GERMAN CHOSEN TO BE KING OF FINNISH MONARCHY

LONDON, May 8.—There seems little doubt that a monarchy will be proclaimed in Finland, says a Stockholm dispatch to the Times and that the German candidate, Adolph Friedl of Mecklenburg-Schwerin, uncle of the crown-princess of Germany, will be king.

A spirit of reaction has spread throughout the country, it is added, and the Finnish constitution, which was the most democratic in Europe, is to be remodelled on more or less autocratic lines. The socialists and democrats are under the ban for having favored the rebellion. The natural reaction against all who wish the aid of Russian bolshevik soldiers created a reign of terror and anarchy, it is declared, is being against those who still cling to principles of democratic freedom and who would vote for a republic.

Finland, the Times dispatch continues, is still far from being completely pacified. Desultory fighting with the rebels continues at many points.

I. W. W. THREATS DISGUST ATTORNEYS

CHICAGO, May 8.—Counsel for the defense in the trial of 112 leaders of the Industrial Workers of the World for violation of the espionage act today threatened to withdraw from the case unless the distribution of printed matter marring the court and jury against a verdict of guilty is halted immediately.

"Either you prevent matter threatening to the court reaching this court room or we resign," shouted George E. Vandevor, chief counsel for the defense, to the defendants after Federal Judge Landis had read excerpts from the Industrial Worker, published at Seattle, Wash.

NO PACKAGE FOR TROOPS ABROAD CAN BE MAILED

The local postoffice has warned relatives and friends of Medford soldiers in France or elsewhere abroad that no packages can be sent a soldier there without a specific request from the soldier himself for the contents of the package, bearing the endorsement of an officer of the grade of lieutenant colonel or above it. The endorsement of any officer under the grade of lieutenant colonel will be worthless.

This new rule of the postoffice will work a hardship in a way on both the soldiers and their well-wishers at home who desire to send them things they want. The old rule was that nothing could be sent a soldier unless he had made a specific request for it and that such request must be endorsed by a superior officer. Hence the requests that were OK'd by a lieutenant or captain were honored, and packages forwarded. But the new rule went into effect April 1.

Postmaster Mims has had considerable trouble and embarrassment with relatives and friends of soldiers who desired to send them packages and insisted on such packages being sent. Each applicant would show a letter from the soldier asking that something be sent but which was without the endorsement of an officer, and argue that the fact that it bore the marks of a censor showed that the request was endorsed. Several such packages have been returned from the American expeditionary postoffice in New York. One package was sent back twice.

Now the postoffice announces emphatically that no packages can leave the postoffice unless it is accompanied by the soldier's letter asking that something be sent him and which is endorsed plainly by the lieutenant colonel or colonel of his command.

The government has found it necessary to cut out package mail as there is no space on steamers and moreover the wants of the soldiers for candy and tobacco are being supplied by Uncle Sam.

CITY RESERVOIR TO BE GUARDED NIGHT AND DAY

From now on the city reservoir will be guarded day and night as a precautionary measure to prevent any possible attempt to interfere with Medford's water supply or cripple its water system in line with similar attempts in various cities and towns throughout the country. The protection measure was decided on by the city council at its meeting last night.

The council decided to have the reservoir vicinity well lighted at night and to have the caretaker appointed a deputy sheriff with instructions to shoot any suspicious character seen prowling within the prohibited area. Autos and other vehicles will not be permitted to drive to the reservoir, nor will sightseers be permitted there. The council has ordered the road to the reservoir fenced in.

In line with war protection the council also authorized Fire Chief Lawton, who, as well as any fireman, is a deputy policeman, to go armed with a gun. In taking this step the council had in mind the experience of a Washington state city not long ago when miscreants set fire to a number of buildings in various parts of the city.

To Repair Streets. Among the many matters discussed last night was that of purchasing an asphalt street repairing outfit so that the city can itself make needed paving repairs. The last tax budget contained an appropriation for this purpose, and the street committee was authorized to take action.

It deeply pains most of the councilmen to have the fines in bootlegging and intoxication cases go to the county and state when the arrests are made by local policemen. Such arrests at present have to be made under the state law, so the council decided to have a local ordinance drawn prohibiting any person from having intoxicating liquor in his possession. With such an ordinance in force in all city cases the fines would go to the city treasury.

When Mayor Gates called attention to the fact that there were a number of complaints about dogs destroying and damaging gardens, the matter of establishing a dog pound was discussed but action was deferred for the present.

Brown Ordinance. The proposed ordinance to compel all ableduled loafers to go to work, which is being drawn up by a government official in Portland is not yet ready, but is expected to arrive in the city within a short time. Then the council will hold a special meeting and pass it. It is proposed that all the cities and towns of Oregon pass such a measure, hence the desire for a uniform ordinance.

It was decided by the council to enforce a resolution passed recently ordering the Southern Pacific and Pullman railroads to at once put all their grade crossings in good condition.

THE EFFICIENT WOMAN. The foundation of efficiency lies in a robust, healthy constitution. When ill, weak and suffering from dragging-down pains, inflammatory and ulcerated conditions or displacement with consequent backache, headaches, nervousness and "the blues," no woman can be efficient or hardly a fit companion to live with. If every woman in this condition would only give that most successful of all root and herb remedies, Lydia E. Pinkham's Vegetable Compound, a trial, she would soon be restored to health and reach the goal of her ambition for personal efficiency.—Adv.

GERMANS SECURE EXPULSION FROM MEXICO OF YANKEES

WASHINGTON, May 8.—Unofficially advised, tell of an order for the expulsion from Mexico of Robert H. Murray, the representative of the committee on public information in Mexico City who, in that capacity, has been in charge of the work conducted by the American government to offset German propaganda.

At the same time, the official advice says, one of the correspondents of the Associated Press in Mexico City, Weigand, was also ordered to leave.

The expulsion of both men, it is said, was ordered under the thirty-third section of the Mexican constitution which provides for the summary deportation of "pernicious foreigners" without trial or hearing. The action is taken to substantiate reports that the German propaganda had gained the upper hand in Mexican official circles.

CHEROKEE UNFIT FOR NAVAL USE

WASHINGTON, May 8.—A naval board of inquiry appointed to investigate the loss of the naval tug Cherokee, which foundered off Cape Penobscot, Maine, February 26, has reported the loss of the ship to be attributable in some measure to the failure of her commanding officer to report the ship was overloaded and to his failure to heed a storm warning.

The board reported that the vessel was not suitable for general service because of her condition. At the time the tug went down the navy department reported that 30 men were lost including the commanding officer.
