GEORGE PUTNAM, Editor.

SUBSCRIPTION TERMS: BY MAIL.—IN ADVANCE: Daily, with Sunday Sun, year, \$6.00; Daily, without Sunday Sun, year, \$5.00; Weekly Mail Tribune, one year, \$1.50; Sunday Sun, one year, \$1.50.

BY CARRIER.—In Medford, Ashland, Jacksonville, Central Point, Phoenix: Daily, with Sunday Sun, year, \$7.50; Daily, without Sunday Sun, year, \$6.00; Weekly Mail Tribune, one year, \$1.50; Sunday Sun, one year, \$1.50.

Official paper of the City of Medford. Official paper of Jackson County.

Entered as second-class matter at Medford, Oregon, under the act of March 3, 1879.

Sworn Circulation for June, 2, 1914.

MEMBER OF THE ASSOCIATED PRESS. Full Leased Wire Service. The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper, and also the local news published herein.

Notice to Subscribers.—The United States War Industries Board has issued the following mandatory order, among others regulating the newspaper business during the period of the war: "Discontinue sending papers after date of expiration of subscription, unless subscription is renewed and paid for." The publisher has no option but to comply.

BOLSHEVIKI FLEE BEFORE ALLIED DRIVE UP DVINA

ARCHANGEL, Sept. 30.—(By Associated Press.) American, British, Russian and French troops today occupy villages on both banks of the Dvina river to a point 125 miles north of Kotlas, in the government of Vologda. They have advanced 75 miles in the last two weeks and they now are about 375 miles southeast of Archangel. The river is blocked further south by Bolshevik mines and barges which have been sunk in the channel.

Up the Vaga river, however, progress is unobstructed and Americans are among the forces occupying the important town of Shonkursk.

In their advance up the Dvina the and forces have met with virtually no resistance since September 21, when the Americans were subjected to a heavy machine-gun fire for five hours at Seltso. Notwithstanding losses, they held their unsheltered position until the river flood came to their aid. The Americans then captured the town.

Since then it has been a case of finding the Bolshevik who are believed to be somewhere above the flooded channel of the Dvina. The thin line of American troops is holding many villages amid the woods and muddy rye fields which thickly dot the Dvina region.

North of Beresnoskaya, villages had not been molested by the Bolsheviks in their flight. They fled so fast that they did not stop until the Moscow authorities halted them at Beresnoskaya with an imperative demand to make a stand. Villages south of that point suffered heavily. Executions and depredations were committed there and when the allies arrived they were given a hearty welcome.

Mrs. Maude Robinson of Pasadena, Calif., who had been here the past month because of the illness of her mother, Mrs. Kate H. Murray, departed for home today.

UNCEASING MISERY

Some Medford Kidney Sufferers Get Little Rest or Comfort

There is little sleep, little rest, little peace for many a sufferer from kidney trouble. Life is one continual round of pain. You can't rest at night when there's kidney backache. You suffer twinges and "stabs" of pain, annoying urinary disorders, weakness and nervousness. You can't be comfortable at work with darting pains and blinding dizzy spells. Nausea, these ailments and serious troubles may follow. Begin using Doan's Kidney Pills at the first sign of disorder. Thousands have testified to their merit. Medford readers will find convincing proof in the following testimony:

Daniel Platen, C. E. street, Jacksonville, Ore., says: "It is some six or seven years ago since I used Doan's Kidney Pills but I cannot forget how much good they did me. I suffered from weakness of the kidneys and other disorders that go with kidney complaint. I pained and ached all over. I began using Doan's Kidney Pills and received benefit from the very first. Soon they had me straightened up in good shape." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Dr. Platen had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

HELP SAVE PAPER.

THE War Industries board has called upon the public to co-operate in the saving of paper for the following reasons:

The government's requirements for all kinds of paper are increasing rapidly and must be supplied.

Paper making requires a large amount of fuel which is essential for war purposes. A pound of paper wasted represents from one to three pounds of coal wasted.

Paper contains valuable chemicals necessary for war purposes. Economy in the use of paper will release a large quantity of these materials for making ammunition or poisonous gases.

Paper making requires labor and capital, both of which are needed in war service.

Paper making requires transportation space. Economy in the use of paper will release thousands of freight cars for war purposes.

Greater care in the purchase and use of paper will save money. Your savings will help finance the war. Strictest economy in the use of paper will prevent a shortage.

The government wants and must have the materials used in making paper, such as pulpwood, sulphur, bleach and labor. Man power is needed on the western front to win the war; chlorine employed in bleaching the paper—it is necessary in the manufacture of poison gas; fuel for our war industries is needed—there will be a coal shortage from 50,000,000 to 60,000,000 tons.

A saving of 25 per cent in the use of paper will release for war industries 2,500,000 tons; sulphur is needed—if you waste paper, there will not be enough to supply both the government's needs and the paper manufacturers.

Wasting paper—burning it up or dumping it into the ash heap—is to destroy its value. Waste paper, newspapers, magazines, "old paper," is converted into packages for shells, packages for sending material and munitions abroad, into paper again for our own use. Every sheet of used paper must be saved that it may be used over again. Every sheet of paper that we refrain from using, that we use economically, that we save; every bit of wrapping paper, box, paper bag, etc., is necessary, vital and essential to help win the war, and to help keep supplied our great paper industries at home.

Waste paper of all kinds can be used in making new paper or paper boards. All the chip board from which ordinary pasteboard boxes are made is manufactured out of mixed waste paper scraps gathered up in the stores and other places. Newspapers make a better grade of board known as news board. Strong wrapping papers mixed with sulphate pulp are used in making test or strong chip board from which shipping containers of all kinds are made. These are taking the place of wooden boxes, thereby conserving the forests.

The finer grades of waste paper, such as old magazines, books, stationery, etc., are sorted out, de-inked, and used again in making books, writing and other grades of paper. In making bonds and ledgers, etc., a considerable quantity of rags is necessary, the supply of which is becoming very scarce. It is imperative, therefore, that all old rags be saved. Every household should save all its old paper and rags as well as old rubber, leather, etc., and dispose of them to the school children, Red Cross, Salvation Army, junkmen, or other collectors, so that the supply may be kept adequate to meet the demands of the government and other essential uses.

In pursuance of the paper saving policy, school children are asked to use slates instead of paper, women are requested to carry their package purchases unwrapped and in the market basket and merchants required to use as little wrapping paper as possible, while printers and publishers must sign pledges to obey the rulings of the war industries board under penalty of having their paper supply cut off.

Newspapers are required to cut off all free copies, discontinue returns, stop all subscriptions not paid in advance and reduce the size of their publication from 15 to 20 per cent—for if they want paper they must save it.

Fallen for Freedom

The following casualties are reported by the commanding general of the American expeditionary forces: Killed in action, 187; missing in action, 75; wounded severely, 693; died from wounds, 76; died from airplane accident, 1; died from accident and other causes, 13; died of disease, 31; wounded, degree undetermined, 5; prisoners, 8. Total, 1090.

Martine casualties: Killed in action, 2; died of wounds received in action, 2; wounded in action (severely), 17; wounded in action (slightly), 1; missing in action, 1. Total, 28.

Killed in action: Privates Walter E. Drissler, South Bend, Wash.; William C. Hegarty, Nevada City, Calif.; Edward Nathan, San Francisco; Frank L. Gaddis, Woodland, Wash.; James M. Weber, Middleport, Wash.; Lieut. Maxwell C. Barber, Medford, Ore.; Corp. Andrew C. Copeman, Kent, Wash.; Privates George A. Redman, Demar, Cal.; John Chuk, Los Angeles.

Died of wounds: Private Leo Levenson, Los Angeles. Died of disease: Private Carl L. Mochins, Portland. Wounded severely: Lieut. James S. Colton, Pasadena, Calif.; Lieut. Arthur Meader Davis, San Diego, Cal.; Wagoner Nicholas A. Dichter, Winlock, Wash.; Privates John Marks, Nevada City, Calif.; Frank Romeo, Santa Barbara, Calif.; Forest C. Price, Spokane, Wash.; Joseph Farrell, White Swan, Wash.; Ross, Yountville, Cal.; Glenn H. Armstrong, Wenatchee, Wash.; Joseph G. Morlaris, San Francisco; Lester H. Hayton, Palouse, Wash.; Lemuel B. CITY ELECTRICIANS DUTIES LOADED ON TO CITY ENGINEER

The city council last night passed an ordinance prohibiting the driving of horses and vehicles and motor vehicles across fire hose, and fixed the penalty for violation at a fine of from \$5 to \$100, or imprisonment in the county jail not to exceed 30 days, or both.

It had generally been supposed that some such ordinance existed until the Model Clothing company fire occurred several weeks ago late at night. During that fire a Central Point man drove over three lines of fire hose. He was arrested by Chief of Police Timothy, but when arraigned in court it was discovered that there was no ordinance prohibiting driving across hose, and he was accordingly released.

The council accepted the recently tendered resignation of City Electrician L. E. Hinman, who resigned to take an important and far more lucrative position with the Southern Pacific railroad as electrical engineer with headquarters at Portland. Much praise was expressed by the council for the exceptionally well rendered and faithful services of Mr. Hinman as city electrician for the past seven years and his character and ability, following which the council unanimously instructed Mayor Gates to write a strong letter of recommendation expressing the above sentiments of the body.

In line with its efforts towards necessary economy the council voted to leave the office Mr. Hinman is leaving vacant, despite the fact that several applications for appointment to it were already in, and ordered the duties of city electrician to be absorbed by the city light and water department. Thus the salary of \$115 a month that went with the office is saved. Ole Arnsper, the city water superintendent, city engineer and general city government factotum, smiled sweetly at the council's action but murmured "every little bit added to an already hot makes much."

The council also confirmed the appointment of Charles Adams, the former well known drayman, as member of the police force to succeed Clay Walker, who resigned last Saturday.

REGISTERED MEN TO BE INSTRUCTED

The county draft board has appointed the following as a board of instruction for the men registered for the draft: Rev. L. Myron Booser, Captain W. N. Crosson and Dr. E. H. French. The board's duties will be to look after the general military and moral instruction of the registered men, and its members serve without pay.

The special duties of Captain Crosson will be to look after general drilling and military instruction, Rev. Mr. Booser will pay special attention to the morale and morals of the men, and Dr. French's specialty is to instruct in general sanitation and health.

The board will organize the county into districts relative to the registered men, and will arrange for meetings for their instruction.

ASIATIC CHOLERA APPEARS IN VIENNA

MADRID, Oct. 2.—(By Associated Press.) Several cases of Asiatic cholera have been discovered in Vienna and deaths have occurred from this disease there, according to official news received here.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

ILLINOIS TROOPS DROVE SIX MILES IN DAY'S ADVANCE

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 1. —(By the Associated Press.)—Illinois troops between the Meuse and the Argonne advanced more than six miles on the first day of the attack, the unit reaching its objective hours ahead of time.

Their advance was so rapid that in the region of Gerocourt Et Drillancourt they came upon a party of Germans just about to sit down to a luncheon in their dug out. The party was overcome and German colonel was shot in the heel as he was attempting to escape.

The Illinois soldiers helped themselves to the German's lunch of pork, red cabbage and black bread. Seven kegs of beer and a supply of wine were found in the dug out. The wounded colonel told the officers he was astounded at the rapidity of the American advance. He had no idea that the Americans would reach that region for days, if at all, he said.

The Illinois men had dinner and went to bed in the positions that had been occupied that morning by the enemy. During the afternoon American aviators dropped newspapers and cigarettes for the men who had moved along the west bank of the Meuse beyond Gerocourt and consolidated their positions.

SEATTLE MAN HAS GAINED 25 POUNDS

"I Never Felt Better in My Life" Says Bland After Taking Tanlac

"Tanlac has not only made a wonderful change in my wife, but I have been greatly benefited by it myself. It has put her in shape to where she has gained twelve pounds in thirty days and now she feels fine all the time. And as for myself, I have picked up twenty-five pounds, and never felt better in my life."

This interesting and remarkable statement was made by P. O. Bland of 2724 Fourth Ave., North, Seattle, Washington, recently.

Continuing Mr. Bland said: "My wife has had one of the worst cases of stomach trouble, it seems to me a person could have, and everything she would eat disagreed with her in a way that caused her the greatest of suffering. During the past five years we tried everything we heard of in our efforts to help her and build her up, but nothing seemed to do her any good. Her appetite left her entirely, her complexion was sallow, and her health was all gone to pieces. She used to weigh one hundred and seventy pounds, but fell off to one hundred and thirty-three and was so weak she could hardly raise her arms. For one solid month before she began taking Tanlac, she was down in bed, hardly able to move.

"About the last of April she started on Tanlac, and the results have been wonderful. She has no trouble whatever with her stomach now. She eats anything she wants without suffering a particle from it, and has a splendid appetite. She was so nervous and miserable before she began taking Tanlac she hardly knew what a good night's sleep was, but now she sleeps the whole night thru just like a child. Her color is clearing up and she is able to do all her housework without any trouble.

"When I noticed the wonderful benefits she was getting from Tanlac, I started taking the medicine myself, as I had been suffering for some time with indigestion and constipation and was badly run-down. I had fallen off to one hundred and forty-two pounds and was still losing. I don't suffer a particle with indigestion now, no matter what I eat, and I am always ready with a big appetite when meal time comes. I now weigh one hundred and sixty-seven pounds, making a gain of twenty-five pounds, and my wife and I are both glad to recommend Tanlac, as it has done far more than we ever expected of it."

Tanlac is sold in Medford by West Side Pharmacy, in Gold Hill by M. D. Bowers, in Central Point by Mrs. M. A. Stee, in Ashland by J. J. McNair. Adv.

Does Cheap Service Pay?

THIS is a question people often ask themselves after having had an experience where price is the chief consideration. Especially when a man's knowledge, honesty, and skill make up the personal "service," such as in dentistry.

It is always well to know in advance about what the desired service is to cost, and then decide which you want. No one should take chances with their health or their teeth. Artificial substitutes for natural teeth, while often necessary, are but makeshifts at best, and unless properly fitted, will never give comfort and satisfaction.

Beware of altitudes which offer low priced dentistry and a guarantee for one, five, ten, or fifteen years. Dental work of merit needs no guarantee. There is as much difference in the quality of dental work as there is in the products of any other pursuit. Skill is worth what it costs. So is health. So is comfort.
