

WILSON PLEDGES SOLDIERS ENUF TO WIN VICTORY

President Cables Poincaré That It Is the Purpose of the United States to Send Men and Material to France to Entirely Overcome Any Temporary Inequality of Force.

WASHINGTON, June 14. — The purpose of the United States to send men and materials to France until "any temporary inequality of force is entirely overcome," was reiterated by President Wilson today in replying to a message from President Poincaré on the anniversary of the landing of the first American troops in Europe.

The president's cablegram, made public by the state department, said: "Your telegram of yesterday was certainly in the highest and most generous spirit of friendship and I am sure that I am expressing the feeling of the people of the United States as well as my own when I say that it is with increasing pride and gratification that they have seen their forces under General Pershing and more actively co-operating with the forces of liberation on French soil. It is their fixed and unalterable purpose to send men and materials in steady and increasing volume until any temporary inequality of force is entirely overcome and the forces of freedom made overwhelming, for they are convinced that it is only by victory that peace can be achieved and the world's affairs settled upon a basis of enduring justice and right. It is a constant satisfaction to them to know that in this great enterprise they are in close and intimate co-operation with the people of France."

A lot of machinery is being moved from the Ashland mine, having been purchased by parties representing the "Mother Lode" interests in central California. This equipment was never used here, having been dumped on the ground near the site of the proposed stamp mill, a structure which never advanced beyond the paper stage. Bunkhouses, offices and shops in that locality were built in the most substantial manner and other improvements made. The equipment being moved includes the pebble mill and six generators. The mill is a huge affair, weighing eight tons, and it is no less a job in moving it down from the mine than it was in moving it up.

ASHLAND AND VICINITY

The first installment on pledges due the newly created patriotic fund is payable at the city recorder's office on June 15, with five days grace allowed under collection schedules. Hours at city hall headquarters are from 8 till 5, and it is not only hoped but confidently expected that subscribers to the patriotic fund will be as prompt in meeting their obligations as they are in paying water and light fixed charges each month. To expedite these payments the executive committee has issued the following appeal: "There will be a great deal of detailed work involved in the collecting, accounting for, and disbursement of this money. We are willingly devoting our time to this. Will you not lighten the labor for us by being prompt and regular in the payment of your monthly installments." The revenues for this fund should approximate \$1800 per month.
