The Oregon Memorial annual issued by State Superintendent of Public Instruction Chas. Hill is for use in the public schools, and this year it devoted largely to the greetings from the allied nations to America upon her entering the war. It also shows the work done by the school children of the state who, to the number of more than 4000, have sold at least \$50 worth of their stamps each, and the number is rapidly growing. The little pamphlet is highly patriotic and contains some of the very best American sentiments. It is for sale especially on Memorial day and copies have been sent to every school in the state.

### BELATED FROST DAMAGES GARDEN CROPS, LOWLANDS

Considerable damage was done to the garden truck by this morning's unexpected frost, especially to beans, tomatoes, potatoes and peppers. Fruit was very little hurt so far as could be learned except in parts of the Central Point district, where the temperature fell to 28 degrees.

The lowest temperature reached in Medford was 30 degrees at about 6 a. m., although the mercury hung around the 32 degree point for two hours prior to that. Very little smudging was done. In fact the frost was totally unexpected and had not been predicted by the San Francisco weather bureau, nor was it indicated by local conditions until about midnight. However, had Frost Expert Young, who departed from the city yesterday for Portland, been here, he would probably have detected with his maps and apparatus the coming frost and sent out an alarm early in the night.

County Pathologist Cate argues that a frost expert should be stationed here all the season in order to become familiar with all the valley's peculiar weather idiosyncrasies.

ASK CARNIVAL BE CLOSED ON MAY 30

In line with the national efforts to make Memorial day next week more of a quiet, patriotic and sacred holiday than for many years past, because of the war, and in co-operation with the local efforts to that end, Rev. Dr. J. C. Rollins called Monday upon Mrs. Sateinwell, acting secretary of the Commercial club, who is prominent in the Greater Medford club, and requested that the latter club use its influence to have the carnival, which will be here next week, closed.

Dr. Rollins spoke as the representative of many patriotic Medford people. The carnival will be held here all week under the auspices of the Greater Medford club.

DIED.

FIELD—Mfred U. Field, the well-known mining man, died at the Medford sanitarium Monday a. m., following an operation during the past week. Mr. Field was 54 years of age, and a man of unusual attainments, having devoted a lifetime to scientific research, and being a master of numerous scientific subjects. He was a man with many friends, of undaunted courage and the highest standard of character.

Mr. Field was a second cousin of Cyrus W. Field, who was responsible for the successful laying of the Atlantic cable, and also a second cousin of the original Marshall Field of Chicago. His relatives are principally in the middle west and the east, and two of his daughters are at present living at Oakland, Calif., one of whom, Miss Inez M. Field, will arrive in this city Tuesday evening.

Funeral services will be held at Port's undertaking establishment, Wednesday morning at 10 o'clock, to be conducted by Dr. J. Lawrence Hill. His many friends in this city are requested to attend the services, as well as the burial which will take place at the Odd Fellows cemetery.

Card of Thanks.

### MAYOR REFUSES LICENSE TO CIRCUS PERFORMANCE HERE

Mayor C. E. Gates had a long conference with the advance agent of the Sells Floto circus yesterday as a result of his refusal to grant a license for the show to exhibit in Medford on June 8. The mayor takes the stand that the sentiment of the majority of the patriotic people of Medford is against allowing any circuses or like attractions to appear in Medford during the war. The public, he says, are not in the mood for it and are saving their money for Red Cross and army Y. M. C. A. donations, and to purchase Liberty bonds and war savings stamps.

It is probable that in the near future the city council will pass an ordinance placing the license fee for circuses and carnivals so high that they will gladly pass the city by.

Mayor Gates' action of yesterday was backed by every member of the council except one. The circus agent begged, argued and coaxed, but to no avail. He argued that his show spent much money in the city on its annual visit, and that it had invested heavily in Liberty bonds, and had made big contributions to the Red Cross, Army Y. M. C. A. and to other patriotic purposes. He also claimed that Medford is the first city in the country to refuse to allow the Sells Floto circus and animal show to appear.

Mayor Gates was elaborate, however, and called up the various councilmen by phone and put the matter up to them. Each councilman but one left the matter entirely to the mayor's judgment, and that one favored letting the circus appear here.

But the circus management, it became known today, will make further efforts to obtain a license and will have another representative here in a day or two to press the matter.

What especially peeved the advance agent yesterday in his dispute with Mayor Gates was the fact that the city council had issued a license for a carnival company to appear here next week. The mayor explained that he had fought against granting a license for the appearance of the carnival company, and stated further that the license had been issued several months ago to the Greater Medford club for carnival purposes and not to the carnival company.

FOOD CRISIS CRITICAL.

July and August—are yet to come.

thing has happened, is happening or is about to happen outside Ireland's ordinary daily routine.

The whit Monday holiday passed in the customary manner. A correspondent of the Dail Mail says the calm is sensational. He adds:

"But appearances are deceptive. Dublin is not Ireland. The constitutional nationalists one generally meets here are not representative of the wild hot bloods who have given strength to the Sinn Fein. Moreover, the whole country is evidently staggered by the suddenness of the government's action."

Meanwhile everyone is awaiting production of the proof of a German plot. It is reported from several sources, however, that the government has no present intention of publicly arraigning those under arrest who will be merely interned.

It is also asserted that conscription has not been abandoned, but that it is held in abeyance pending developments.

Denounces Deportations.

DUBLIN, May 21.—A resolution denouncing the Sinn Fein deportations as an attempt to discredit and disrupt Ireland's united resistance to conscription and to prejudice Ireland's cause in the eyes of friendly countries has been passed by the anti-conscription conference.

An official statement, signed among others by John Dillon and Joseph Devlin, the Irish nationalist leaders, was issued. It insists on the right of Irishmen to be arraigned

Last year there was almost nothing to eat in these months, but cucumbers and fruit. Typhus and dysentery became epidemic. The people are shuddering at the prospects of these three months now."

As far as they dare, the people jeer at the talk of smashing the British and French, and at the submarine campaign, the only result of which they see has been to add America to their enemies. Everyone made fun of President Wilson at first as a pedant, the correspondent adds, but the people are now changing their tone and are afraid that America is in earnest.

Dog Meat Sold.

NEW YORK, May 21.—Camel meat, dog meat and horse meat are being eaten in Saxony by the poorer classes, according to the Berliner Tageblatt.

The camel meat comes from the Mohair camels of the Hagenback menagerie, which gave a show in Zwickau in March. The camels were sold to a butcher because of lack of fodder. Dog meat sells for two marks 75 pfennings a pound and horse meat at one mark 80 pfennings.

NEW REVENUE LEGISLATION FOUND UNNECESSARY

WASHINGTON, May 21.—Congressional leaders were not convinced in conferences today with Secretary Mc-

Adoo and treasury experts of the necessity for immediate revenue legislation.

After hearing a statement of the government's financial situation, spokesmen for the senate and house held to their opinion that the enactment of a new law can wait until December and were more than ever disinclined to abandon their plans for adjournment in July.
