Catarrhal Deafness Cannot Be Cured

To deaf sufferers, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

TAR AND FEATHERS FOR OREGON FARMER

OREGON CITY, Ore., June 13.—E. E. Kellogg, a retired farmer living at Mount Pleasant, near here, was given a coat of tar and feathers last night at Abernethy canyon, several miles from his home, by a crowd of 25 men who went to the place in automobiles. Alleged remarks by Kellogg to the effect that Red Cross funds were being squandered and that it was foolish to buy Liberty bonds, brought about the punishment he was told by members of the party.

Kellogg is an American citizen.

NO LEMONADE ON JULY THE FOURTH

PORTLAND, Ore., June 13.—Hundreds of applications, from small boys and others, who want allowances of sugar for lemonade and orangeade concessions on July Fourth, will be refused by the Oregon food administration, it was announced today. It was pointed out that it is the patriotic duty of Americans to save sugar on the nation's birthday by omitting to buy or sell those drinks requiring it.

GERMANS ARE CHEKED.

sitions on the east side of the Oise river. The French success in driving the enemy back across the Matz, therefore, is cheering news for the allies.

East of the Oise the French have withdrawn their lines south of the Ourscamp and Carlepont forests, but are protecting the Laigue forest along a line which is very strong. This change in the line was expected since the Germans occupied Ribecourt, on the west bank of the Oise.

The attack on the front southwest of Soissons is making ground, but the progress apparently too slow for the Germans to realize their plan to cut in behind Compiegne forest and outflank the French positions further north. In the fighting so far the Germans have made less than a mile along a front about three miles in extent from south of Ambiny to St. Pierre-Aigle.

The Germans realize, evidently, the danger to them in the Chateau Thierry sector near the Marne and have made a violent attack on the line held by the American troops northwest of that city. The Americans have held their ground and have repulsed the enemy with heavy losses.

In the Flanders salient the British and French have been active. The former have improved their positions near Merris, on the western angle of the battle line there, while the French have extended their lines near Ypres.

Elks Attention.

All Elks are requested to meet at the club house Friday p. m. at 3:00 sharp to take part in the parade to the Flag Day exercises in City park.

DREADNAUGHT SUNK BY RIZZO

(Continued From Page One.)

"The splendid exploit on the Dalmatian coast is equivalent to a great naval battle won," says the Idea Nazonal, commenting on the achievement of Commander Rizzo.

Commander Rizzo is the same officer who entered the port of Trieste and torpedoed the Austrian battleship Wein on December 9, 1917.

"This time," says the newspaper, "some of the largest ships of the Austrian fleet left Pola, from which they had never before issued since the beginning of the war, but which is now considered unsafe after the audacious exploit of Commander Pellegrini, who succeeded in entering that harbor and torpedoing a dreadnaught.

"The squadron was trying perhaps, to reach Sebenico and Cattaro, but could not escape the close watch of Rizzo, who was thus revenged for the infamous plots by which at the beginning of the war the enemy succeeded in blowing up the Italian battleships Benedetto Brin and Leonardo Davinci. Thus Austria has lost altogether three of her greatest naval units of the Viribis Unitis type and has only one left."

A dispatch received in Paris Wednesday from Basel, Switzerland, said that official announcement had been made in Vienna that the Austrian battleship Szent Istvan had been torpedoed in the Adriatic.

DO MOTHERS ERR?

When we hear of so many school girls and girls in stores and offices who are often totally unfit to perform their daily duties because of some derangement peculiar to their sex, might this not have been prevented by the mother who, perhaps through neglect or carelessness, failed to get for that daughter the one great root and herb remedy for such ailments, Lydia E. Pinkham's Vegetable Compound? This old-fashioned medicine is said to have alleviated more suffering of womankind than any other remedy known to medicine.

50,000 Men Wanted

By Uncle Sam to Man the Merchant Marine

In order to man the vast number of ships now being launched by the United States Shipping board, the government has issued a call for 50,000 men consisting of sailors, coal passers, cooks, waiters, etc.

Men between the ages of 21 and 30 are wanted and if accepted they will be exempted from military service. Experience not necessary. Applicants are sent to a U. S. Shipping Board School for a month with pay at the rate of $30 per month with board and uniform. After training pay is advanced to $45 per month or more depending on the kind of work you do.

The U. S. Shipping board has designated Mr. J. R. Woodford of the Rexall Store as Enrolling Agent for the Merchant Marine Service, who will be pleased to give any person interested further information.

NOTICE!

Owing to the enormous advance in prices of every thing we use, we are no longer able to do a credit business and meet our obligations, and for that reason on and after the first day of July, 1918, all work will be strictly cash. We hesitate to make this radical change in our method of doing business but hope that our customers will see the necessity of it, as we think it will prove to be the best for them as well as ourselves.
