WOMEN PLAN FOR CO-OPERATIVE WORK HOME ECONOMICS

On Wednesday afternoon at the library a meeting was held with representatives from Ashland, Jacksonville, Talent and Medford, in the interest of co-operative extension work in home economics for the state of Oregon. This work is under the direction of Miss McCormick, who is in the employ of the government but under the direction of the Oregon Agricultural college.

Mrs. F. W. Mears presided and after the election of Miss Julia Fields as secretary, Miss McCormick explained the purpose of the meeting and gave an outline of the work she has planned to do in Jackson and Josephine counties this coming year. While her work in a general way lies along the conservation of food, the lateness of the year makes it impracticable to demonstrate canning or drying, so she hopes to take up in talks and lectures the subjects of food values, properly balanced meals, school lunches, nutritious food substitutions, and mistakes to avoid in false economy which might impair the health of the family.

Miss McCormick will present her work through the medium of the grange, parent-teacher circles, women's clubs, community gatherings, and the public schools. At various times as the occasion arises, she will conduct demonstrations of her work.

An opportunity was given the ladies to ask Miss McCormick questions relating to her work. A number of questions were discussed, among others being that of saving the large amount of fruit lying on the ground in the orchards and making it available to people who have no fruit.

As an aid to getting the work established and bringing it before the different communities Miss McCormick asked that a county committee be elected.

The following women were elected who will represent their respective towns: Mrs. Gard, Ashland; Mrs. Burzan, Talent; Mrs. H. Luy, Jacksonville; Mrs. Hearn, Phoenix; Mrs. Kelsey, Gold Hill; Mrs. Gilmore, Rogue River; Mrs. W. H. Norcross, Central Point; Mrs. Geo. Van der

MAY CO.'S OFFERINGS FOR LADY CUSTOMERS

The May Co. has secured a bargain in something that will interest all the ladies of the city and valley. It is a ten-piece ramakin cooking set, consisting of a casserole, mixing bowl, pudding dish, six individual custards or baking cups, and a large asbestos mat. There is also a cook book by Alice Carey Watterman with each set.

The earthenware set has a rich mahogany exterior finish, pure white lining that won't chip or peel, that's impervious to grease or dirt. It is not only a handsome set but is something that is needed every day by the housewife.

These sets were purchased from a firm that has had them for some time and sold them at a bargain to dispose of the lot. The set has an established value of about \$2.25, but the May company will sell them to customers at 95 cents, after you have purchased \$5 worth of goods and bring with you sales slips to that amount. The prices on these sets have greatly advanced recently.

See display in the windows Saturday, September 8.

CRAZED BY WILD IMAGININGS OF ALLIED DISASTER

With a face that once may have been kindly and brave distorted into inter-linguistic admittances of blood rage and covering fear, a man registered at the Hotel Medford on Wednesday under the name of D. J. O'Donnell, with the postscript, "the man the Germans at the Bremer navy yards tried to kill, but never will," added, aroused curiosity, excitement, mirth and pity within his stay here.

He later was asked to leave the Hotel Medford, and it was reported Thursday he went north on train No. 16 Wednesday night.

O'Donnell was laboring under a delusion that disasters had befallen the entire allies. He asserted that he had heard from "hidden voices" that the Germans had broken through the French lines near Rheims, turned

both banks of the French army and were hurrying an army of a million men on to Paris; that Russia, Rumania, Serbia and Italy had made separate peace and that Japan had allied itself to the Teutonic powers, had taken Manila and Honolulu overnight, and were bombarding Crescent City with long-distance, heavy caliber naval guns. The British fleet had been destroyed, his frenzied imaginings told him, and 2000 German aircraft had burned Woolwich arsenal, bombed to death half a million British troops in training on Salisbury plain, and had destroyed also Leeds and Birmingham.

The man was very earnest, although quiet and unobtrusive. He was well dressed, and had money. Where he came from, where he went, or where he belonged, is a mystery.
