SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly releves soreness, and soon the entire corn, root and all, litts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.
