The publisher has no option but to comply."

UNION LABEL

SEPTEMBER FINE MONTH WITH MANY SUNSHINY DAYS

September proved a very pleasant month in the Rogue river valley, with 1.66 inches of rainfall, and but eight days of cloudy weather.

The following is the record by days:

Table with 4 columns: Day, Max., Min., Prec. Rows 1-30 showing weather data for September.

Monthly Summary: Temperature, mean maximum, 83.2; mean minimum, 50.5; mean, 66.8; maximum, 95; date, 1-18-19; minimum, 35; date, 24; greatest daily range, 56.

Precipitation—total, 1.665 inches. Greatest in 24 hours—2.15; date, 21. Number of days with .01 inch or more precipitation, 5; clear, 14; partly cloudy, 9; cloudy, 8.

COMMUNICATION.

To the Editor: Just a few lines to say to our Medford friends that we are both well and happy. While we love Portland, we shall never forget our residence in Medford. Every day I meet old Medford friends, so we are not very far from home after all.

I have attended a few sessions of the Medford conference held in the First Methodist church, and among many other very interesting things discussed and transacted were kindly and complimentary things said about the Rev. Dr. J. C. Rollins, and of his appointment to the second largest Methodist church in Portland. His friends here, and they are many, prophesy for him and his new appointment, great things, as he stands high in the councils of his conference. I had an opportunity of bearing testimony to his work in Medford and of the great loss it will be to Medford when he leaves. He just told me that Medford will ever hold a very warm place in his affections.

We may return in the spring. No prettier spot anywhere, no truer friends and no more loyal city under the stars and stripes.

DR. J. LAWRENCE HILL. Mrs Ann McCormick arrived home Monday from her week's attendance at the state fair at Salem.

PUBLICITY FOR SLACKERS.

THE showing made in the purchase of liberty bonds by Medford people is very poor—discouragingly so, and bids fair to stamp the city as a slacker community. If Medford does not subscribe the quota, she will fairly earn the stigma.

It ought not to be necessary to urge or solicit people to buy bonds—they ought to have patriotism enough to gladly and cheerfully make every sacrifice possible for their country.

The vast majority of our people are patriotic—but we have many slackers. It is not necessary to name them—just glance at the list of subscriptions and see how many who are able to buy bonds, trying to shirk their duty by buying a \$50 or \$100 bond.

The Portland liberty loan committee thus defines a slacker:

Our definition of a slacker is a person or firm who can buy bonds and does buy a grossly inadequate amount, obviously much less than he or she should buy.

The Portland committee has adopted the policy of publicity for the slackers, printing their names in the newspapers. The Medford committee should adopt the same method, for the public is entitled to know who the unpatriotic citizens are.

In pursuance of its efforts, the Portland committee adopted the following resolution, which exactly fits the situation in Medford, except that we are minus the capitalists:

Whereas, from the canvass made to this date by the Liberty loan organization for subscriptions to the fourth Liberty loan, it conclusively appears that there is a very substantial number of men in professions and business vocations in good circumstances and who enjoy substantial incomes, but who have not subscribed in proportion to their resources, but are permitting the more prominent capitalists and the laboring men to assume the burden at hand; now, therefore, be it

Resolved: That each business and profession be classified and that a committee of three be appointed in each class, who will rate each member thereof; that with each rating will be listed the amount subscribed by the man rated; that thereupon said rated member be notified of his rating and appear and show cause why he should not subscribe to the amount of his rating; that if no good cause be shown why he should not so subscribe that his name, rating and amount subscribed be published in the daily press; and to the end that no injustice may be done, be it further

Resolved: That investigation be made of available government and private records that the Liberty loan committee may ascertain the income and resources of the persons so rated as aforesaid.

The local committee is supposed to have the financial rating of every individual. They should let in the light so the people may know. It has pussy-footed long enough. Results are needed.

Fallen for Freedom

The following casualties are reported by the commanding general of the American expeditionary forces:

Killed in action, 124; missing in action, 13; wounded severely, 437; died from wounds, 10; died from accident and other causes, five; wounded, degree undetermined, four; wounded slightly, three prisoners, four. Total, 598.

The following are from the Pacific Coast dates:

Killed in action—Private Alexander Lunde, Lodi, Calif.

COLONEL KELLY U.S. SIGNAL CORPS

It is now Lieutenant Colonel E. E. Kelly, United States Signal Corps, advanced section American Expeditionary forces in France, according to a letter received from the popular Medford officer today.

The well earned promotion was received early in September. Colonel Kelly was one of only three in the signal corps recommended for this grade and his duties and responsibilities have been correspondingly increased.

Regarding his promotion, Colonel Kelly says:

"A cablegram announcing my promotion to the grade of Lt. Colonel arrived in due course and it is needless to say that I am greatly pleased for the increase in rank and it is up to me to be worthy of the confidence. I am no longer a reserve officer, but I liked the distinction of being one, for I see many making good."

PRESIDENT APPEALS FOR SEA-SERVICE

WASHINGTON, Oct. 1.—President Wilson appealed today to all men on land or sea who have had sea service to give full information about their rating and experience in filling out their draft questionnaires, so their local boards may give their proper classification and inform the government where experienced seamen may be obtained when needed. "Every seaman should give to the service the best that is in him," says the president's call, "and he should not hesitate to accept deferred classification when the government has decided deferred classification is necessary, no matter how eager he may be to join the fighting forces of the army or the navy."

TEACHERS FAVOR NORMAL SCHOOL AS PUBLIC NEED

The following resolution was unanimously adopted by the 250 Jackson county teachers assembled at Medford High school, after a stirring talk by Supt. George A. Briscoe of Ashland city schools, who made a strong plea in support of the normal school measure to be submitted to the voters of Oregon this fall.

Whereas, President Wilson in a recent letter given to the public has urged that there be no falling off in the attendance in elementary schools, high schools and colleges, an order that we may attain the largest possible efficiency both in war and after peace shall come; and

Whereas, there is an increase in the enrollment of the public schools of Oregon, but a marked undersupply of teachers—every county in our state is at this time without a full quota of teachers, and this shortage is keenly felt in the counties of eastern and southern Oregon; and

Whereas, the Board of Normal School Regents, recognizing the inadequacy of the present one normal school to supply trained teachers sufficient for the demand, have endorsed the measure submitted by the last legislature providing for two additional normal schools and urgently requested its approval by the people at the coming election of November 5, 1918, and our state superintendent of schools, J. A. Churchill, has said that next to the winning of the war the most important problem before the people of Oregon is the establishment of these schools;

Therefore, be it resolved that the teachers of Jackson county in annual institute assembled do pledge our individual and united efforts to secure the adoption of this measure at the coming election in order that Oregon may have an adequate supply of thoroughly trained men and women to instruct and lead out her children so that they may help to build the world anew and function efficiently in the world's new democracy.

BELGIANS IN NEED OF SHEETS, TOWELS

Wonderful things in the way of warm clothing for the Belgians, are coming in. Sam's Valley is the first auxiliary to respond, and it is a splendid response.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your organs in good condition and you will always be physically fit. Watch the kidneys.

The kidneys are the most over-worked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes, look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, high colored or scanty urine, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Go to your druggist immediately. Get a trial box of GOLD MEDAL Harslem Oil Capsules, imported direct from the laboratories in Holland, where they have been in use for over two hundred years. They will give almost immediate relief. If for any cause they should not your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. In sealed boxes, three sizes. Adv.

The Food Administration Says Buy at Home and Save Needless Waste

The Food Administration urges American people to buy food that is produced near home, as the needless waste of transportation involved in hauling home food away and other food in to take its place is thus avoided. Wilma Flour is a Medford and Oregon flour.

Build Up Home Industry by Buying the Products of Home Factories

The company pays out thousands of dollars a year for wheat, corn, barley and other products of the farm, thus creating an impetus in market here. This market will grow as the demand for Wilma flour grows. Demand your local flour.

Thirty Feet of Danger

The intestinal canal is an important part of every individual, important every inch of its thirty feet. The upper portion of it is intended for the digestion of food and absorption of its useful portions. But the lower part is concerned with the elimination of waste material.

It is, in other words, the great sewer of the body. The more food eaten, the greater the waste. If a sewer becomes clogged up, its contents stagnate and become more and more dangerous.

Constipation means more than failure to evacuate the bowels regularly and thoroughly. It means stagnation, increased fermentation, putrefaction and germ action. Increased amounts of irritating and poisonous substances are formed. Absorption of these into the blood follows. Self-poisoning results.

Danger, disorder, disease, or even death follow. Pills, purgative mineral waters, castor oil, salts, etc., do not cure constipation or prevent its consequences. They make it worse because they do not only irritate the bowels, but they "wear out" in effect and so must be taken in increasing doses, making constipation a habit.

But the Nujol Treatment for Constipation overcomes constipation by helping Nature re-establish easy, daily, thorough bowel evacuation as "regular as clockwork."

Nujol prevents stagnation and self-poisoning. Nujol forms no habit, except a natural, healthy habit. After Nujol has trained the bowels to act, it can be dispensed with.

Nujol for constipation Nujol Laboratories STANDARD OIL CO. (NEW JERSEY) 50 Broadway, New York. Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
