MEDFORD SHY \$83,158 OF QUOTA FOR LIBERTY BONDS

Another Jackson county district went sailing over the top in its local liberty bond campaign when today it was announced that Talent had subscribed \$13,600, whereas its quota is \$12,360. This action of the patriotic little community by vaulting over the top with subscriptions to the amount of \$1240 to spare, certainly shows up its big boob brothers, Medford and Ashland, and slow poke sisters, Eagle Point and Central Point.

Monday is always a slow day in a drive and this noon the Medford district total stood just as it was on Saturday night, \$215,000, and with \$83,158 to go to reach the top. The local committee is going to make a determined effort to raise the full quota by next Saturday night and has planned a week of strenuous effort. "We've said about all that can be said why the people who have not yet done their full duty in the liberty bond campaign should subscribe," said Chairman Kidd today, "and the only thing left for us to do is to go after them with a club."

"The German peace offer, whether bluff or sincere, should make no difference whatever with patriotic persons in subscribing to the liberty bond, for the government either in continued war or if peace should by any possibility come within a few months, which I doubt, needs money and lots of it for war expenses, and must have it. Why if peace were declared today the boys at the front and in the camps would have to be fed and cared for for some time yet and then brought home, to say nothing of the other tremendous war expenses."

"Then, too, a liberty bond is such a gilt edged and safe investment. Have you noticed that every time there is a big allied victory the value of liberty bonds increases. Why even the peace talk of over Sunday shot the value of a liberty bond up to \$97."

Many Are Slackers The committee is wondering if a lot of known patriotic and hustling men of Medford have forgotten all about their being a liberty bond campaign on. This morning it was the same old story, only a few sollicitors on hand to carry on the day's work with a few more promised for the afternoon. "We are almost powerless to do anything without sufficient aides," says Chairman Kidd. "We are very grateful and appreciative of the services many sollicitors have already rendered, but the work must be kept up and we still need not only their help but that of many others. If only a sufficient number of hustlers come forward the district will quickly go over the top where we belonged long ago."

DEVELOPMENT OF CHROMITE DEPOSITS NOW DISCOURAGED

The following letter from the United States geological survey just received by A. G. Churchwood of Grants Pass, in response to a letter inquiring into the chrome situation is of much interest to mining men in general:

"The government has not been buying chrome ore nor is it at the present time contemplating doing so. The production of chrome ore in this country has become large and the market somewhat unstable. The principal consumers report that they have considerable stocks on hand and the demand for chrome ore is not so strong. However, it is hoped that the production may be kept up to near what it is at present and that the action by the administration under the mineral control bill, which is expected to be passed by congress soon, may stabilize prices."

"The prices of chrome ore vary with the place and conditions of sale and the geological survey is able to quote only general prices, published in the mining journals. The latest Scientific Press, of San Francisco, September 14, is \$1.25 to \$1.50 for 38 to 48 per cent ore, f. o. b. on mainline cars. Late news by wire and letter indicate a slight decline in the price of ore and low grades are not desired. Expensive new projects to open up prospects are not encouraged under present conditions."

SEVEN DEAD AT NAVAL STATION

SEATTLE, Oct. 7.—Official announcement was made today that seven men have died from influenza during the past 48 hours at the United States naval training station here. Four died yesterday and three today.

Today's dead were Mark L. Crowell, fireman, Crockett, Kas.; E. H. Lamke, apprentice seaman, Jordan, Mont., and Andrew Sabol, apprentice seaman, Stockett, Mont.

ROCK ISLAND PLANT FIRE THREATENED

ROCK ISLAND, Ill., Oct. 7.—Fire of unknown origin broke out at the Walsh Construction company plant at Rock Island arsenal at 9 o'clock this morning. The camp is situated near the big T. N. T. plant at the arsenal and every effort is being made to prevent its spread. The city firemen are out on strike.

In addition to the fire department at the arsenal, outside help was called for from the fire departments of Davenport, Rock Island and Moline. With the Rock Island fire department on strike, the city will be able to respond with less than half a dozen men who had not gone out, and a few volunteers.

At 10:45 the fire had been brought under control.

REPORT OF PUBLIC HEALTH NURSE FOR THE LAST MONTH

Report of public health nurse, Jackson county, September, 1918:

Nursing visits (to general cases), four.

Instructive visits (to general cases), nine.

Visits to school buildings, 33.

Other visits (to doctors or agencies concerning work), six.

All visits, 52.

Number cases during month, 44.

Number cases discharged cured, two.

Number cases discharged, improved (to family), two.

Number cases remaining under treatment, 46.

Number examinations of children for physical defects in schools, 611.

Number of children not defective, 129.

Number talks given in class rooms, 42.

Talks given to children were along the line of preventative measures for all contagious diseases, including Spanish influenza. Parents will do well to not only help the children to observe the use of the separate drinking cup and to use the handkerchief properly, but to practice the same things themselves in the homes, at work and in public places.

The New York health commissioner gives out this week the following "Don'ts for Spanish Influenza" which threatens the whole country.

Don'ts 1. Sneeze, cough or expectorate in public places.

2. Get into crowded places.

3. Use common roller towel.

4. Take patent medicines if you think you have the disease.

5. Sneeze in dry places, and by all means don't put lips to a public telephone transmitter.

Do 1. Be careful what you drink out of or eat with.

2. Go to bed if you have chills and fever and call family doctor.

3. Keep as far away from people as you can.

4. Have plenty of ventilation. Insist upon it in theaters, churches, and other public places.

5. Try to keep in perfect health and there will be absolutely no danger at all.

Dr. Parrish, city health officer of Portland, issued an order yesterday that sneezers must stay out of theaters in order to prevent the spread of Spanish influenza and other communicable diseases.

The county nurse is working principally in the schools now. In office Saturdays 8:30 to 12 a. m. The office is in the First National bank building. All parents or others interested are welcome to call.

ROSETTA McGRAIL, County Health Nurse.
