

VICTORY DUE TO AMERICANS SAYS CANADA'S PREMIER

NEW YORK, Aug. 23.—Sir Robert L. Borden, premier of Canada, arrived here today after a ten weeks stay in England and France, firm "in the conviction" as he expressed it, "that never was the spirit of the allied nations more steadfast or more resolute than at present."

America's mighty effort in sending more than a million men to France was the deciding factor in bringing victory out of defeat on the western front, Sir Robert said. "It is beyond question that the victories of the last four weeks would not have been possible except for the American divisions which have taken their place in the battle line," he continued.

"I have seen many thousands of American troops on board ships and in camps I visited. It is impossible to over-estimate the increased confidence with which the arrival of those mighty armies has inspired the allied nations."

"All Europe is impressed by their splendid physique, their resourcefulness and adaptability, the remarkable rapidity and thoroughness with which they have acquired necessary training and, finally, the magnificent fighting qualities they have displayed in every battle in which they have been tested."

"There is most effective and harmonious co-operation between the armies of the United States, Great Britain and France. From Sir David Beattie, as well as from Admiral Sims and Admiral Rodman, I know that this is equally true of the British and American navies."

The future peace of the world rests largely upon the unity of purpose and action between the United States and Great Britain, the premier said. "I trust that these two mighty democracies, united by strong ties of kinship, language and ideal, may inspire each other with complete confidence and sympathy in earnest and unselfish purpose and action to command the world's peace and secure safety and equality of opportunity for the smaller nationalities and for the backward races of the world."

"The supreme result would indeed crown all our sacrifice and would give us much to hope from a wider league of nations."

CAMP KEARNEY TO BE ARTILLERY STATION

WASHINGTON, Aug. 23.—Camp Kearney, Cal., is to be utilized as an artillery instruction station, the war department announced today. Two brigades of artillery will be sent there for instruction, one brigade belonging to a division which it is planned will be organized at Kearney later and one brigade to be formed from recruited cavalry regiments.

CUT PRIVILEGES OF CIVILIANS AT CANTONMENTS

CAMP LEWIS, Tacoma, Aug. 23.—Privileges of civilians are to be curtailed and closer check kept on their activities in camp thru an order issued today requiring all civilian workers and others having business in camp to be provided with passes bearing their photographs.

The order indicates, it was said at camp headquarters, the training of the 13th division will be speeded up to move it in record time for active service overseas. Other orders further limiting visitors to prevent their interfering with the training of the soldiers, are expected soon.

Orders were issued today for the appointment of officers to superintend the training of the newly arrived western men.

The training will start immediately. Colored soldiers who arrived here in the last draft are to have a hostess house at North First and Montana streets for the exclusive use of themselves and friends, the Y. W. C. A. announced today.

Major Charles D. M. Houghton, camp adjutant, until the war a wholesale lumber dealer of Indianapolis, Ind., received an order from the war department sending him upon a mission which cannot be disclosed but which brought him the congratulations of the officers detailed at camp and division headquarters.

Assignments of officers to organization making up the 13th division have been practically completed, and with the arrival of 10,000 newly drafted men next week, training will get under full swing. The 13th division flag which the western men will carry into battle following their training arrived today and was unfurled at division headquarters.

JEWISH YOUTHS TO REGISTER MONDAY

WASHINGTON, Aug. 23.—Because members of the Jewish orthodox church object to registering for military services on their Sabbath, Provost Marshal General Crowder announced today that youths of the Jewish faith will not be required to register next Saturday with others who have become 21 since last June 5. Their registration will be accepted by local boards on Monday, August 26.

"CLUTCHING HAND" GANG BROKEN UP

LONDON, Aug. 23.—Four boys were recently arrested charged with shopbreaking. The police stated that they were part of a gang of boys calling themselves "The Clutching Hand Gang," headed by a leader known as "Tomato, the Chief."

SPAIN TO DEMAND GIBRALTER FOR GETTING INTO WAR

WASHINGTON, Aug. 23.—That Spain, now on the verge of joining the entente against the central powers, will demand Gibraltar and Morocco as its price for entering the war is the belief in Washington.

Its action in notifying Germany that it will seize German ships equal in tonnage to Spanish vessels sunk by German torpedoes will in all probability be regarded by the Huns as a casus belli, for Germany holds it her right to sink neutral ships at will.

If Spain enters the war it will be a case of Hapsburg against Hapsburg, for King Alfonso is of the same ruling family as Emperor Karl of Austria. But Alfonso is having little to say about his country's policy. The Spanish cabinet is the decisive factor.

Premier Maura has always been bitter toward England for its refusal to give up the rock of Gibraltar, and it is expected that he will demand Spanish control of the great fortification in return for sending an army to the western front. Foreign Minister Dato coincides with Maura's policy.

Spanish control of the Straits of Gibraltar is essential to Spain's ambition to rule Morocco, now a French protectorate. Spain will also demand that the French relinquish their control of Morocco if it enters the war, it is believed here.

JAP WIRELESS ACROSS PACIFIC

TOKIO, July 30.—(Correspondence of the Associated Press). The installation of a new high power wireless system between Japan and the United States is actively occupying the department of communications.

The Japanese high power station communicates direct with Hawaii. The proposed station will be with a station on the Pacific coast, the site of which probably will be near San Francisco, a distance of 4600 miles. This will be one of the longest direct wireless services in the world. Details of the project will be announced soon.

SUBMARINE LOSSES SHO / NO INCREASE

LONDON, Aug. 23.—Merchant tonnage losses in July due to enemy action and mine risk was 313,011, which makes the total for the quarter ending with July for allied and neutral countries 919,392. Ships built in British yards and in foreign yards on British account in July reduced the British deficit to 22,311, which compares favorably with the average monthly deficit during the first six months of this year of 90,000.

HURLEY REFUTES HUN PROPAGANDA CONCERNING SHIPS

WASHINGTON, Aug. 23.—German propaganda designed to create dissension among the allies with stories that the United States will use its enormous fleet of transports and food ships for trade conquests after the war, was the subject of a statement today by Chairman Hurley of the shipping board. He said every man lined up against autonomy can be depended upon to detect the source of these suggestions and discount them.

"In building her merchant fleet America plans first of all to win the war and after that to overcome her own neglect to provide ocean transportation for her own trade," said Mr. Hurley. "To this end the people of the United States are preparing to develop transportation for their own trade routes, without disturbing the trade rights of other nations. It is unthinkable that a nation fighting shoulder to shoulder with the other democracies should turn its resources after the war against them for trade conquests, the nature of which was largely instrumental in causing the war."

ALLIED AIRPLANES ACTION ON FRONT

PARIS, Aug. 23.—An official statement on aerial operations, says: "On August 20, nine enemy airplanes were put out of action and three captive balloons were burned. Forty-one tons of projectiles were dropped on enemy concentrations and convoys in the region of Gony, St. Paul-Ang. Bois, Juvisy, Chavigny-Crocy-Au-Mont and crossings on the Aisne. Tens of thousands of cartridges were fired on the same objectives. Last night 23 tons of projectiles were dropped on the stations of Mezieres, Amagne, Lanquey, Chateau-Sar-Retonne, Conflans and Amervalles. Four tons of explosives were dropped on the station at Thionville. Fires and heavy explosions were observed, particularly in the Mezieres and Amervalles stations. A total of 64 tons of projectiles were utilized with excellent results."

HUN AIRMEN DESERT: FLY OVER BORDERS

THE HAGUE, Aug. 23.—The air service in Germany is becoming alarmed at the increasing number of desertions. Aviators are flying into neutral countries where they are interned for the duration of the war.

HUN AUTHOR SEEKS TO BE RICH MAN'S SON

AMSTERDAM, Aug. 23.—The following advertisement appears in the Deutsche Zeitung: "A German-minded author who is striving to realize large

"HIS TREATMENT IS REMARKABLE," HE SAYS

Capt. F. S. Patty, Ex-Passenger Agent Northern Pacific, Discusses Former Troubles

Nearly everybody in Knoxville, Tenn., especially railroad people, know Captain F. S. Patty, for twelve years district passenger agent for the Northern Pacific railroad, with local offices in Chattanooga and general offices in St. Paul, Minn.

On account of generally failing health Capt. Patty was forced to discontinue active work and for the past few years has been making his home in Knoxville, where he numbers his friends by his acquaintances. He is a kind, genial gentleman of the old school and is beloved by all who know him. He following interesting statement was made by him in person to the Tanlac representative:

"I am 69 years old and always enjoyed good health up to about six years ago, when I suffered a nervous breakdown and my general health gradually failed me. My principal trouble was indigestion and catarrh, but my whole system seemed to be out of shape. My condition finally got so bad I couldn't sleep at night and always after eating I would suffer so from indigestion and heartburn that I felt just like there was a coal of fire in my stomach. My hearing and vision were also affected. I consulted several doctors here in Knoxville and other cities and they helped me considerably and I finally got so I could go around, but somehow I just couldn't feel right and could not sleep at night, which made me awfully nervous and nothing I would eat seemed to agree with me."

"I began reading about this Tanlac when you first came here, but did not decide to try the medicine until I talked with a friend of mine who had actually used it. He said it was the best thing he had ever taken, and that was sufficient proof for me."

"I have just finished the first bottle and came here this morning, not only to buy the second bottle, but to tell you just what it has done for me. I began enjoying my meals from the first few drops. My nervousness is gone and I can sleep like a child and always wake up in the morning ready for breakfast and feeling refreshed. I am very fond of onions, but was almost afraid to eat them, because they always disagreed with me so; I could taste them for hours afterwards. I ate one for dinner the other day and it agreed with me perfectly and I felt no bad after effects whatsoever. I tell you I am beginning to feel like a different man and am always going to keep this Tanlac on hand. It has done me more good than anything else in the medicine line I have ever taken. I certainly do recommend it to my friends. It is really remarkable."

Tanlac is sold in Medford by The West Side Pharmacy; in Gold Hill by M. D. Bowers, and in Central Point by Miss M. A. Mee. Adv.

ideas of importance for German's future requests a big-hearted, childless millionaire either to adopt him, together with his wife and children, or to liberate him from a calling which paralyzes his strength. Only serious invitations to a personal meeting will be considered."

THE TRUTH ABOUT CANDY

Candy Taking the Place of Alcohol

There was a time when the army and navy supplied their men with rum and whiskey.

But today, while recognizing the need of supplying heat for the system, it is known that alcohol is not the thing—that, on the contrary, sugar supplies the system with carbohydrates.

So candy is supplied liberally to soldiers. Leading American officers indorse chocolate candy as an essential food for soldiers.

The various quartermasters' departments draw large supplies of candy for the soldiers to eat. These requirements run into the hundreds of thousands of pounds.

On a recent cruise, for example, the Atlantic squadron, carrying NO LIQUOR aboard, had on its various ships 40,000 pounds of candy—because it recognized candy as a nutritious food for the sailors.

The acid test of war is putting candy down as a FOOD—a food which supplies the body with fuel.

Many physicians and scientists claim that candy will supplant the taste for alcoholic beverages. This is probably one reason why, as candy is becoming more and more firmly established and recognized, alcoholic drinks are declining. Right along with the decrease in whiskey drinking, one notes the tremendous increase in the recognition of candy as a food.

Men who once thought that whiskey would bolster them up, now find that in candy they get a real source of bodily fuel and energy.

Many people used to wonder what would be the substitute for drinking to supply heat for the system. People have found that sugar is the real source of bodily fuel, supplying carbohydrates—sugar is most enjoyed by many people when made up into a food product, mixed with fruit, nuts, etc.—all high in food value.

We recognize sugar as a food product—and milk as a food product—and cocoa as a food product—and nuts and fruits and raisins as food products—these are the chief ingredients of candy—then, logically, is not the combination of all these products bound to be a wholesome, nutritious food?

—In normal times the candy industry uses only 8 per cent of the sugar used per capita in this country. Right now this amount has been cut squarely in two.

The Candy Manufacturers of Oregon.
