

ASHLAND AND VICINITY

The buzz of the saw and dull thud of the ax reverberated all over town on Wednesday, and some even say that chips from the Hodgson wood lot southwest of town fell on the plaza. It was all occasioned by a band of faithful workers from the Methodist church who volunteered to cut the winter's supply of fuel, inasmuch as the standing timber was donated by W. D. Hodgson. D. L. Glenn cruised the tract and Pastor Douglas keyed the saws to the proper pitch. Others did the actual work, while J. R. McCracken made the coffee and Ralph Billings poured. It will be several days before the actual output of wood, as measured by tiers, will be determined, it being "nine run."

Wednesday's manifest of supplies forwarded by express to First company at Fort Stevens by the Soldiers' Auxiliary, included ten boxes of peaches, four of plums and one of pears in the fruit line. The vegetable shipment comprised a sack each of cabbage and carrots, and two sacks of string beans. A box of pieplant was also sent along by way of variety. Shipments are made regularly every week.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of frezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet. A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while frezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Don't let father die of infection or lockjaw from whitening at his corns. But clip this out and make him try it.
