

HISTORIAN LEADS SECESSION MOVE OF UKRANIANS

(Correspondence of the Associated Press.)
PETROGRAD, July 15.—Leaders of the Ukrainian quasi-secessionist movement, which involves the fate of south and southwest Russia from Galicia to the Caucasus with at least 20,000,000 inhabitants, are the scholar and historian Professor Grushevski and the novelist and poet Vinnichenko. Grushevski is the brain and organizing talent of the secession. Vinnichenko furnishes the fire and inspiration.

Grushevski, who is 61 years old, virtually created the modern Ukrainian cultural movement. For 28 years he played towards the Ukraine the role which Count Etienne Szechenyi played in the renaissance of Hungary. Grushevski's dominant aim is the union of the Russian Ukraine with Ruthenian East Galicia, which is inhabited by the same race. From Lemberg where he taught as professor, he extended his propagandist activities to Russia, founded the famous little-Russian "Literary and Scientific Review," issuing parallel editions in Lemberg and Kieff; and in hundreds of lectures, pamphlets and articles preached Ukrainian union.

Grushevski is one of Europe's most learned men. He is a sapper and cautious polemicist; and his leadership is invaluable in a movement which is largely controlled by unrestrained enthusiasts.

Such an enthusiast is Vinnichenko. Vinnichenko was born in 1880; began his propagandist activities while still a student at Kieff; and was expelled from the university. Being called up for army service—the autocracy's usual punitive measure against revolutionary students—he fled abroad.

After that he began literary work which made him famous throughout the Ukraine and Russia. He developed markedly individualist views, proclaiming personal freedom to the point of anarchy. His novel "Honesty With ones' Self," so shocked the readers of Grushevski's review that publication had to be discontinued. Vinnichenko's views, the best-known of which are set forth in "The Lie" and "The Black Panther," express the same idea—that a man's first duty is "to become himself."

GERMANY PLANS MONOPOLY OF STEEL

BERLIN, Aug. 13, via London.—Chancellor Michaelis told a newspaper interviewer at Mannheim Sunday that the question of governmental monopoly of railway products for the reconstruction period after the war was not yet ripe for discussion. Strengthening of the nation's economic resources was an implicit need for the future, the chancellor added, especially in the face of threatened trade blockades by enemies.

Dr. Michaelis pointed out that increased demands in the nation's budget warranted the government availing itself of the opportunity to extract revenue from the control and supply of railway materials and that those branches of industry which had been dependent on substitutes will be given the first consideration.

EFFORTS TO SETTLE KANSAS CITY STRIKE

KANSAS CITY, Aug. 13.—The next move in the traction strike which began here last Wednesday when more than 2000 employees of the Kansas City Railways company quit their positions, tying up the city so completely that not a car has run since, was placed squarely before the strikers. The company has presented a tentative proposal to the men, which, along general lines, conformed to their demands. The strikers today are considering their reply. More than 600 strike-breakers, deported from the city yesterday, today were being held a Solsa, Mo., 16 miles east of here.

HOW TO HAVE BEAUTIFUL EYES

JANE COWL

By IDAH McGLONE GIBSON.
"Those eyes are too dazzling for daylight wear," said the man who sat beside me at the theatre.

The eyes he referred to belong to Jane Cowl. Jane has the most beautiful eyes held captive on the stage.

And yet the blue, the gray or the black-eyed girls need not envy Jane the deep golden brown of her eyes. Rather they should notice their expression on the stage and screen where they will be seen this winter. For the beauty of the eye depends at last upon its expression.

Health, form, the way it is set in the face, eyebrows and lashes, and last and most important, expression, is the way eyes should be classified by the beauty connoisseur.

You can't have bright eyes unless you have health.

Form can be made more exquisite

If one sets oneself before a glass and opens and shuts the eyes, trying to illustrate certain emotions.

Never raise your eyelids until the white shows above the iris, and remember you can with a little practice say more with your eyes than with your tongue. One of the world's most famous beauties said, "Glances are the first billet dieux of love." The modern man is apt to put it in this fashion—"The moment she turned those lamps on me I was hers."

Like all things physical eyes must have care. Wash them every day with pure luke-warm water. Add 20 drops of boric acid solution to one cup of water and use an eye-cup. Do not rub dry. Softly press a linen handkerchief to your lids until there is no more moisture.

Never sleep facing a window and avoid reading with your eyes facing the light.

22 PER CENT DRAFTED ACCEPTED, NEW YORK

NEW YORK, Aug. 13.—The revised figures of the work of the 189 exemption boards as far as the various districts had reported up today show that 60,152 men had been examined, of whom 40,867 qualified. Of this number, 13,478, or about 22 per cent, had been apparently accepted. The district draft board, of which Charles E. Hughes is chairman, today began hearing exemption classes exempted by local boards. This board will have about 25,000 cases to decide. Mr. Hughes will personally hear the first few cases.

HOMEOPATHS FORMING UNIT FOR WAR WORK

SAN FRANCISCO, Aug. 13.—Homeopathic physicians from every county in the state were to meet here late today to perfect plans for the organization of a homeopathic physicians' unit for the sixth district, comprising California, Washington and Oregon. An urgent appeal was to be made for all homeopathic physicians to join the army medical corps, which will need 20,000 medical men to attend American soldiers in France, according to Dr. Guy E. Manning of the San Francisco board of health, who returned recently from a conference with the surgeon-general of the navy at Washington.

GERMAN DYNASTIES MUST GO TO WIN PEACE IN EUROPE

(Correspondence of the Associated Press.)
GENEVA, July 15.—"The Hohenzollerns and the Hapsburgs must go in order to have a durable peace in Europe," declared Jean Sigg, member of the Swiss National Council, Chief of the socialists in Geneva and one of the most influential members of his party in Switzerland, in an interview with the Associated Press correspondent.

"The hour of the Hohenzollerns and the Hapsburgs has sounded," he continued. "The tide of democracy which is sweeping across Europe will also sweep them away, not perhaps during the war, but soon afterward. Millions of men will not agree, will not allow in future, that their destinies, their lives, should be ruled by a handful of autocrats. In this sense this terrible war has wrought good: It has opened the eyes of the people. The Russian emperor has gone, more emperors will follow."

Mr. Sigg has the greatest faith in new Russia, if allowed to rebuild its own regeneration without foreign, especially German influence. He considers the Stockholm conference more or less a farce owing to the divergent views of the socialist delegates from the different countries. He flouts the work at Petrograd of Robert Grimm, the Swiss socialist who endeavored to make peace between Germany and Russia, who, he says, never represented Swiss socialism and who acted like Hoffmann on his own authority without consulting his colleagues.

"German socialists, with few exceptions," said Mr. Sigg, "have betrayed international socialism by following like a flock of sheep in the footsteps of German junkerism, but they are now beginning to awake from their false dream."

"Tho, like all Swiss, I ardently wish for peace, I don't see it in sight. A peace treaty now—I saw this as a neutral—would be all in the favor of Germany, a status quo ante. The allies, backed now by America, rightly will not permit this in the cause of justice and humanity. The social questions after the war will be difficult to solve—but wait first until the war is finished."

JAPAN ASKS STEEL FROM UNITED STATES

TOKIO, Aug. 13.—Leading members of the Komin party, composed of national liberals and a number of prominent ship builders, held meetings and adopted resolutions, urging the government to negotiate with the United States in an endeavor to procure a modification of the embargo on steel exportation, on the ground that it will prove a serious menace to Japan's industries.
