W. W. RIOTS

SALEM, Or., Aug. 10.—Suspicion that cattle had been poisoned in Klamath county, Oregon, and in northern California recently when I. W. W. trouble was requiring the attention of officials in Klamath county is confirmed by the report of Dr. C. H. Schultz, a Seattle chemist, which was read here Wednesday afternoon at the annual meeting of the Oregon state livestock sanitary board.

ALLIES PLAN CENTRAL CONTROL OF TONNAGE

WASHINGTON, Aug. 10.—Central control of the world's tonnage with sharp reductions in ocean freight rates, were discussed at a conference today between the shipping board and Thomas Royden of the British mission.

The British proposes, it is understood, that the American government enter the inter-allied chartering conference and that neutral tonnage be forced in by operation of a joint allied bunkering arrangement and by exercise of the allies' control over their exports.

CONCERTED ACTION TO STAMP OUT I. W. W.

NORTH YAKIMA, Wash., Aug. 10.—County Prosecutor O. R. Schumann of Yakima county today sent out circular letters to prosecutors in other counties of the state urging concerted action by state, nation and communities to stamp out the I. W. W. Failure to discriminate between this and legitimate labor organizations, he says, is responsible for the disorders that have occurred. Some of the I. W. W. prisoners here have been released. An effort is being made to have complaints filed against others before next Tuesday, when habeas corpus proceedings in their behalf are to be heard in the federal court here.

GOVERNOR PROTESTS EXCLUSION OF MUTTON

SALEM, Or., Aug. 10.—Governor James Withycombe announced here today he intends to ask the northwest governors, who are to confer in Portland tomorrow, to protest to Herbert Hoover against the United States food administration's recent decision that mutton be tabooed at hotels and restaurants.

DAKOTA PACIFIST WANTS PEACE TERMS

WASHINGTON, Aug. 10.—Representative John M. Buer of North Dakota, elected on the platform of the National Non-Partisan league, was sworn in today and gave out a statement demanding that the government make a specific declaration of its terms of peace.

PROFITS TO PAY WAR COST

(Continued from page 1.) Individuals with respect to income surtaxes. Eliminating Tariff. Regarding elimination of the house general 10 per cent ad valorem tariff levy, Mr. Simmons said: "While the government would realize from these tariff levies \$200,000,000, the domestic producers of this

country would, as a result, collect out of the people an amount three or four times greater than the amount which it is estimated the government will receive from the tax."

The reduced tobacco taxes, he said, would raise the same revenues as the house rates, without burdening either producers or consumers. Liquor rates, he added, were raised because the food control laws provisions stopping manufacture of whisky made it advisable to find other revenue sources.

Mr. Simmons' statement regarding the publishers' tax was: "Your committee decided to eliminate the house zone system because it was made clear to them that it is a tax which would be not only burdensome, but in a number of cases disastrous to many valuable publications. Representatives of practically all the great publications appeared before the committee against this tax. The tax substituted by your committee is not a logical one, it must be confessed, but it was the best your committee was able to devise, in view of the present conditions of the publishing business."

With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the Fingers if you will apply directly upon the corn a few drops of Freezone, says a Cincinnati authority. It is claimed that at small cost one can get a quarter of an ounce of Freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection. This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue. This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's foot.

Evans, and non-in-law of Mrs. D. McCarthy, both of this city.
