Died of wounds received in action: Sergeant Alcege N. St. John, Cleoppe Falls, Mass.; Private Donald M. Blankenship, Rome, Ga.  
Previously reported killed in action, now reported present for duty: Private Ivan C. Walker, Rockford, Ills.  
Previously reported killed in action, now reported seriously wounded: Private George E. Michael, Dalmatia.

### TURNER HEAD OF HILL RAILROAD LINES IN OREGON

W. F. Turner, formerly of Medford, who began his railroad career in Oregon as traffic manager of the Pacific & Eastern, when the Hill interests acquired and constructed the road, has been made president of the Hill railroads in the northwest, including the Spokane, Portland and Seattle railway to succeed L. C. Gillman, appointed regional railroad director. Mr. Turner's rise in the railroad world since leaving Medford has been rapid and his friends predict that he has only started and forecast a brilliant career.

**In Charge of Hill Lines**  
Mr. Turner in his executive capacity as president, will have charge of the corporate interests of the Spokane, Portland & Seattle Railway company, Oregon Trunk railway and Oregon Electric Railway company. He will also occupy the position of vice president of the following Hill railroads and properties in the northwest:

Spokane and Inland Empire railroad company, United Railways company, Pacific & Eastern railway, Great Northern Pacific Steamship company, Keith Realty company. Orders received Monday from John Barton Payne, general counsel of the United States railroad administration, definitely relinquish these lines from government control.

It is understood that F. S. Elliott, superintendent of the Great Northern lines at Superior, Wis., will be named president and operating head of the Hill companies not under government control.

Mr. Turner is at present vice president and comptroller of the Spokane, Portland & Seattle Railway companies in the northwest.

**Rise Is Rapid**  
While Mr. Turner's experience has been largely in the field of accounting, he has also held responsible operating positions, having been elected vice president of the Great Northern Pacific Steamship company in May, 1916, in direct charge of the operation of the palatial steamers, Great Northern and Northern Pacific, between Flavel and San Francisco. In this position he attained signal success as a traffic and operating manager, conducting the operation of the steamers in an efficient manner and gaining tremendous popularity for the line until the removal of the steamers from the run in September, 1917, when they were commandeered by the United States government for war service.

Mr. Turner's early training and experience were acquired with the Southern railway at Washington, D. C., where he was placed in charge of the statistics of the system. He was later assigned to the handling of steamer accounts and to check the rail and water accounts of the same system. Later Mr. Turner entered the service of the Delaware, Lackawanna & Western railway at New York.

Mr. Turner has been identified with the Hill interests in Oregon since 1909.

### UP-STATE OPPOSES HEARST'S CANDIDACY

SYRACUSE, N. Y., July 10.—Unable to agree on a candidate after five ballots, the "committee of forty-two" upstate democrats, decided to submit to the party conference at Saratoga on July 23, the names of seven men, any one of whom will be acceptable as a candidate for governor.

The list does not include the name of William Randolph Hearst. His name was not presented formally or informally, neither did he receive a vote on either the formal or informal ballots. The seven include James W. Gerard, and Congressman George R. Lunn.

During the session the committee-men were told informally that a poll of upstate leaders had resulted in an announcement that there was no sentiment in favor of Mr. Hearst and that Mr. Hearst had been notified of the result of this canvass.

### LUXEMBURG DOES HER BIT WITH 3000 IN FRENCH ARMY

PARIS, July 10.—The suffering in Serbia, Belgium and other small nations afflicted by the war have been told and retold, but little has been said about the brave little neutral nation which bore the first brunt of the German invasion—Luxemburg.

The tiny grand duchy sandwiched between France, Belgium and Germany which defied the invader in August, 1914, and was trampled under foot has suffered stoically. The Hunns have starved its population, having as scandalously as they did in Belgium, and there has been no relief commission as in the case of Belgium.

The airplanes of the French have bombed the towns of Luxemburg occupied by the Germans, and killed the civilian population when railways and steel works aimed at were missed. But Luxemburg trusts that the

nations in arms against Germany will exact reparation and restoration and that her terrible hardships will not have been in vain.

Many of her sons, altho of German origin, have joined the ranks of the allies. They were the first volunteers to join the French Foreign Legion in 1914.

Out of a total population of 269,000 Luxemburg has given 3000 volunteers to the French army, while hundreds more enlisted in the Belgian, American and even Canadian and Italian armies.

These volunteers were mainly residing abroad; their numbers would be vastly larger if the Germans would permit the population to leave the country.

The Luxemburg volunteer regiment has won the highest distinction of any in the French army; each soldier has been mentioned six times in the army orders, and wears the highest decorations of the Legion of Honor. One French general, Monhoven, is a native of Luxemburg.

When the war ends Luxemburg will receive full credit for its valorous part in it.

F. Corning Kealy has gone to Carmel-by-the-Sea, Calif., for a several weeks visit with his wife and children.

### THE PROPER COURSE

Information of Priceless Value to Every Medford Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a nearby resident who has used them and publicly tells of the benefit derived?

J. D. Samuels, R. F. D. No. 2, Central Point, Ore., says: "Several years ago I worked at the stone mason trade and during that time my back gave me a great deal of trouble. I had hard work getting down and I could hardly straighten up. After I had taken Doan's Kidney Pills awhile, I didn't have the lameness in my back and could get up and down as well as ever."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Samuels had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

### Good Teeth Start With Infancy

GOOD teeth, well taken care of, add a charm to any face. A child with a deformed mouth enters the race of life with a big handicap. There is nothing that detracts more from a person's appearance than unsightly or irregular teeth.

Straight, even teeth—a perfectly shaped mouth—rest very largely with mother's care in infancy. Few realize the danger likely to result from allowing young children to form the habit of sucking their thumbs or fingers. This tends to force out the upper front teeth and jaw, and to push back the lower front teeth and jaw. A deformed face is the result.

This deformity causes the teeth to come in irregularly. Deformed jaws help to cause adenoids and mouth-breathing, and mental development is retarded by displacement of the bones of the jaws and face.

Do not neglect the temporary teeth. They represent the structure on which the permanent teeth are built. If lost by decay before their time, the jaws fail to expand properly, and the incoming permanent teeth will be crowded and irregular. A child's temporary molars are not fully replaced by the permanent teeth until the tenth or twelfth year after birth.
