AN INDEPENDENT NEWSPAPER PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY AT THE MEDFORD PRINTING CO. Office Mail Tribune Building, 24-27-28 North Fir street; telephone 72.

YOU CAN AND MUST HELP

YOUR government has just begun its second liberty loan bond selling campaign. It should not be necessary to go out into the highways and byways, thru offices, mills, factories, stores and homes to get the money your government needs to wage your war for democracy, but because so many of us are busily engaged in doing the world's work, earning our living and supporting families, it is needful that a few patriotic persons give of their time and energy to call home to each of us this duty of citizenship—to provide the sinews of war.

The United States needs \$2,000,000,000. Keep that in your mind constantly from today until the second liberty loan is over-subscribed. Tell it to your friends and neighbors, the man who works near you in the shop, the man on the next farm—everyone you meet. It is true that the first loan of \$2,000,000,000 was over-subscribed, but it was not until the closing minutes of the selling campaign that this was done. Let us over-subscribe this second loan during the early part of the month. Let us buckle right down to the job of showing the Prussian war lord and his junkers that we are back of the president with our last dollar as well as our last man.

No German defeat on European battlefield will be half as disheartening to the kaiser as the over-subscription of this second liberty loan within a comparatively few days. That will mean to him that America is in the war to win, regardless of expense in life or gold.

All the glory of victory is not to be found in camp and trench. Much of it comes to those who stay behind and work and pay.

But, really, it is not paying, for you merely loan the money to your government. Your loan brings you 4 per cent interest, and its payment is guaranteed by the strongest and best government on earth—your government.

The owner of a liberty loan bond holds written tangible evidence of being a preferred stockholder in the United States, the greatest, the most glorious, the most honorable and the most successful corporation in the world. He holds the certificate of being a citizen willing to support his government and to lend money to his country when it needs it and calls for it.

There is honor in being the owner of a liberty loan bond as well as profit.

Not only honor and profit, but, as Secretary of the Treasury McAdoo puts it: "In protecting the credit of the United States government you are protecting your own credit, you are protecting your own business, you are protecting every interest you have in life and property."

A safe investment is particularly suited to a farmer because he is in most instances at a distance from bond markets and not in position either to know of or immediately act upon information of matters affecting the sale of bonds. The liberty loan bonds are invincibly safe, backed as they are by the resources of the richest nation in the world and the faith and credit of a people who have always respected their obligations, and they are of stable value and liable to little or no fluctuations in market value.

Whether you subscribed to the first liberty loan matters not when considering your subscription to the second loan.

These things should be taken into consideration: Are you a patriotic American? Are you patriotic enough to loan that \$50 or \$5000 you have to your government?

Are you patriotic enough, even though you have no money laid away, to deny yourself some luxuries or to work a little harder and save a dollar or two a week, purchasing a bond on the installment plan?

America today is filled with young men of the country who wear their country's uniform and who have offered their lives to the service of their country. Every city, every town, every hamlet, every country community has some of its boys in the military uniform of their country. They are the very flower of our young manhood.

They are the men who are to go to the battle front. How effective they will be there, how safe they will be there depends on the support that their country gives them. The slower the United States is to exert its full power and put an end to the carnage in Europe the more of those Americans who are now in France and those who soon are to join them will suffer death and the greater number of American homes will be made desolate.

The soldiers of the United States are standing by their country with a steady courage and devotion to duty that should inspire the nation with pride and patriotism and loyalty. Some of them now are facing death for their people, are participating in the great battles in Europe to make the world safe for democracy, to insure our own safety and to vindicate our honor.

We who remain here in peace and safety must surely do our part.

We should support our soldiers with all our means, all of our resources, all of the combined might and power of the great nation that we are.

You can do your share by subscribing for as many of the second liberty bonds as you can afford—and by doing that early.

SCHOOLS OPEN WITH REGISTRATION UNDER NORMAL

Table with 2 columns: School name and registration count. Includes High school (250), Washington school (205), Lincoln school (150), Roosevelt school (135), Jackson school (120).

Although yesterday's school registration is less than that of last year, Supt. Hills believes that when the picking season ends and the young people now at work return to their homes the deficiency will be fully made up.

Mr. Hills says that in some cases entire families of children who are still in the city have not registered and investigation has shown that they are at work in the valley, sometimes with their parents and earning as high as \$2.50 and \$3 a day.

The teachers were busy yesterday assigning the scholars to their rooms and classes, and there will undoubtedly be additions to all the schools during the week. There has been nothing decided regarding the athletic program for the fall, but little football material is available and it is possible that instead of one high school team they will have a number of class teams, so that more of the boys can secure the exercise and training.

FOREST SERVICE FIRE STATIONS COMPLETED

The federal forest service completed Windy Peak lookout station yesterday, the Mt. Pitt station will be completed today and Rattlesnake Peak station will be completed Thursday. This work will increase the already high efficiency of the federal fire fighting service in southern Oregon.

All the lumber for the lookout stations was shipped in ready to be put in place and to get to the tops of the lookout stations special trails had to be built and the lumber taken up by pack train.

The lookout stations are twelve feet square, with bedroom, kitchen, dining table and cupboards for the observer. On Rattlesnake Peak a 12-foot steel tower was built as a foundation for the lookout station. Some idea of the value of these lookout stations for fire fighting may be gleaned from the fact that the lookout on Mt. Pitt will be 4150 feet above sea level, 6100 feet on Rattlesnake Peak and about 5300 feet on Windy Peak.

IRRIGATION BOND ISSUE CARRIES IN GOLD HILL

By a vote of 77 to 9, the Gold Hill Irrigation district decided to issue bonds totaling \$100,000 at a special election held yesterday. Details of the issue remain to be perfected.

Yesterday's action got the administration of the project in completed work will result in the supplying of water to many fine tracts which can be made to produce several fold above their present rate. Water is to be taken from the Hogan river about two miles above Gold Hill and it is stated that no men will be necessary, resulting in a considerable saving of money which can be spent on other work. Construction is expected to begin as soon as the clerical work connected with the bond issue is completed.

sugar and heat mixture gradually to the boiling point, or nearly to it, and cook 20 minutes. This cooking can best be done in a double boiler. Allow the mixture to cool to room temperature and add the yeast and flour. Mold thoroughly, let rise until it doubles in bulk; make into a loaf; place in a pan of standard size; allow to rise until it nearly fills the pan and bake 45 to 50 minutes. This recipe is worth trying.

Quick Corn Meal Bread.—One cup corn meal, one cup wheat flour, one-quarter cup sugar, one-half teaspoon soda, one-half teaspoon baking powder, one teaspoon salt, one and one-half cups sour milk or buttermilk. Mix and sift dry ingredients and add gradually the sour milk. Beat well and bake in a shallow, well-greased pan in a moderate oven.

Cornmeal gems can be made from this recipe if desired. This recipe is especially economical, as it calls for no eggs and sour milk, which is too often thrown out, can be utilized.

Next week: War breads continued.

TURN FOOL'S GOLD INTO REAL GOLD

CHICAGO, Oct. 2.—The yellow, glistening metal so common in lumps of coal, known as "fool's gold," may be turned into real gold, according to a statement made public today by Joseph E. Pogue, state geologist. He asserts that the "fool's gold" or pyrite is rich in sulphur, a substance used in large quantities for explosives and other war purposes.

He urges the mine owners of the state to turn this supposedly waste product into a handsome profit. In doing so, he says, the coal industry will not only gain, but will render a distinct service to the country at large, which is badly in need of domestic supplies of pyrite.

ANTIOCH ITEMS

Mr. and Mrs. Ralph Dean and family of the Willow Springs district were visiting relatives in Antioch Sunday.

Claude Rodgers, who has been working in Klamath county for some time past, returned to his home in Beagle to spend several days' visit with home folks.

Percy Chapman and family and Mr. and Mrs. Childs of Medford were visiting at the home of W. C. Chapman and family last Sunday.

Mrs. Aekley and daughter Nellie of Tillamook county arrived here Monday to spend several weeks with Mrs. D. O. Frederick, a daughter of Mrs. Aekley, also a son, Lee Aekley, of Medford.

Theo Glass and family of Antioch were Medford visitors one day last week.

Mr. Hale of Medford was doing business in the Antioch precinct the past week.

Mr. and Mrs. Lee Aekley and family and Harry Aekley of Medford were visitors at the home of Mr. and Mrs. Frederick Sunday.

Jim Vincent of Antioch is busy making sorghum for his neighbors this week.

Mr. and Mrs. Jesse Glass and family returned home from the buckleberry patch one day last week.

Several girls of this precinct will commence work at the Central Pom high school the first of this month.

Mr. and Mrs. Ed Moore and son Joe, and Mr. and Mrs. Cort Snyder and family, who have been camping at the Buckleberry mountain and Brown's cabin for several weeks, returned home last week.

Mr. Perry of Medford passed thru the valley on his way to the Meadows last Thursday.

L. M. Sweet of Beagle was transacting business in the valley town Monday.

The Antioch school commenced Monday, October 1, with quite a number of scholars in attendance.

Mr. and Mrs. Arthur Jones, who are working on a ranch east of Medford, were visiting friends and relatives in Antioch Sunday.

Mr. and Mrs. Frederick and children and Miss Lillian Chapman spent several days last week camping on Evans creek.

Mr. and Mrs. Charles Hoekersmith, Mr. Roberts and Mr. Hoekersmith, Jr., all of the Meadows, passed thru the valley Monday on their way to town.

Deafness Cannot Be Cured

by deaf specialists, as they cannot reach the internal portion of the ear. There is only one way to cure deafness, and that is by construction of an artificial hearing organ. This is done by the use of the Vose hearing aid. When this tube is inserted into the ear, it conducts the sound waves to the internal portion of the ear, and the hearing is restored. It is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.

SCHOOLS TO AID IN PRESERVATION OF FOOD FOR WINTER

With the opening of the school year the domestic science department of the Medford schools finds itself with a patriotic duty to perform. Plans are being laid for a course of study which will carry out both in theory and practice, the principles of the food administration in the conservation and intelligent use of food materials.

The first part of the term will be spent in the preservation of food for winter use by canning and drying. A practical dryer, easily made in any home, is to be constructed by the manual training department, and will be used thruout the term. Later a thorough study of food values and food chemistry will be carried on, for food cannot be wisely substituted or conserved without a knowledge of food principles. Marketing will also be included in the course.

The school cafeteria, which has been successfully conducted for the past two years, will be continued thruout the year. In this way it is possible for a student to obtain an entire lunch or a hot food with lunch brought from home. Authorities on the feeding of children agree that the health and mental powers are benefited by a hot soup or drink during the lunch time.

The department would be glad to use any food products which might be going to waste about the city. Anyone having such products may notify Mr. Hills, superintendent of city schools, or Miss Mitchell, instructor in the department.

Visitors are always welcome to inspect the work done by the students or the plans for the year.

EDEN PRECINCT

J. E. Roberts and C. Carey were in Medford from North Talent Saturday.

Mr. and Mrs. J. M. Rader and Mrs. Effie Taylor and Mrs. A. S. Furry were Medford visitors Saturday.

Mr. and Mrs. John Rader and Mr. and Mrs. Harvey Stanley of Engle Point were guests at the Joe Rader home last Sunday.

Mr. and Mrs. Walter Stancliffe motored out to the Hamlin ranch last Tuesday evening to visit Mrs. E. Hamlin and her son, Ed Hamlin. Mr. and Mrs. A. H. Fisher and Mrs. John Mast, Miss Inez Fisher motored to Ashland Sunday afternoon from Phoenix.

J. E. Roberts and S. S. Stephens

PAPE'S DIAPEPSIN FOR INDIGESTION OR SOUR, ACID STOMACH

In five minutes! No dyspepsia, indigestion or any stomach misery.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and upsets you; your head aches and you feel sick and miserable, that's when you realize the wonderful acid neutralizing power in Pape's Diapepsin. It makes all such stomach misery, due to acidity, vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have an acid stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" sweeten out-of-order stomachs that give it millions of sales annually.

Get a large 50-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest antacid and stomach relief known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.

BUICK Power Auto Co.

JOHN A. PERL UNDERTAKER LADY ASSISTANT. 38 SOUTH BARTLETT. Phone M. 47 and 43-J. Automobile Hearse Service. Ambulance Service. Coroner.

have been shipping hundreds of boxes of tomatoes to the Portland market the past month.

B. N. French of North Talent was trading in Talent Friday.

It seems that the fire bug is turned loose in Phoenix, there having been two fires in ten days. The home of Mr. and Mrs. Myers was burned Sunday a week ago, and last Friday night the old Hinkle blacksmith shop caught fire, but was saved by the Phoenix fire department.

Miss Leta Stephens returned Friday from Salem, where she took her canned fruit exhibit to the state fair. Mrs. E. Calhoun and son, Andrew, of Rocky Ford orchard, were visiting Mrs. S. S. Stephens of North Talent last Friday.

Lawrence French is now employed as track inspector between Phoenix and Gold Hill, under Mr. Johnson of Phoenix.

George Helms, a one-time resident of Talent, is in the valley looking after his ranch, over near Roxy Ann. Mr. Helms reports times dull in San Francisco and says the Rogue looks good to him.

The Rogue River Canal company has been enlarging the big ditch between Talent and Phoenix. Eight or

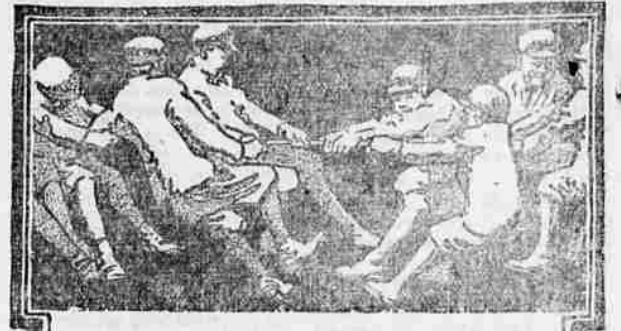

ten teams with men and scrapers have been busy the past ten days, and a large canal has been dug.

Talent nurseryman numbered 519 tons of potatoes last Friday from one field. This was only one picking. They were gathered from a thirteen-acre tract set out from the Carey plants.

Mrs. M. Stockford returned to Medford last Friday after a three weeks' visit with her parents, Mr. and Mrs. J. D. Henry.

Guests at the pleasant home of Mrs. Reimer Friday evening were: Mr. McCormick and his sister, Miss Annie McCormick, Mr. Noren and Mr. Wagner of the O. A. C. Mr. Noren leaves this week for California, expecting to enter the service. Mr. Wagner also leaves for Washington, D. C., where he will enter into office work. The guests were entertained at an informal dinner. The evening was spent in pleasant converse.

Attention, A. P. & A. M. All Master Masons are requested to assemble at Masonic hall, Medford lodge 102, at 2 p. m. Wednesday to attend the funeral of Brother L. Nelson. By order of the W. M.

Krumbles makes sturdy boys; because it is made from the whole of the Durum wheat, with its protein, phosphates and mineral salts—the things that doctors say all children need.— Look for this signature W.K. Kellogg. All Wheat Ready to Eat.

NOTICE No matter what the purchase is, whether large or small, if in a Reddy Box it's all right. See Our Rings and Bracelet Watches MARTIN J. REDDY. QUALITY FIRST. Phone One-O.
