

19 YEARS PRISON SENTENCE GIVEN TO GRACE LUSK

WAUKESHA, Wis., June 19.—The final episode in the trial of Grace Lusk, convicted of the murder of Mrs. Mary Newman Roberts, wife of the former Wisconsin state veterinarian, was enacted here yesterday afternoon, when Judge Martin Lueck sentenced the former school mistress to 19 years imprisonment at hard labor, in the Wisconsin state penitentiary at Waupun. Sentence was pronounced after a committee of alienists appointed by the court had examined Miss Lusk and pronounced her sane. She will be taken to prison tomorrow, provided she recovers from the collapse she suffered when sentence was pronounced.

In pronouncing sentence the court delivered a severe arraignment both of Miss Lusk and of Dr. David Roberts, whose intimacy with Miss Lusk extended over a period of a year and led to the murder in June, 1917, of his wife by the woman sentenced today.

"You and Dr. Roberts assailed society at its most sensitive and vulnerable point," the court said. "You assailed the home and neither of you had any right to deprive Mrs. Roberts of those rights that became hers when Dr. Roberts took her as his wife."

"Some circumstances in this case cast greater blame upon Dr. Roberts than upon you. Still you had no right to yield. You were experienced in the world. You had a good education, and I do not believe that in this case the minimum sentence provided by the law meets the situation. Your offense demands more punishment."

"But you do not deserve the minimum sentence either, because of the blame attaching to the acts of Dr. Roberts. Men of his type should be discouraged. The medium is difficult to determine—what is fair to you and right toward society. It is a question difficult of solution, and the best I can do is to make an honest guess."

As the sentence was pronounced Miss Lusk, who had been standing at the court rail, collapsed into the arms of her attorney and was carried from the room unconscious. Tonight she was in a hysterical condition, and it seemed doubtful whether she could be taken to prison tomorrow, as planned.

CLAIM O'LEARY MENTAL WEAKLING

NEW YORK, June 19.—An apparent attempt to lay the foundation for the defense of Jeremiah O'Leary, the Sinn Fein leader, charged with conspiracy to commit treason, was made in the federal courts today during the trial of his brother, John, who is charged with aiding the former editor of "Ball," to escape.

Arthur Lyons, Jeremiah's "traveling companion" on the trip west, who turned government witness, described him as "very restless and nervous" with no fixed mental condition.

Called "Harry Thaw" When James R. Speer, a New York lawyer, who occupies offices with Jeremiah O'Leary, was asked on the stand his opinion of Jeremiah's mental state, he replied that "he looked upon him as a replica of Harry Thaw."

Before he was placed in his cell, Jeremiah told newspaper men that he had six weeks rest, adding that he needed it, as he was "in pretty bad shape."

Details of Jeremiah's flight were told in court. After stating that there never was any agreement or understanding between Jeremiah and John O'Leary, that the former was running away from the jurisdiction of the court, Lyons asserted that Jeremiah had asked him on May 3 to accompany him to Reno, Nev., to try a divorce case.

AUSTRIA SATISFIED WITH GERMAN YOKE

AMSTERDAM, June 19.—An edition of the Vienna Fremdenblatt received in Amsterdam contains an interview with Baron Burian, the Austro-Hungarian foreign minister, in reply to a recent speech by Viscount Milner, the British secretary of war. Baron Burian charges that Viscount Milner is making efforts to divide the allied central powers, but says his attempts will go unrewarded.

"The 'German yoke,'" says Baron Burian, "for Austria is the yoke of mutual, rock-like friendship and has complete consideration for the interests of both parties."

WILSON URGED TO RECOGNIZE AND AID RUSSIAN SOVIET

WASHINGTON, June 19.—President Wilson is being strongly urged to recognize and aid the soviet government of Russia.

Members of Ambassador Francis' staff have lately returned and made semi-confidential reports to the state department.

The burden of all is the same—that good will come from recognizing the soviet government; that delay in doing so can only serve the purposes of German intrigue.

Failure to co-operate with the soviet—the only existing government in Russia—they report, helps the German plan, to foster reaction and counter-revolution.

Arguments Made

The soviet government is admitted representative of 90 per cent of the Russian people. The other ten per cent is the former propertied and governing class. These are now practically disfranchised. They are also dispropertied. Naturally they are displeased.

They are using all their influence to overthrow the soviet and bring about some form of government that will restore their wealth and power.

With this element, the ex-rich and ex-nobles, Germany is plotting.

The fact that Germany has not lived up to the terms of the Brest-Litovsk treaty which was made by the soviet government has embittered the soviet and the mass of the Russian people. They are more anti-German today than they have been for many months, and it is urged on our government that we should take advantage of this opportunity to show our good will for the Russian democracy and help brace up its attempts at government, in order that all this influence may be held on the side of the allies.

A recently returned official put the matter this way:

Returned Official Talks "If we do nothing—that is, if we just let things drift—we help weaken the Russian soviet government. And that plays Germany's game."

"If we encourage counter-revolution, as the British were tempted to do, we play the German game. Germany is heart and soul with the property-owning class in their desire to overthrow the Bolshevik experiment in economic revolution. On the other hand, if we help the Russians now we will be doing more to keep the Germans busy on the eastern front than we could by sending a million soldiers."

What Russia needs, it is explained, is financial help.

The whole machinery of business has collapsed. There is neither credit now money, and even primitive barter has largely lapsed.

The result is stagnation and starvation where there is food almost within reach.

A commission armed with credit and good business advice could help much. And any official encouragement from our government would mean much more.

Finally it is urged that the soviet is the de facto government of Russia. It was given six weeks to live when it came into existence; it has lasted over seven months. There is nothing to indicate that it may not go on indefinitely.

TRAIN OTHER TROOPS THAN AMERICANS HERE

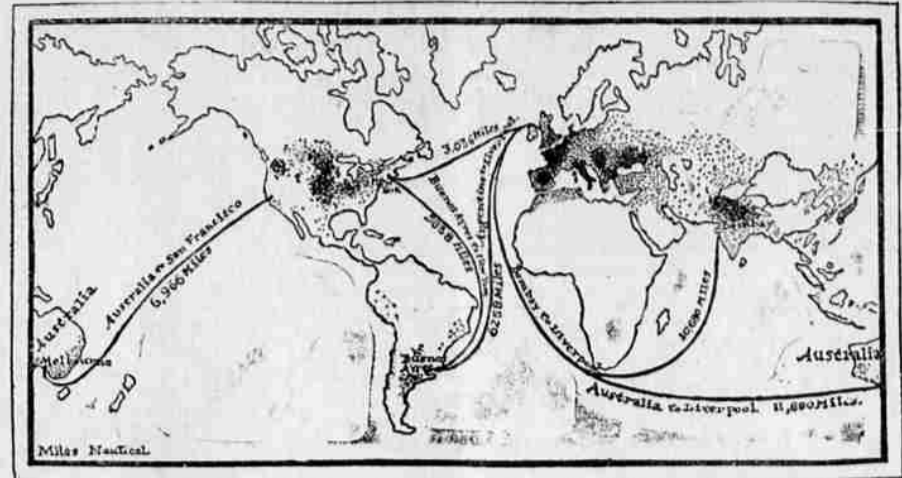

WASHINGTON, June 19.—Congress is to be asked by the war department for an appropriation to provide training facilities in this country for forces other than American troops. This was learned authoritatively today, but it was said that no definite project has been discussed, nor has the matter reached the point where it has been the subject of diplomatic communication. The natural assumption is that any troops to be trained here would come from some of the nations in the western hemisphere who have joined the allies.

It is reported that the request will be made before the present session of congress ends.

EXPRESS MONOPOLY ONLY FOR WAR TIME

WASHINGTON, June 19.—The express monopoly created under government auspices must be dissolved after the war emergency is past, under provisions of the contract signed today by representatives of the express companies and the railroad administration.

WHEAT FIELDS OF THE WORLD

Why Allies of United States Look to North America for Bread.

Dotted areas indicate the world's wheat fields, and the steamer routes show why, with the present shortage in ocean tonnage, it is not possible to transport wheat from India and Australia to Europe. India has an exportable surplus of 120,000,000 bushels and Australia 140,000,000 bushels. But the U-b-ate having made the Mediterranean impossible, it is 10,659 miles from India and 11,830 from Australia to Liverpool. Argentina, 6,258 miles has 145,000,000 bushels for export, and it now is hoped that shipping will be available to carry 100,000,000 bushels of it to Europe. The wheat fields of Rumania to the west of the Black Sea, and of Ukraine, to the north of R. also are indicated, showing the tremendous food advantage Germany has reaped through forcing peace with Russia and Rumania.

144 NAMES ON CASUALTY LIST

WASHINGTON, June 19.—The army casualty list today contained 144 names divided as follows: Killed in action 28; died of wounds, 12; died of accident and other causes, three; died in airplane accident, two; died of disease, eight; wounded severely, 87; wounded slightly, one; missing in action, one; prisoners, two.

The list includes Privates Elmer G. Edison, Fruitland, Idaho; Ira Evans, Bissell, Wash. Killed action; Cook Arthur W. Davenport, Barnard, Mont. Died of accident; Corporal Albert Gibbons, Hood River, Ore.; Privates Oscar Benson, Yelm, Wash.; Frank S. Crawford, McMinnville, Ore.; Marion Hampton, Franklin, Idaho; George A. McCallum, Battleground, Wash.; severely wounded.

ARTILLERY DUELS ON MARNE FRONT

WASHINGTON, June 19.—Continued artillery fighting in the region of Chateau Thierry and along the Marne is noted in General Pershing's communique for yesterday which reached the war department today. American patrols have crossed the Marne and taken prisoners.

The communique follows: "Section A.—There was continued artillery fighting in the Chateau Thierry region and on the Marne front. Last night our patrols crossed the Marne and captured several prisoners."

"Section B.—There is nothing to report in this section."

MAXIMUM PRICES FOR PAPER FIXED

WASHINGTON, June 19.—Maximum print paper prices were fixed today by the federal trade commission, in accordance with an agreement between the attorney general and manufacturers of the United States and Canada, as follows:

Roll news in car lots \$3.10 per 100 pounds.

Roll news in less than car lots \$3.22 1/2.

Sheet news in car lots \$3.50.

Sheet news in less than car lots \$3.62 1/2.

Under the agreement the prices for a. b. mill are retroactive, taking effect April 1, 1918, and stand until three months after the war ends. Ten companies participating in the agreement, three American and seven Canadian, produced 950,000 tons of news print paper, or nearly 50 per cent of the output on the continent in 1917.

FIRST PROSECUTION FOR EVADING TAX

SAN FRANCISCO, June 19.—The first criminal prosecution here for evasion of income tax, was ordered today by Collector of Internal Revenue Justice S. Wardell. Charges of making false and fraudulent entries were sworn by Edmund Kirschner, president, and Joseph S. Kirschner, treasurer of the Sun Tent and Awning company.

BISBEE SHERIFF TAKES ALL BLAME

BISBEE, Ariz., June 19.—Harry Wheeler, former sheriff of Cochise county, who was in charge of the deportation of 1186 copper mine workers and others from Bisbee last year, called from France today to the Bisbee review assuming responsibility for the deportation. Wheeler now is a captain in the United States army. Twenty-one prominent men of Bisbee recently were indicted by a federal grand jury in connection with the case. Names of several other indicted men were withheld.

ENGINEERS CAMP OPENS AUGUST 1

WASHINGTON, June 19.—Major General William M. Black, chief of the army engineers, announced today that the engineers' training camp, which is to open about August 1, will be located at Camp Humfrey, Va., near this city, where 17,000 engineer replacement troops now are in training. Two thousand candidates for commissions as captains and lieutenants are expected to enroll. Candidates for lieutenancies should be between 32 and 36 and those for captaincies between 36 and 42. A traveling board, headed by Major E. H. Williams, has been named to visit several of the larger cities and examine candidates.

William Davenport, the new superintendent of the Medford schools, is expected to arrive in the city July 1st with his wife and children from Park River, N. D.

TURKISH TROOPS SACK AMERICAN HOSPITAL IN PERSIA

WASHINGTON, June 19.—Sacking of the American hospital at Tabriz, Persia, and seizure of the American and British consulates there by invading Turkish troops was reported to the state department today by the American minister at Teheran.

If the report as it reached the minister is officially confirmed, the outrages may be considered an act of war and settle the long pending question of whether the Ottoman allies of Germany should be formally listed among America's enemies.

According to today's reports the Turks sacked the hospital over the protest of the Spanish consul, in charge as representative of American interests and in defiance of the Spanish flag flying over the building.

The hospital at Tabriz is a Presbyterian missionary institution established several years ago. Many American doctors and nurses have been stationed there, but for several months the situation has been so serious that the force has been greatly reduced and a few days ago it was reported to the state department that the last American had gone.

There have been vigorous demands in congress from time to time for declarations of a state of war between the United States and Turkey and Bulgaria. President Wilson and the state department, however, have not regarded this step as necessary or desirable.

NEW YORK, June 18.—Officials of the Presbyterian board of foreign missions here today identified the American hospital sacked by Turkish troops at Tabriz, Persia, as the Colton Memorial hospital which was endowed by a Philadelphia family of that name and established several years ago through the Presbyterian board.

Lazy Bowels—Lazy Brains

Lowered efficiency can often be traced to Constipation.

Do you tire easily? Does your work lack interest? Is it hard to concentrate?

If so, your intestines may be clogged. This often poisons the entire system. And other ills result.

Constipation should be treated knowingly. Don't merely buy some remedy hastily—study the new and better way.

The cruelest treatment is a violent cathartic. It spurs the system into an abnormal action. Then comes chronic Constipation. The intestines depend upon artificial activity. All this is needless. All these old-fashioned purgatives have been replaced.

Stanolax is the name of a new and great corrective of intestinal debility.

Stanolax is a lubricant, not a cathartic. It keeps the walls of the intestines clean and healthy. It dissolves and carries away the treacherous poisons. It encourages the normal muscular contractions of the intestines.
