Rhems Still Held. No mention is made in today's report of further fighting northwest of Soissons, where the Germans were successful yesterday in forcing back the allied left wing in the direction of Noyon, on the Oise. The night report of Friday showed that the Germans were driven back across the Oise, where they had crossed it at one point, near Sampigny, south of Noyon, and to have been held up on the Noyon-Blerancourt-Soissons line.

Quiet prevails on the British front, except for artillery fire, which was most notable east of Amiens and in the Albert region to the north.

London newspapers reflect anxiety in the British capital. Stress is laid on the assistance the American forces are expected to give in restoring allied preponderance in numbers and confidence in the final outcome is expressed.

Paris Optimistic. Paris comment is, as has been, the case all along, optimistic, military critics, while viewing the situation as serious, regarding the indications as reassuring.

Since Monday the Germans have advanced southward from the Ailette across the Aisne and the Oise to an extreme depth of 26 miles. Berlin claims the number of prisoners is now 45,000. Captures of war material are said to include more than 400 guns and several thousand machine guns.

On the American sector there has been a respite in activity. The German moment their violent counter-attack against the new American positions at Cantigny. Aerial activity by British aviators is at a high pitch. Many tons of bombs have been dropped on military targets in the enemy area and 28 German airplanes and two balloons have been destroyed.

Greek troops in a brilliantly executed attack near Solon, on the Macedonian front, have occupied enemy positions on a front of seven miles to a depth of more than one mile. More than 1500 Bulgarian prisoners and much war materials have been taken. The Greek infantry was supported by the French artillery.

CALL ISSUED FOR SKILLED WORKERS AIRPLANE BRANCH

The provost marshal general advises that the military aeronautics branch is in need of certain skilled men. Men qualified for special or limited military service only will be used under this call. Men qualified for general military service are not desired for this service.

Repeated requests have been received by the provost marshal general for an opportunity for limited service men to enter the service. These men will be engaged in spruce production work for aeroplanes, which is interesting and healthful work and should appeal strongly to qualified registrants.

The following types of men are desired: Locomotive engineers, firemen, railroad grade foremen, railroad track foremen, wooden bridge carpenters, locomotive repairmen, telephone linemen, surveyors or railroad instrument men, telegraphers, draftsmen, pile driver foremen, stationary engineers for donkey engines, steamshovel operators, carpenters, steamfitters, electricians, auto mechanics, auto drivers, cooks, clerks, railroad brakemen, railroad conductors, and a large number of laborers.

SENTECE DAY IN CIRCUIT COURT

Saturday was sentence day in circuit court and three men found guilty of various charges at their trials this week had sentence imposed on them by Judge Calkins.

The heaviest penalty was dealt out to Fred Burr, a degenerate who was convicted of a nameless charge, who was sentenced to from one to 15 years in the penitentiary. The case was revolting in nature and Burr's young children were the chief witnesses against him.

W. A. Thompson of Central Point drew a fine of \$200 and costs for assault and battery on a neighbor. A sentence of six months in jail was imposed on J. B. Wood, the former Medford real estate dealer, who was arrested in Montana and brought here and convicted on the charge of non-support.

COCKERELS TO GET THE AXE DURING WEEK

Next week is known as "can the cockerel" week, when at the government's request farmers and poultry raisers all over the United States are expected to kill off all their roosters. This movement is in the interest of a better egg supply for the summer.

The contention of the department of agriculture is that unfertile eggs in the summer keep better than fertile eggs. It is estimated that \$15,000,000 is lost annually thru allowing roosters with the hens during the summer season. The absence of the roosters insures a better quality of eggs.

Then, too, the killing off of the roosters helps out the country's meat supply. County Agricultural Agent Cate visited local poultry dealers today and requested that they pay just a little higher price for roosters than hens during this rooster-killing-off campaign.

The time and place of the return blow by the allies seems to be puzzling the German commanders, who are endeavoring to secure strong points for pivots.

The task of strengthening the retreating divisions of the allies, where this is necessary, was placed in the hands of the local reserves. It has been carried out exceedingly well under the most difficult circumstances.
