DEMONSTRATOR TO BE STATIONED HERE

It will be welcome news to the women of Jackson county that Miss Anne McCormick, who has been the home food demonstration agent since last September in Jackson and Josephine counties, spending alternately two weeks in each county, will hereafter be stationed permanently in this county.

The work of covering the two counties was too arduous for one person to handle and some time ago there was fear that Miss McCormick might be transferred to some other county unless the county court made an appropriation to pay her expenses. Then the county court on petition of the women of Jackson county made an appropriation of \$800 yearly for expenses, but until now it was not known definitely whether or not Miss McCormick would be assigned to remain here. The government pays her salary, and unofficially Miss McCormick received word from Washington two weeks ago that she would probably be assigned permanently to this county.

Miss Anna Turley of Corvallis, who is state leader of all the home demonstration agents for the extension department of the O. A. C., was in the city Friday in conference with Miss McCormick, at which the latter was informed of her permanent station in Medford.

No announcement has yet been made as to the identity of the new agent to be assigned to Josephine county.

County Clerk Gardner this afternoon said that the board learned that Peterson had folks living in the city.
