

ASHLAND AND VICINITY

Up to Thursday about 150 persons had registered at the old soldiers' reunion here this week. This includes veterans of both the civil and Spanish wars, also members of the relief corps. Besides Jackson, Josephine and Klamath counties, representatives are here from northern California towns, and section as far distant as the central west. Officers for the ensuing year were elected on Wednesday as follows: Colonel, J. E. Peterson, Grants Pass; Lieutenant, Colonel, F. M. Putney, Medford; Major, G. O. VanNatta, and chaplain, Mrs. A. C. Spencer, both of Ashland. The offices of adjutant and quartermaster will be filled later on by appointment of the colonel. At a business meeting it was decided that hereafter the association would meet its own expenses regardless of any soliciting of funds from the respective towns in which the annual reunions are held. This would indicate that promised financial aid in behalf of the reunion is not always forthcoming. The 1917 gathering ends with a program on Friday by the Medford contingent.

Do You Know What "Jazz" Means? If You Don't Read This

Next Tuesday evening the Jazz orchestra from the Oregon Grill, Portland, will play for the opening dance to be given under the auspices of the Jackson County Fair association. On the opening evening there will be absolutely no change to spectators. Everybody is invited.

It might be well at this time to give a brief explanation of what "Jazz" means for the benefit of those who have not heard or danced to Jazz music.

The following is quoted from the Literary Digest. A strange word has gained widespread use in the ranks of our producers of popular music. It is "jazz," used mainly as an adjective descriptive of a band. The group that play for dancing, when colored, seemed infected with the virus that they try to instill as a stimulus in others. They shake and jump and writhe in ways to suggest a return of the medieval jumping mania. The word, according to Walter Kingsley, famous in the ranks of vaudeville, is variously spelled—jas, jass, jaz, jasz, and jasz; and is African in origin. Lafcadio Hearn,

we are told, found the word in the creole patois and idiom of New Orleans taken it from the blacks, and "applied it to music of a rudimentary syncopated type." In the New York sun, Mr. Kingsley rehearses many of the curious facts and customs associated with "speeding up things." The creoles leans and reported that it meant ated with the word:

"In the old plantation days, when the slaves were having one of their rare holidays and the fun languished, some West-Coast African would cry out, 'Jax her up,' and this would be the cue for fast and furious fun. No doubt the witch-doctors and medicine men on the Kongo used the same term at those jungle 'parties' when the tomtoms throbbed and the sturdy warriors gave their pep an added kick with rich brews of Yohimbin bark—that precious product of the Kameruns. Curiously enough the phrase 'Jax her up' is a common one today in vaudeville and on the circus lot. When a vaudeville act needs ginger the cry from the advisers in the wings is 'put in jaz,' meaning add low comedy, go to high speed and accelerate the comedy spark."
