It seemed like old times at the public market this morning. It was the largest and best attended market of the summer season. From 7:20 a. m. to 8:30 a. m. the market was thronged with patrons from all parts of the city. The cherries, strawberries and a wagonload of loganberries soon disappeared. There was a plentiful supply of beef and veal and all kinds of garden produce. Next week and thereafter the market will be open Tuesdays, Thursdays and Saturdays.

HURRY UP FOLKS AND JOIN AT ONCE NEW LIMIT CLUB

Hurry up folks and get in the new organization, the War Savings Stamps Limit club. The only qualifications for membership are a patriotic feeling and strong desire to help win the war, and your ability to purchase the limit allowed any one person to have in war savings stamps, \$1000 worth. Fred Stripp is the chairman of the Limit club campaign having been appointed to that position by Dr. Hart, the county war savings stamps campaign manager.

The Limit club has just got started and already has a nice nucleus of membership, including all the banks of Medford. The chief purpose of the organization of the club is to help make a success of the War Savings Stamps campaign and to aid in insuring the sale of the Jackson county quota of \$258,000 in war stamps.

A large membership is anticipated for the club. The present members are: Medford National Bank, Jackson County bank, First National bank, Farmers and Fruitgrowers bank, all of Medford, the Gold Hill bank, the Jacksonville bank, Mrs. W. H. Gore, Miss Alice Hawley, Mrs. Dora Harbaugh of Jacksonville, and Mrs. Elizabeth Beeson and Fred Rapp of Talent.

reason that you do not want to put yourself on the back too often if you join the Limit club. Just remember that you have seldom had the chance and certainly have never made so good an investment. No, don't fool yourself, either you will buy the premier investment or you will get nothing except burdensome taxes.

Medford Campaign

The campaign in Medford is under the management of Bill Isaacs and he is a busy man. There are several other busy men working on this War Savings Stamp campaign and busy women also. Be fair to them! They have offered their services to the government to visit you so that it will be easy for you to make your subscriptions. After you have read President Wilson's proclamation and understand what your country asks you to do think it over and decide how much you can promise to save between now and the first of next year and when your solicitor comes to you meet him with a smile and put down the ultimate amount that you can possibly buy. It will make you feel pretty well and it will change a mean, disagreeable job into a patriotic pleasure for the other fellow. You understand, the other one, who is not not only giving all he can but is giving his time as well.

Limit Club Organized

You think that you did all that could be expected of you when you invested in Liberty bonds—read the casualty list. Read it over several times and try to think of those men

and not merely their names. Every one of them and the tens of thousands who are behind them gave more than you can ever give unless you, too, go "over there". When the German armies went thru Belgium they levied huge indemnities upon city and country alike. There was no chance to invest. The Belgians didn't think they were in danger either. Do you suppose the Hun who transports whole peoples into slavery of the most abject kind will deal you a better portion if he hammers you to your knees?

The banks and a number of business houses and more than a few individuals have joined the Limit club. No one is allowed to buy more than \$1000 worth of War Savings Stamps but every one who does buy that number becomes a member of the Limit club and is entitled to wear a Limit button.

Mr. and Mrs. Rudolph Winter of San Francisco left for home today after a two weeks visit with Mr. Winter's parents, Mr. and Mrs. John M. Winter.

Notice to Alien Women. All German alien females in Medford and vicinity over the age of 14 must register with the chief of police, commencing at 6 o'clock Monday, June 17, and continuing on each day successively thereafter until and including the 26th day of June at 8 p. m., except Sunday.

BEST IN THE LONG RUN

The First Infantry Guns Weighed 75 Pounds

FOOT soldiers began to carry firearms about 1350, large, clumsy guns weighing from 25 to 75 pounds. More lead cannon, iron or copper tubes, they were leveled by a de-sailed support, and fired at a touch hole. With the invention of the wheel-lock *arquebus*, in 1317, the first self-loading gun, the musket, was a quick step. Like the first guns, automobile tires, when Goodrich began to develop them, were crude, clumsy affairs, and it's a long, long road of improvement to the symmetrical—

GOODRICH SERVICE VALUE TIRES

The history of the last twenty-two years of The B. F. Goodrich Rubber Company is pretty much the history of pneumatic automobile tires. But whether Goodrich was bringing forth America's first clincher tire, or America's first cord tire— Goodrich built tires to but one end—SERVICE VALUE to the user—the worth of the tire to the motorist on his car and on the road in *comfort, economy, dependability and durability, and mileage.*

That is why the tire user to-day gets the utmost SERVICE VALUE in GOODRICH SILVERTOWN CORDS, and BLACK SAFETY TREADS.

Our Service and What It Means to You

We Have a Joint Interest in This Community and We Wish to Join With You in Every Way to Promote The Community's Interests

In a sense, this community is like a farm—it pays according to the way in which it is treated. The successful farmer co-operates with his farm. Knowing that certain soil elements are necessary to healthy crop growth, he sees to it that these elements are maintained. The same principle holds good in community development. Our community is composed of two closely-related elements—town and country. They are both essential to healthy community growth. Neglect or mistreatment of either of them by the other affects both—it injures the whole community. Both elements must be maintained.

Accomplishing this is simply a matter of sincere co-operation among all of us in this community. Our idea of our own part to play for community good in a business way is— To sell only such implements as have the quality to give high-grade results in the field. To consider good performance by our implements as a part of our obligation. To sell every implement at a fair price. To practice the square deal towards each and every customer. On this basis we invite the co-operation of every farmer in this community.
