

CALIFORNIAN'S CREW LANDED IN FRANCE

WASHINGTON, July 1.—The crew of the American steamer Californian, sunk by a mine off the French coast, has been landed at a French port, the navy department today was advised. This is the first news received of the vessel since a dispatch several days ago returned to Admiral Sims reported she had struck a mine and was sinking.

EAGLE POINT EAGLETS

By A. C. Howlett

Thursday H. L. Walther of Medford and P. O. Crawford of San Francisco, Cal., were here for dinner. They are in the employ of the Oregon-California Power company.

G. A. Browner of Ashland spent the night with us and went on up to the Big Pines company's logging camp Thursday. He started from home with a motorcycle and had trouble with his engine and after working with it about three hours discovered that he had burned out one of his cylinders, and about that time a man came along and he sold it to him for \$15, coming the rest of the way, about 10 miles on foot, and when he reached the Sunnyside he was about exhausted by heat and thirst. The next day he took the train for the logging camp.

F. L. Putnam of Talent was among the passengers on the P. & E. Thursday. He was on his way to one of the logging camps near Butte Falls.

Irvin Pool, formerly a resident of this place, but for some time having been a resident of California, was here the first of the week visiting his sister, Mrs. Amy Brown.

On Thursday there was a car of wire fencing came in for one of the Brubersteads and the same day there was a car of lumber came out for Jackson county to be used on the Salt creek bridge and other places where it is needed. Fred Stanley and another man are engaged now in

hauling it to Salt creek. There was also another car of lumber came out and went on toward Medford; there was also two cars of wood and six cars of saw logs in the train.

J. M. Wilfrey, one of our principal orchardists, brought in eight empty barrels that had been used for spray dope and shipped them to a Medford concern. I asked him about his fruit prospect and he spoke quite encouragingly. He took a lot of fruit packing tables from the old Big Pines Lumber company's warehouse that were used last year, home with him.

Amos Ayres, our depot agent shipped out a fine lot of young chickens Thursday afternoon.

The P. & E. R. Co., have been using a large seven passenger car lately to bring out the passengers and mail in the morning that the train does not run. Friday morning they brought out Fred Warren of Trail and two ladies.

Nick Young, Ed Clements and Harry Lewis were with us Friday noon and Harry Lewis and John Haythorn spent Friday night here.

Mr. and Mrs. Frederick Pelouse and son Bob took supper at the Sunnyside Friday evening. Mrs. Pelouse and Bob had come from Medford and stopped here and Bob went up home for his father and we had one of those good old fashioned visits such as one can have with people of that class. The reader will bear in mind that Bob has just left the hospital and is just getting over an attack of spinal meningitis, where he was hovering between life and death for several weeks, and now is home on a furlough of 30 days to recuperate in our healthy climate while visiting his parents. While he has lost some flesh, is pounds in weight, still he looks hale and hearty and can see no serious results.

The meeting Friday night in the interest of the W. S. S. more proved to be an abundant success. There were 75 in attendance. The meeting was called to order by Dr. Holt and the object announced. Our school clerk, W. C. Clements, acted as secretary. After the reports of the different solicitors were in the clerk announced that the amount subscribed so far amounted to \$3,425 of our apportionment. Then Dr. Holt called for any persons who had not been approached by the solicitors to raise the hand and then for a few moments quiet reigned, while they were filling out their cards and soon the clerk announced that there still lacked \$130 and hands began to go up for more cards and the next announcement was that we had gone over the top and \$50 to go on, and the chair also announced there was one person who went the limit and bought \$1,000 worth of stamps and that was Mrs. Jessie Curtis, an elderly lady 89 years of age. Mrs. W. L. Childreth lead as she reported \$1,875 subscribed on her list. After the work of raising money was through then the W. S. S. society was organized by the election of Mrs. W. L. Childreth as president and W. C. Clements as secretary, when we adjourned feeling a willingness to redouble our efforts to down the Hun.

Nobel Zimmerman, who has been working at Hill for several months, came out on the P. & E. Saturday morning on his way to Blue Canyon to visit his parents, Mr. and Mrs. Zimmerman. He was met at the train by his sister, Mrs. Maud Lindmen.

Mrs. Charles Pruett gave a little social last Saturday night in honor of one of her neighbor boys, John Singleton, who has been ordered to report for military duty. There were only a few of her near neighbors in attendance, among whom were Mr. Singleton's family, Charles and Thomas Cingade and their families and one or two others whose names I failed to secure.

George Wehman who has been clerking in the Von der Hellen hardware store for the last several months has gone to work in the Edsall logging camp.

Last Sunday morning at the close of the Sunday school exercises, the call was made for birthday offerings. The Sunday school has a right to ask for birthday offerings and those who have had a birthday during the past week are requested to contribute a penny for each year of their age for the benefit of the missionary cause, and on that occasion Grandma Curtis walked forward and deposited eighty-nine pennies in the contribution box, indicating that she was eighty-nine years of age. She is quite feeble and it was with difficulty that she could walk to the stand and place the contribution in the small opening made to receive the change.

Among the guests with us last Sunday were R. E. Haney and mother Mrs. Smith, Mr. and Mrs. Trowbridge, Mr. M. J. Mason of Medford, Mrs. Wm. Perry, Joe Mooney, Orval Childreth of Eagle Point, Mr. Geppert, Fred Stillwell, John Foster, Frank Abbott of Butte Falls, and Miss Luella Allen and Marion Trusty of Trail.

Lewis Martin, formerly of Trail but now working in the manganese mines who was quite badly hurt last week by being caught between two rocks, was a business caller in our town Monday. Speaking of the manganese mine the report was started

here that the mill had shut down and that they were not doing anything up there was circulated around here, but it was all a mistake. They had fired two men and it is thought that that is the way the report got started. They are still running and hauling out the ore. Tuesday they shipped to Tacoma twelve or fifteen bales of sacks that had been shipped to them and on examination found to be no good so they sent them back.

Mrs. Buell Hildreth of Butte Falls, who had been to Medford to have some dental work done came out Monday morning and remained at the Sunnyside until Tuesday when she took the train for home.

Emmet Piel who has been engaged working in the Lake Creek mine for the past month, came out Tuesday morning and took the P. & E. for Medford.

A man by the name of Sears, while working in the Ed Walker logging camp, had his knee quite badly hurt. He was standing near where they were hauling in logs for shipment when the log that was being dragged by the donkey engine caught against a stump causing it to swerve sideways and caught him hurting him quite badly, but my informant did not know how badly.

Wm. Perry who now owns the part of the old John Mathews place that fell to Polk Mathews and that he, Polk, willed to Polk and Corbet Smith, reports that some of his wheat is so badly injured by the extreme cold and hot weather that he has to cut it for hay and that in addition to his clover and alfalfa is running his hay crop up into over a hundred tons. But Will is one of the best farmers in this country and does farming right.

Word has come to us from Ashland that one of our old neighbors, Mrs. A. H. Peachey, of that city, is down with that malignant and dangerous disease diphtheria, and that will stop many, if not all, here from going to the celebration or round-up. Her many friends here are hoping for her speedy recovery.

There are quite a lot of tourists passing thru here every day on their way to Crater Lake and eastern Oregon.

There was a family stopped here Tuesday evening to have our blacksmith do some repair work on their auto. They were from Pendleton, Ore., and seemed to be enjoying the trip very much.

Mr. and Mrs. H. E. Henderson arrived here Monday from Imperial Valley, Cal., right joining the Mexican border, to visit Mrs. Henderson's parents, Mr. and Mrs. R. F. Kuller who own a farm near this place. They seem to be highly pleased with our section of the country.

Andrew Gressom and wife were here Wednesday morning doing business with Geo. Brown and Sons and the Von der Hellen hardware store. They started out with their wagon well loaded.

C. E. Bellows passed thru town this Wednesday forenoon with his little boy on his way to an ear specialist. The little fellow has had a rising in one of his ears, and it had broke and then closed up again and our local M. D., Dr. Holt, thought it best to take him to a specialist for treatment.

Miss Balfrey of Central Point, was a business caller Wednesday morning on Mrs. Lottie Van Scoy.

The P. & E. railroad company came out Wednesday morning and brought the mail and three passengers in a seven-passenger auto. The motor car that they have been trying to make do service is indefinitely laid up for repairs and the good-natured men who have been doing their best to make it do the work are rejoicing and hoping that the company will consign it to the junk pile.

Harry Lewis and Albert Clements arrived from Klamath county Wednesday morning. Albert has been recalled to service for U. S. They were guests at the Sunnyside for dinner and so was Mr. E. Conger, J. B. Renault, J. B. Coleman, our assessor of Jacksonville, and Mr. J. W. Adams of Talent. Mr. Adams is a confirmed invalid, being paralyzed in his legs. He remained in the car and had dinner brought to him. He seems to be very cheerful in spite of his afflictions. He is one of the old veterans of the Civil war and was one of our boarders while the G. A. R. held their encampment here a few years ago.
