The giant seen on the business streets today in an Uncle Sam costume, is R. E. Madsen of Norfolk, Va., who is representing the two moving picture films, "Uncle Sam's Kind" and "A Slacker's Heart," which will be shown at the Page theater tonight only. He is just past his 21st birthday, is seven feet and six inches tall and casts a very thin shadow. Mounting a step ladder the Mail Tribune reporter this forenoon had the following interview with Mr. Madsen: "Are you of draft age?" "Yes, but I cannot get into the army because of my extreme height. The army limit in height is 74 inches." "Oh, but you could wear a gas mask and rise up suddenly in a trench and scare the Huns to death." "Perhaps so, but the government won't take me. Good-day, Shorty." Big feature, Page 19 and 20c. A slacker's heart full of punch.

Up to last night 436 carloads of pears had been shipped from Medford this season, and with tonight's shipments the 500 mark will be reached or passed.

Mc. and Mrs. J. A. Graffs of Phoenix, have removed to Ashland to reside there permanently.

One and three-color stock pear labels for sale. Medford Printing Co. 17

The Pioneers of Jackson County will hold their annual reunion on October 30 at 10 a. m. in Jacksonville. W. H. Gore will deliver the address. Miss Flora Gray will have charge of the music, and Rev. J. C. Rollins will give the prayer. There will be a basket dinner at noon at the L. O. O. F. lodge hall. Coffee, sugar and cream will be served free. After dinner there will be the reading of memorials, election of officers and a general good time.

We have a few home fruit dryers on hand. Will close out at \$6.99 each, complete. P. F. & F. Factory. *
S. M. Clevenger of Talent, was a business visitor in Medford today.

The Brunswick—all phonographs in one, Palmer Piano Place, 28 South Central avenue.

Bartlett's taxidermist and fur store now open for business. We have the classy fur: come in and see them. Any furs you want remodeled or repaired, bring them in early. 126 East Main street.

GENEVA, Thursday, Sept. 23.—Emperor Wilhelm, Field Marshal Duke Albrecht of Wurttemberg and Prince Stroph of Schaumburg-Lippe were in Mammouth last week when British airmen raided the city. The royal party, according to the Democrats of Geneva, was staying in the royal palace and the emperor and his staff promptly took refuge in the cellar, remaining there 20 minutes. The palace was not hit as it had been during a previous raid, but bombs fell in the vicinity.

The royal party spent last week in Alsace Lorraine, stopping at the "Hut" Rhine towns.

The object of the visit was to appease the unrest and fear of the population owing to the approach of the frontier of allied armies and the constant aerial bombing.

NEED OF NORMALS VITAL PROBLEM FOR OREGON SCHOOLS

Pronouncing the establishment of additional normal schools in Oregon a vital war problem that must be solved immediately, State Superintendent of Public Instruction Churchill has issued an appeal to the people to give their attention at the coming general election. More than \$1,000,000 is now expended annually in retraining pupils in the state's elementary schools, and 49 per cent of this sum is due to incompetent teaching, he said. He warns the people to profit by the error made by the allied countries during the war in letting down educational safeguards.

State Educational Need Superintendent Churchill made the above statement in advocating the adoption of a measure at the coming general election, providing for two additional normal schools in the state, one to be located at Ashland, and the other at an eastern Oregon city to be chosen by the normal school board of regents.

"It costs \$50 per pupil each year to educate a child in the elementary schools," continued Superintendent Churchill. "As about 29,000 pupils in this state fall each year to make their grade, it costs the state about \$1,000,000 annually to have them repeat their year's work. Exactly what proportion of this sum is due to the untrained teacher there is no absolute way of determining, but from many conversations with school superintendents, principals and supervisors, I am satisfied that 49 per cent of the \$1,000,000 spent yearly in repeating work of pupils in the grades is due to incompetent teaching. The millage tax provided in the measure on the ballot for maintaining two normal schools would produce about \$75,000. By establishing normal schools sufficient to give all our schools trained teachers, the state would save the difference between \$100,000 and \$75,000.

1000 New Teachers a Year "The public schools of Oregon employ not less than 1000 new teachers each year. The large majority of those without experience are employed in the rural schools. As soon as the teacher without normal training has had sufficient experience, she will secure a position in the village school. From there she will go to the larger town, and then to the city. The result is that a large number of teachers secure their experience and training for their work at the expense of the children of the rural school.

"The maintenance fund and normal school facilities at present provide efficiently for about 250 to 400 students. Whenever the present normal school undertakes to provide for many more, there is danger of lowering its efficiency. From this enrollment we cannot expect more than 150 to 200 graduates each year, whereas, as before stated, 1000 new teachers are needed in Oregon each year.

STUDENTS MUST APPLY TO COLLEGES FOR STUDENT ARMY

PORTLAND, Ore., Sept. 27.—No young man who is a slacker, a draft delinquent or a deserter is eligible under any circumstances to take advantage of the opportunity offered by the government for induction into the students' army training course for special training at a university or college before being called into service.

On the other hand, once a duly qualified registrant has accepted the opportunity for such induction, and has signed the required waiver of all claims for deferred classification, he must go through with the induction and attend the college until called into service, even though he should subsequently change his mind.

Apply to College

To obtain this induction, a registrant must first apply in the regular way to the proper authorities of the university or college he desired to attend, for admittance thereto. The regular college entrance requirements, modified to a certain extent to meet changed conditions, will govern action by the college authorities on the application.

If this application is approved by the college authorities, it will be forwarded by them to the provost marshal general at Washington, who will issue a competent order for the induction of the registrant, and send this order to the registrant's local board.

The board, upon receipt of the order will summon the registrant before it and offer him voluntary induction into the students' army training corps. He must indicate his acceptance or rejection of the offer within 24 hours, a waiver of all claims to deferred classification being one of the conditions of acceptance.

While attending college he is subject to call into active service at any time the provost marshal general shall direct.

No Specific Age Limit

Contrary to a very wide-spread belief, there is no specific age limit for the students' army training corps. The age of students accepted depends on the college.
