MRS. DOOLEY'S ADVICE TO WORKING GIRLS

Milwaukee, Wis.—"I wish all girls who work and suffer from functional disorders would profit by my advice and take Lydia E. Pinkham's Vegetable Compound. Before I was married, when I came home from work at night, I would be just worn out with pains which dragged me down. I took Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I can work from morning until night and it does not bother me, and I wish all girls who suffer as I did would try Lydia E. Pinkham's Vegetable Compound." Mrs. H. Dooley, 1135 25th Street, Milwaukee, Wis.

Working girls everywhere should profit by Mrs. Dooley's experience, and instead of dragging along from day to day with life a burden, give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound a trial. It has overcome just such conditions for thousands of others, and why not for you? For special advice, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

HUN HELMET AWAITS OWNER AT POST OFFICE

A captured German steel helmet which arrived recently from France is at the postoffice awaiting an owner. If F. W. St. Clair lives in Medford or vicinity he can appear at the postoffice and walk away with the trophy which was evidently captured by a soldier relative.

The helmet, which weighs two pounds and ten ounces arrived at the postoffice several days ago addressed in lead pencil to St. Clair, with the name of the town or city to which it was addressed rubbed off. Efforts made by the postoffice attaches so far to learn the identity of F. W. St. Clair have proved fruitless.

It is presumed at the postoffice that the helmet, which was wrapped in a piece of burlap, arrived with a crash of mail from France in New York and was thrown into a mail sack for a western state, and that en route the address was obliterated. Anyhow the relic reached Medford

in the mails, and now awaits an owner.

Inside the helmet, written with a lead pencil, appears the following: "This helmet was captured by Leo St. Clair on the Aisne front on the morning of the big drive, July 18th, 1918."
