### OFFICIAL RESUME ACTS OF CONGRESS ISSUED AT CAPITAL

WASHINGTON, Oct. 12.—An official resume of the activities of congress during the past session was issued at the capital today. Compiled by W. Ray Loomis, assistant superintendent of the house document room, it gives not only the status of all war legislation, but deals also with miscellaneous enactments, lists all laws of this congress bearing on the international situation and provides for the first time a ready government guide to the legislative situation up to the beginning of the December session of congress.

Under the head of notable dates, the resume begins with President Wilson's proclamation of March 21, calling congress into extraordinary session, and concludes with the house reception to the Japanese war commission September 5. Recording the bill signed by the president on June 15, appropriating \$3,281,094,541 for the military and naval establishments, as the "largest appropriation known to this or any other country up to that time," including \$405,000,000 for an emergency shipping fund with which to begin construction of the greatest merchant fleet the world

has ever seen, it says that the deficiency bill signed October 6 by the president, appropriating \$5,356,666,016 and more than \$2,000,000,000 more authorized, is the largest appropriation act passed by this or any other country.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.
