

### HAYWOOD SAYS SABOTAGE BEST AID OF WORKERS

CHICAGO, Aug. 13.—Sabotage was defined as the "biggest, strongest and most wholesale weapon of the working class" by William D. Haywood, general secretary and treasurer of the I. W. W., at the trial today of 100 leaders of the organization charged with violations of the espionage law.

"We believe in using sabotage to protect humanity," said Haywood. "It prevents dishonest employers from adulterating food products and other necessities of life. Sabotage must be used if the capitalistic class is to be put out of business."

"It is the only practical means of protecting humanity from being robbed and poisoned."

The witness referred to a recent strike of hotel employes in New York where it was alleged the strikers used "Mickey Finn" powders and stink bombs, and said he disapproved of such methods. He said at the time he made a speech to the strikers in which he advised them to punish their bosses by serving double portions of food to the patrons.

Haywood attempted to justify the calling of strikes by the I. W. W. to compel the release of men alleged to have been illegally arrested.

### OCCUPATIONAL TAX PROPOSED

WASHINGTON, Aug. 13.—Special taxes of ten dollars a year on occupation or profession, except war industry trades, farmers, teachers and ministers of the gospel, were written into the \$8,000,000,000 war revenue bill today by the house ways and means committee. A similar tax was placed upon any business with receipts of \$2000 a year or more, with a levy of \$25 a year on wholesale business with receipts of \$200,000 or more.

Newspapers, press associations and periodicals were exempted from the proposed ten per cent tax on the amount paid for leased telegraph and telephone wires in the pending \$8,000,000,000 revenue bill, after a vigorous fight by Representatives Rainey of Illinois and Longworth of Ohio. It was amended so as to apply only to the stock brokers' lines.

In addition to the ordinary duty of ten per cent on all jewelry sold at wholesale, the committee put a ten per cent tax on retail sales of jewelry composed wholly or partly of platinum. This is designed to discourage such use of platinum during the war.

### ENGLAND TO MODIFY MILITARY SALUTE

LONDON, Aug. 13.—Modification of the military salute is likely. In towns where there are many soldiers the private's arm is in constant activity which makes his life miserable, and it has been suggested that the salute be made compulsory only on parade, to officers of staff rank, and to officers of the man's own regiment.

### STRIKE FROM CHAULNES.

(Continued From Page One.)

The battle along the Aisne and Vesle. Reports today stated that the ruins of Peronne are in flames and that several villages inside the German lines are burning. It is believed the Germans are preparing a further retirement.

At some points, especially in the center, the heavy allied artillery has been brought up and is shelling heavily enemy positions south of Peronne. The French also are rushing up guns between Roye and Noyon. The Germans here have depended upon artillery barrages to stop allied attacks.

British, French and American airmen are harassing enemy positions unceasingly. Frankfurt has been bombed by British squadrons.

There have been local engagements in the Flanders sector, but nothing of significance has occurred there during the last day.

### It's In The Air

Windblown pollen, carrying the bacteria that inflame nose and throat and cause hay fever, is abroad in the land. One remedy is known to give relief and comfort from choking, gasping asthma and tormenting hay fever. That reliable remedy is Foley's Honey and Tar that spreads a healing, soothing coating on the inflamed membranes, stops irritating coughs and summer colds. Any one who has once used this standard cough and cold remedy will accept no other. Sold everywhere.

### GERMANS PLAN TO SEIZE PETROGRAD WITH TROOPS

LONDON, Aug. 13.—The Germans intend to occupy Petrograd, a dispatch to the Copenhagen Politiken from Helsingfors declares, the Exchange Telegraph correspondent in the Danish capital reports. Troops for this purpose are already being brought toward the objective, it is added.

LONDON, Aug. 13.—It is reported from Moscow by way of Berlin that the diplomatic representatives of the entente have handed a collective note to War Minister Trotsky demanding within three days an explanation of Premier Lenin's threat that Russia would declare war "against Anglo-French imperialism," the central news states today.

LONDON, Aug. 13.—Germany in the bitter hour of defeat in the west she has yet known, is menaced in the east not only by the advance of the allied expeditions but by the perpetually growing movement of unorganized resistance to her occupation, says the Daily Telegraph in commenting on the situation in Russia.

There is not a part of Russia where German troops are stationed where the commanders have not all they can do to hold the people down by force of arms. The task, the newspaper adds, will soon call, if it has not already, for strong reinforcements apart from the question of meeting the allied expeditions.

### ASK BONUS FOR GOLD MINERS

RENO, Nev., Aug. 13.—Resolutions calling for the payment of a bonus by the government for every ounce of gold produced were adopted last night by the resolutions committee of the American gold conference and placed before the conference for discussion today.

### U-BOAT CREW INSULTING.

(Continued from page one.)

day by survivors of the vessel. The fishermen had been ordered aboard the U-boat where 10 of them stood against the conning tower to be photographed. As they were being lined up for the picture they were jeered by the U-boat crew and knocked about when they failed to move as rapidly as the commander ordered. The men of the Lena May declared that the Germans were drunk.

### Acted Like Drunken Men

"At least they were half shot," they said. "You would have thought that too had you seen the dance of the German officer with the stars and stripes draped about his shoulders and head the cheering as the flag finally was flung down and stamped on, amid shrieks from our captors. And you would have thought again they were drunk when, finding a side of fresh beef in our galley, they set up a roar that resembled that which comes from a crowd at a ball game. The way they cheered made me think they were half-starved."

A member of the submarine crew who spoke English rather brokenly was asked why they wanted a photograph.

"That goes back to Germany," he replied, "to show what we do over here. We have quite a lot of them. They look good in Berlin."

### Outrageous Treatment

All of the men from the Lena May and the Earl and Nettie and another fishermen sent down by gunfire, said they received outrageous treatment at the hands of the Germans. Rising to the surface in the midst of the fleet the submarine commander found more vessels than he could sink immediately. They were told to stand by and await destruction.

In the desire to obtain food and clothing, the commander set out in a dory, and to save his own men from rowing Captain Frank Lynch of the Lena May, and two other fishermen were required to man the boat. They were ordered repeatedly to hurry.

### U-boat Gas Attack

WASHINGTON, Aug. 13.—Secretary Daniels said today the department had no further information regarding the gas attack by a German submarine yesterday near Smith Island, N. C., or the effort of an American destroyer to sink the German submarine off the Virginia coast with depth bombs.

So far as the navy department advises so there has been no information that German submarines were equipped for carrying gas for such use as was made of it on the North Carolina coast.

### BOMBING PLANES TAKE PLACE OF GUNS IN DRIVE

WITH THE FRENCH ARMY IN FRANCE, Aug. 13.—(By the Associated Press).—During the battles of the last few days bombing planes have virtually replaced the heavy artillery which the allies were not able to bring up fast enough.

These airplanes immediately attack groups of infantry, convoys and supply trains when they receive signals from reconnoitering planes.

Bombing squadrons are kept ready at airbases so that they may take the air at the instant a call is received from signal planes, troops or convoys in villages or at road terminals.

This system was employed at Lassigny the other day. An observing plane reported the town encumbered with troops and supply trains. Air planes to the number of 121 flew to the spot and 21 tons of bombs were dropped. This attack caused a large fire, destroyed motor lorries and blocked the streets of Lassigny, tying up the movement of the enemy for hours.

All cross roads as well as railway stations, where important lines of communication meet are under continual attack from these bombing planes.

### STRATEGICAL KEY TAKEN.

(Continued From Page One.)

do the Germans appear for the moment to be in possession. This corner is one of the highest humps on the hills, rising a few feet above the positions now in possession of the French. The French are attacking this hump strongly and there seems every prospect of the action ending in their favor.

When the French get their guns to the top here the enemy's communications with Roye will come under observed fire.

Bailly is on the east bank of the Oise about a mile and three-quarters east of Ribecourt. It is near the southern end of Ourcamp forest, which is of great strategic value.

The French are working around Roye to the west and the south of this important German holding point almost in the center of the Pleadry battlefield and now hold high ground in this region.

### Wood Is Captured

The wooded area around Des Loges south of Roye was captured by the French last night but a German counter attack drove them back.

The village of L'Econville has been captured by the French and further ground has been gained by them north of St. Claude farm. (L'Econville is about 3 1/2 miles southeast of Lassigny and virtually on the crest of the ridge overlooking the Oise.)

The enemy is reported destroying villages in his rear. The ruins of Peronne are reported to be burning. Fires have been observed by allied airmen at various points.

So far 33 German divisions have been identified in the fighting. The indications are that the enemy's reserves are gradually being exhausted and he is drawing troops out of the line to extend his flanks and cover any gaps. This is an operation, however, which can be carried out only to a limited degree.

Among visitors registered at the hotels today were Thos. B. Shannon and H. L. Hoffman of Chicago, E. M. Harvey of Watsonville, Calif., B. Reil, H. R. Prather, C. C. Donahue, L. McDonald and C. H. White of San Francisco, G. H. Campbell of Eugene, H. O. Burroughs of Bridgewater, S. D. I. W. Cole of Oakland, Mr. and Mrs. C. P. Curtis of Des Moines, Mrs. Oldenberg and Chas. A. Speck of Seattle, and C. M. Allen, Will F. Powell, C. J. Powell, Douglas Powell, C. T. Nelson, R. W. Fullerton, J. D. McCord, George Anderson and T. Jacobson of Portland.

### Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless. Adv.

### FORD A WINNER IN MICHIGAN AS SENATE CANDIDATE

(By Frederick M. Kerby).

DETROIT, Mich., Aug. 13.—It begins to look as if the only question remaining in the senatorial race in Michigan, is whether Henry Ford prefers to be elected as a democrat or a republican.

It is true that the primary election has not yet been held—it occurs AUG. 27; as it is equally true that there are four aspiring candidates, for the nomination; and of course the election won't be held until November; but the election may, after all, be a mere formality.

This is due to a most unusual situation, as amusing as it is interesting.

There are three candidates in the republican primaries, of whom Henry Ford is one. The other two are Truman H. Newberry, former assistant secretary of the navy, of Grosse Pointe, and ex-Governor Chas. S. Osborn, of Sault Ste. Marie.

There are two candidates in the democratic primary, of whom Henry Ford is one; the other being James W. Helme of Adrian.

### On Both Tickets

Henry Ford is thus on both primary tickets, having been nominated by petitions from members of both parties.

The Michigan republicans of the old-line persuasion, are frothing at the mouth over the "trick," as they call it, played by the democrats in getting President Wilson to ask Ford to run for the senatorship. It was Judge William F. Connolly of Detroit, democratic national committeeman, who went to Washington and saw President Wilson, and is generally credited with showing the president the advantage of endorsing Ford.

The state of Michigan is normally republican. In 1916 it cast 336,000 votes for Hughes for president, to 286,000 for Woodrow Wilson.

### Politics Won't Count

But nobody in Michigan—except the politicians—is thinking politics now. Nobody looks on Henry Ford as a politician, and nobody believes he is going to run for the senate for political reasons.

It is expected that about 100,000 votes will be cast in the democratic primary; and perhaps 150,000 in the republican. Ford's friends believe he will be nominated on both tickets. The law says a man nominated on two tickets must choose within five days the ticket upon which he prefers to run, or be placed on the ticket which gave him the greatest number of votes. Another provision says the state committee of a party cannot fill a vacancy on a ticket except when the candidate dies or leaves the state. If Ford is nominated on both tickets, therefore, and is withdrawn from one by operation of the law, the vacancy on the other ticket cannot be filled, and he will be the only candidate in the field.

### Ford an Independent

Ford himself is independent in politics. He has twice supported Woodrow Wilson for president; but has voted for men of both political parties in the past. He seems to have the knack of doing the thing that adds to his own reputation.

To innuendoes about the "Peace Ship," the average citizen is inclined to say that everybody must have his peculiarities, and that was Ford's. "If Woodrow Wilson thinks Henry Ford is doing his bit in war work, I guess he ought to know."

LONDON, Aug. 13.—A recent British invention of a submersible electric motor pump has been of great aid to the admiralty in their salvaging work. A steamer with a food cargo valued at \$17,500,000 was recently salvaged with the aid of this motor pump.

### BAGDAD DEAD IN 1917 AWAKES TO LIFE IN 1918

LONDON, Aug. 13.—Bagdad, March, 1917—a city dead to the world, governed by the bribe-gathering Turks and their store-keeping German advisers, a link in the Hun dream of world domination thru the Berlin-to-Bagdad railway.

Bagdad, July, 1918—a city alive with a stream of humanity passing thru its gates, its disease centers practically eliminated, its people happy and content under the rule of its deliverers.

This is the result of a little over a year's occupation of Bagdad by the British forces.

When the city was captured by the British on March 11, 1917, the military authorities found a community infested with contagious diseases, with an inadequate water supply, the people themselves lukewarm in the interest of the British for their own welfare.

All this has been changed within the last year. A police force has been organized, also a fire brigade.

The water supply has been extended. Electric street lights have been installed. Schools have been erected and mosques have been repaired. The streets are flushed daily, and sanitary squads are making it a healthy town to live in. Markets have been opened, assuring a continual supply of food.

And most of all, the community's attitude toward the British has changed to that of good will and trust. They are co-operating in all civic works, and openly express their preference to the rule of their deliverers, rather than go back to Turkish misrule.

What has been accomplished in Bagdad is being accomplished in the other cities in the hands of the allied forces. They are making friends of the population and incidentally ringing down the curtain on Germany's hopes to control Mesopotamia after the war.

### Prepare for the Hot Wave

The hot sun is doubly dangerous if there is a mass of undigested food in the stomach, causing distress and auto intoxication, causing congesting poisons thruout the system. Foley Cathartic Tablets give prompt and sure relief. They act gently but do their work thoroughly. They cleanse the bowels, sweeten the stomach and benefit the liver. Recommended for indigestion, biliousness, bad breath, bloating, gas or constipation. Sold everywhere.

### Suggestion Is Approved

In reply the acting secretary of agriculture stated that the suggestion relative to doing maintenance work during the war appeared excellent and that the district forester at Portland had been instructed to confer with the county officials and the local park authorities for the purpose of working out a plan for doing such work on the road as is necessary to keep it in a passable and safe condition until the cooperative improvement project can be undertaken at the end of the war.

### No Information Has Been Received

(Continued from page one.)

### PLAN TO MAINTAIN CRATER LAKE ROAD IS AGREED UPON

(Washington Dispatch in Portland Journal).

Maintenance of the Jackson county and Anna creek section of the road between Medford and Crater Lake national park in a passable and safe condition during the war, with a preferred status at the end of the project, is the plan agreed upon by representatives of the forest and national park services.

From William L. Hall, acting forester, Senator McNary has received a letter setting forth the policy decided on. The road to Crater lake, it is explained, is similar in class to a number of others which are primarily for recreation and tourist travel, and not within the line of necessary road work which is being authorized by the department of agriculture. As this project affected the development of a national park, the forest service asked for the view of Secretary Lane of the interior department, who has the parks under his jurisdiction, and Mr. Hall thus states the situation:

"The acting secretary of the interior replied that he fully concurred with the view of the secretary of agriculture that it would be inadvisable to proceed with the development of the project at this time, but expressed the hope that the project would be entitled to first consideration upon the restoration of peace."

"The acting secretary further stated that there exists great need for maintenance work on the project and expressed the hope that thru co-operation between the counties of Jackson and Klamath, the forest service and the local national park authorities some arrangement might be made to keep the entire parkway to and thru the park in a passable and safe condition until the cooperative improvement project can be undertaken at the end of the war."

### Present Time Inopportune

(Continued from page one.)

"No information has been received

relative to the working out of this agreement, but there seems to be no reason to doubt that adequate provision will be made for the maintenance of the road during the present emergency."

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.
