## BRITISH MISSION HEADED BY PRINCE

AN ATLANTIC PORT, May 24.—Prince Arthur of Connaught, son of the Duke of Connaught and Strathern, former governor general of Canada, and a cousin of King George, arrived here today from an English port as head of a British mission to the United States.

The mission made the voyage aboard a British cruiser.

The prince and his party were met by Assistant Secretary of State Long, Colonel E. M. House, General White, head of the British recruiting mission in this country, Clee Bailey, British consul general, and other American and British officials.

WASHINGTON, May 24.—The mission headed by Prince Arthur, the state department announced today, is on the way to Japan. It will come to Washington to call upon President Wilson.

## 2,700,000 WOUNDED HUNS BACK IN ARMY

NEW YORK, May 24.—More than 2,700,000 wounded and sick men have been returned to the fighting front and 692,000 soldiers have been discharged from the German army as unfit for further service, according to a report of the statement in the reichstag by Surgeon General Schulze as contained in the Berliner Tageblatt of April 24, a copy of which has been received here.

Most of the cases of sickness in the army were due to diseases of the organs of digestion, presumably as a result of the quantity and quality of the food.

## EVAN WILLIAMS, NOTED TENOR, DEAD AT AKRON

AKRON, Ohio, May 24.—Evan H. Williams, noted tenor, died this morning at the city hospital after an illness of one week.

## QUEER ACCIDENT TO CIRCUS PERFORMER

This man for 15 years has been performing hair raising stunts on an aerial apparatus 60 feet high without accident. The irony of fate asserted itself last February when the intrepid aerialist fell off a packing case in his garage and broke a neck. He is all right now and will be seen twice daily in free nets next week during the carnival for the Greater Medford club's patriotic fund. He is known as 'Up-High Bono' and this is his third season with the Foley and Burke combined shows. His act is so hazardous that no insurance company will accept him as a risk.

## ROOSEVELT UPON SPEAKING TOUR

NEW YORK, May 24.—Colonel Theodore Roosevelt will leave here tomorrow on a week's speech-making tour in the middle west, under the auspices of the National Security League. He will speak in Ohio, Michigan, Wisconsin and Iowa, making specific appeal to those who are still apathetic toward the war. He said he would lay particular emphasis on these three points:

First, win the war and win it now. Second, preparedness after the war, including universal military training and other thoro measures for adequate national defense. Third, "America now and for all time, including the necessity for the active Americanization propaganda, to awaken a more responsive citizenship."

Monday night he will speak in Des Moines, Tuesday night in Madison, Wednesday in Milwaukee, and Memorial day evening in Detroit.

## RYE FLOUR WITH BROKEN GLASS CAME FROM PORTLAND

Two sacks of rye flour, manufactured at Portland and purchased at a Central Point store, were found to contain broken glass—which gave rise to the story that the flour was manufactured at Central Point. Investigation proved the job, if it was a job, was a very crude one, the glass being evidently from broken electric light bulbs or lamp chimneys, not pulverized, and was detected upon opening the sacks and before use of the flour. It may have accidentally got into the sacks.

The flour was purchased by F. Lousignont and the presence of ground glass reported to the district attorney, who in turn reported it to the federal government and is awaiting developments. There were five sacks of rye flour in the shipment from the Portland mills. Two sacks, were opened, and had the glass. The other three have not been opened and are held by the district attorney, pending instructions from the department of justice, which has already had an investigator here.

To counteract the malicious rumors in circulation Mr. Lousignont has made the following affidavit, showing that the Central Point Mills, which are not equipped for making rye flour, and never have made any, are in no ways involved:

TO THE PUBLIC:  
I wish to correct the story and malicious rumors that have been in circulation insofar as they concern and cloud the good name of the Central Point Flouring Mills and their products.

In explanation I will say that the rye flour in which I found glass was not made or sold by the aforesaid mills, but came from a large mill in the north.

Insofar as I know the honor and integrity of the Central Point Mills and the quality and purity of their products are beyond suspicion, and I would not hesitate to recommend them.

## RAISE MILLION TO FIGHT CONSCRIPTION

DUBLIN, May 24.—The anti-conscription fund which in less than a month has grown to nearly \$7,000,000, bids fair to become one of the most important factors in the development of the internal political situation. It is the largest fund ever raised in Ireland for a political purpose and being in control of the mansion house conference, that body finds itself in a position of greater financial power than any political organization in Ireland today.

Thus, the conference, unless managed unscrupulously, would be able to influence tremendously the action of any nationalist political organization. This opens many dangerous possibilities to which the moderate leaders in Dublin have devoted anxious attention recently.

## AMERICAN FLIERS TO DEFEND PARIS

PARIS, Thursday, May 23.—An American escadrille, composed of aviators chosen from among the best American pilots, in the future will help to defend Paris against enemy air raids. Offer of this help was made spontaneously by the chief of the American aviation service and

accepted by the French government thru M. Dumenseil, minister of aviation.

An official announcement was made after a German air raid of some time ago. It was proposed to organize an American escadrille especially detailed to defend the French capital. Final arrangements were concluded today.

Walter H. Johnson, Jr., a Y. M. C. A. war work secretary in France says the only way to describe the German devastation in Soissons is that hell was let loose.

Your Red Cross cannot neglect France, England, Italy, Serbia, Roumania and little Belgium. It must give them all constantly increasing help, for the men of these countries have been fighting our battles.
