

PETAINE PRESENTED GRAND CROSS OF LEGION OF HONOR

VERDUN, Aug. 30.—President Poincare personally presented today to General Petaine, the French commander-in-chief, the grand cross of the Legion of Honor awarded to him several days ago for the recent successes here. The presentation was made in the Plate d'Armes. In his presentation address the president said: "Our enemies try in vain to disfigure history and spread among neutrals fables made to order. They try desperately to shake off the responsibilities that crush them. In vain do the false newsmongers, established in imperial cities, spread clouds of black smoke for a propitious wind to blow across the frontiers. These are dissipated, one after the other, by the rays of truth. "Convinced herself that she cannot obtain a military victory on our front, Germany takes refuge in a last illusion. She imagines she can overcome us by an internal crisis, and for several weeks past she has announced them noisily. Neither those puerile maneuvers nor the infamous propaganda that accompanies them will succeed in troubling public opinion, which will remain worthy of our cause and of the admirable soldiers that defend it."

THOUSANDS FIGHT MONTANA FIRES

MISSOULA, Mont., Aug. 30.—The forest fire situation in Western Montana narrowed down today to a struggle between the thousands of fire-fighters and the flames, with the fire-fighting crews gradually establishing control lines by means of back fires and trench lines. The Seeley lake fire has not gained ground for two days, and the fire at Lolo Hot Springs has been prevented from crossing the road between the springs and Howard creek. There is no hope of controlling either fire until the fall rain comes. The Elbow lake fire is burning over a large territory, with a crew of 80 men fighting it. Two smaller fires were also reported today. Fifteen men were sent to Lothrop and 15 to Woodman, and today the supply of men in Missoula is nearly exhausted.

POLISH COUNCIL OF STATE RESIGNS

COPENHAGEN, Aug. 30.—The Berlin Lokal Anzeiger reports that the entire Polish council of state has resigned. The great underlying cause responsible for the council's decision to abandon its attempt to organize a government under the proposed German protectorate is the change in the Polish attitude resulting from the Russian revolution, according to the newspaper. The direct reason to be sought, however, is in the great hesitation and delay of the Austro-German powers in entrusting to the Polish authorities the reconquest over the Polish army, in which the Germans wish to incorporate their own forces, and the German determination to exclude Lithuania from the new kingdom. The Poles insist that the kingdom be included in the protectorate.

PUBLIC WARNED OUT OF FORESTS

PORTLAND, Aug. 30.—Warning has been issued publicly from the offices of Adjutant-General George A. White to all persons to exercise extreme care about entering Oregon forests during the present fire emergency. "The woods are full of military patrols with rigid instructions to shoot incendiaries," says the warning. "They are operating in all sections where forests are to be found. If necessary for you to go into the woods, be careful about lighting fires, as the patrols, while instructed to be cautious, might make a mistake."

VISCOUNT ISHII PLEDGES FRIENDSHIP OF JAPANESE

(Continued from page 1.) Americans a passion for liberty and of loyalty to their flag. "Blind loyalty without national consciousness or the responsibility of self is but another name for slavery, while a right of liberty ill-conceived, ignoring the human affection and respect for the rights of every man which form the essence of true loyalty, must be tantamount to anarchy. These two passions—passion of loyalty and passion for liberty—are they not really one? Is it not the same control working in both cases? The intense desire to be true to our innermost selves and to the highest and best that has been revealed to us? You must be free to be Americans and we must be free to be Japanese. But our common enemy is not content with this freedom for the nation nor for the individual; he must force all the world to be German too. You had hoped against hope that this was not so, but that noble hope fled and your admirable patience was exhausted. You did not then hesitate to face the issue and the foe as you are now facing it with that great American spirit which has loved and still loves liberty, which loves the right more than peace and honor more than life.

Why Japan Entered. "We of Japan took up arms against Germany because a solemn treaty was not to us a 'scrap of paper.' We did not enter into this war because we had any selfish interest to promote or any ill-conceived ambition to gratify. We are in the war, insist on being in it, and we shall stay in it because earnestly, as a nation and as individuals, we believe in the righteousness of the cause for which we stand, because we believe that only by a complete victory for that cause can there be made a righteous, honorable and permanent peace, so that this world may be made safe for all men to live in and so that all nations may work out their destinies untrammelled by war. "Mr. President and gentlemen: Whatever the critic half-informed or the hired slanderer may say against us, in forming your judgment of Japan, we ask you only to use those splendid abilities that guide this great nation.

Working Together. "The criminal plotter takes advantage of the fact that at this time of world's crises, many things must of necessity remain untold and unrecorded in the newspapers, but we are satisfied that we are doing our best. In this tremendous work, as we move together, shoulder to shoulder, to a certain victory, America and Japan must have many things in which the one can help the other. We have much in common and much to do in concert. That is the reason why I have been sent and that is the reason you have received me here today. "I have an earnest and abiding faith that this association of ours—the highest, most sacred and most trying of human activities—the armed vindication of right and justice—must bring us to a still closer concord and a deeper confidence one in the other, sealing for all time bonds of cordial friendship between our two nations. Again I thank you."

GARFIELD NEW COAL HEAD (Continued from Page One.) to \$2, and even business men who buy in large quantities, will be disappointed in the immediate effects. The law will not affect coal for which contracts have been made, and certainly more than half the coal mined and consumed is subject to contracts running from one month to five years ahead. The \$2 price is intended to affect the floating coal and by eliminating undue speculation, make it possible for those who have not contracted and buy in small quantities to meet their needs without being bled. The two-dollar mine price will not necessarily affect the retailer. Many retailers are merely subsidiary corporations controlled by larger corporations which own the mines. The railroads are also interlocked with such coal companies. The two dollar price is merely a point of departure at which the wholesaler begins to reckon his retail profit, for he is also the retailer. If the two-dollar mine price becomes extortionate at the stove or furnace of the consumer, there is ample power in the law to find out where the profiteering comes in and check it. Coal Controller Garfield probably will begin by putting his finger on points of congestion and undertaking their relief. If this does not work, there are other remedies.

HUNTING SEASON CLOSED, WASHINGTON

OLYMPIA, Wash., Aug. 30.—Governor Lister, on the recommendation of the state forestry department and the state game warden, has postponed from September 1 to September 15 the opening date of the hunting season for upland birds in the counties of Eastern Washington. On account of the dryness of the woods and fields it was regarded as unsafe to permit hunting, for fear of fires being started.
