TURKISH REGIME OF BLOODSHED IN HOLY LAND ENDED

WASHINGTON, Aug. 1.—General Allenby's great victory in Palestine, followed up, as it surely will be, by a successful advance by General Marshall's army north of Bagdad, will lead to these four significant results:

1. It will clear the Holy Land of the unspcakable Turk and drive him back into his own territory of Anntolia.
2. It will make possible a continuous front from Archangel to Bagdad, which will hasten the coming of peace and give the allies the advantage at the peace table.
3. It will abolish forever all peril of a Turkish attack on the Suez canal and Egypt.
4. It will make a rude nightmare of the pan-German dream of a trade route from Berlin to India through Bagdad.

Allenby's drive coming suddenly and unexpectedly because summer and early fall is the time for resumption of military activities in the Orient, already has cleared Central Palestine of the enemy. The next step will be the capture of the port of Haifa and the city of Damascus.

Among guests registered at the hotels today were Oliver W. Stewart of Chicago, Price Reeb of Tacoma, Mr. and Mrs. A. J. McDonald and R. A. McBride of Los Angeles, J. P. Adatte and R. T. INDIAN LIQUOR SELLING CASE IN FEDERAL COURT

The special session of the United States court for Jackson, Josephine and Klamath counties convened this forenoon at the federal building in Portland, on the bench. Following the usual preliminaries incidental to the opening of a session the case of the United States against E. L. Paddock, of Klamath county, charged with selling liquor to Indians, was scheduled to be the first case called.

It is anticipated that the session will only last two days, perhaps less, as there are only three cases on the docket for trial, two criminal and one civil case. Following the Paddock trial, the case of the government against E. L. Miller, also of Klamath county, will be placed on trial. The government charges that Miller during the grand jury hearing of the case against Paddock last June committed perjury.

The civil case is a suit in equity to cancel a patent issued to Oliver Brown of Merlin. The government claims that the patent was issued through fraud.
