

GERMANS TRYING AGAIN TO SECURE JAPAN AS ALLY

LONDON, England, Oct. 7.—Germany is trying again to flirt with Japan. This time it is a Prussian college man, Professor Otto Hoetzsch, who is used to send out the proposal aimed to win the Far Eastern ally from the world alliance. This attempt is regarded by allied diplomats as grasping at "less than straws." It would be nothing less than breach of faith to consider that Japan would listen to any proposal from Germany, say the allied diplomats. Japan showed Germany where she stood when Zimmerman sent his plot note to Mexico proposing an alliance of Germany, Japan and Mexico against the United States. But on his last legs, the Prussian again faces eastward and smiles. Professor Hoetzsch is one of the most influential Prussian writers. In his fortnightly review of the foreign situation in the Kreuz Zeitung he describes the grip Germany has on her allies as an "extension of power" and continues: "The community of our interests with Japan forced itself upon our attention at an early date. (The professor seems to remember the Zimmerman note.) It is at least as great for Japan as for us. "After the war Japan will need Germany. That is why the entente desires to hold Japan fast by means of intervention in the Far East. "If our speculations about German-Japanese communities are to have any solid ground, we must adopt a definite attitude with regard to what lies between us and Japan on the main. The continental consolidation in central and southeastern Europe and the agreement with Japan are possible only by means of agreement with Slavdom. This whole idea is the only thing that we can set up with political success against the Anglo-Saxon league of nations idea of today."

HALF BILLION A DAY NEEDED FOR LOAN

WASHINGTON, Oct. 7.—With the opening of the second week of the Fourth Liberty Loan campaign, the managers face a most tremendous task. From now until the close of the campaign, October 19, daily subscriptions must average \$416,000,000 if the entire \$6,000,000,000 is to be disposed of during this period. The San Francisco district announced that it had passed the \$100,000,000 mark.

BAKER TO BRING SOUVENIR STATUE FROM FRANCE

PARIS, Oct. 7.—When Secretary of War Baker goes back to America he will take with him a miniature bronze statue made of German cannon captured at the Second Battle of the Marne, and symbolizing the defense of Paris. The statue, mounted in a marble base, is a replica of the one of heroic size that the students of L'Ecole Polytechnique, the big French military school, are presenting to West Point. The big statue, also made of German cannon, is to be erected at the school on the Hudson. Last April, when Secretary Baker made his first trip to France, the French soldier-students sent back with him a miniature of the statue for the students at West Point. Then, hearing he was returning, they made another for him. Under the figure of a soldier, wearing a standard and standing before a field gun, is an inscription commemorating the defense of Paris in 1874—as well as in 1914 and 1918. On the back of the base is this inscription: "To the Honorable Newton D. Baker, American Minister of War, as a personal gift from the students of L'Ecole Polytechnique, in fond memory of his first visit to Paris, April 6, 1918." The Ecole cadets first conceived the idea of presenting the heroic sized statue to West Point as a return courtesy for the message of greeting West Point cadets sent to the French cadets when Marquis de Lafayette came back to France after his visit to America in 1824.

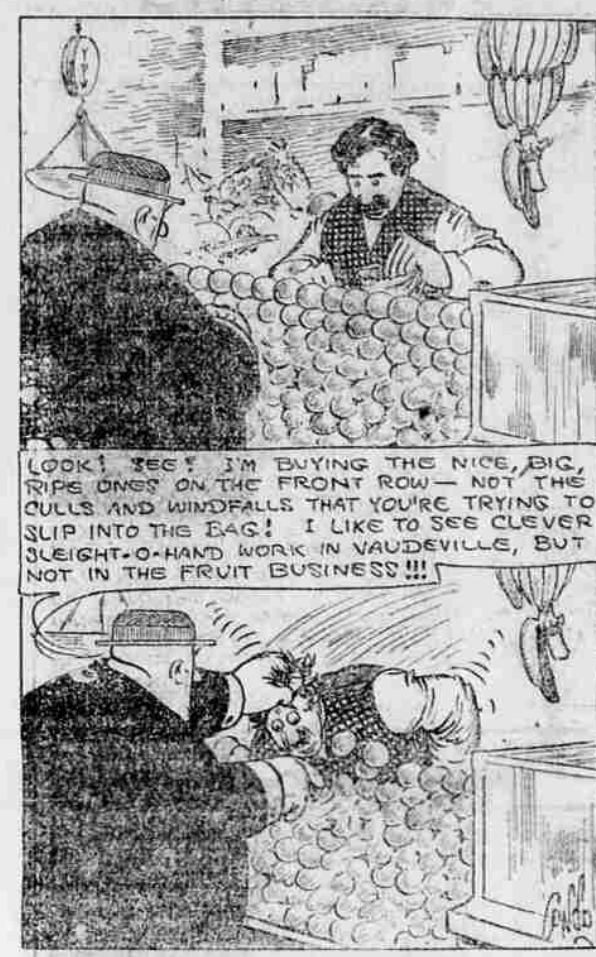

BUTTER \$7 A POUND IN BELGIUM NOW

HAVRE, Oct. 7.—Letters from Belgium tell of starvation prices paid in the occupied districts under German rule for food. Communal employes at Ixelles have figured minimum amounts for mere existence as follows: Man and wife, \$1000 a year; unmarried person, \$600; child over 12, \$340; child over 6, \$240; child under 6, \$144. This does not include clothing—only food. A citizen of Brussels writes a friend that food prices are exorbitant. "There are only consumptives and anemic people left. And how could it be otherwise? The absolute necessities are lacking or unobtainable. Flour costs from \$1.80 to \$2 a pound. Butter costs \$7 a pound; meat \$6 a pound, and all fats from \$8.40 to \$7.20 a pound. Potatoes sell for 80 cents a pound. Eggs cost 30 cents each, and milk is 25 cents a quart. "It is madness just to think of the money it costs just to clothe oneself. Except for some clothes I bought the children in 1915, we are still wearing the same clothes we wore before the war. Thread, which formerly cost 6 cents, now costs \$2.40 a spool. Cotton flannel costs \$2 a meter (29 inches) and cotton goods cost \$3.75 for 39 inches. Before the war the same cloth cost 13 cents. "But in spite of all, we are not willing to yield to the Germans."

EAGLE POINT EAGLETS

Mrs. Thomas F. Nichols and Miss Ruth Smith of Lake Creek, were business callers Saturday afternoon. Mr. and Mrs. Thomas H. Simpson, R. P. Neil and wife, Mrs. D. L. Glenn, Mrs. Elena Hargrave and Miss Anna Hargrave, all of Ashland were guests at the Sunnyside Sunday for dinner. Mrs. Eleanor Hargrave is now in her ninety-fourth year and seems to be as healthy and spry as many of the women of sixty or seventy. There were with her her daughter and granddaughter. After partaking of a good hearty dinner they remained for an hour or so and spent the time in a social way and seemed to really enjoy the visit to the Sunnyside. Mr. and Mrs. Vern Luce, Mr. and Mrs. H. H. Bush, Miss Rachel and Ruth Bush of Medford, Mr. John Daley and son, and Mr. Frank Shearer of Merlin, Ore., were also here Sunday for dinner. Mr. John Daley was formerly a citizen of this section. At one time he was the owner of what is now known as the H. B. Tronson orchard. Emil Schmidt, wife and children.

Jonas Wold, wife and children, L. Roy Davis, wife and son, of Medford, Roy Stanley, wife and son, Claude Wamsley of Long Beach, Calif., Mrs. G. H. Wamsley and daughter, Mrs. Jason and Dr. Lafayette Wamsley, Joe Moonaw and Mrs. Dollie Grayham of Portland, were also here for dinner. Mrs. Graham spent Sunday night with us and on Monday was taken by Mr. and Mrs. C. E. Bellows out to their farm or dairy ranch for a short visit. Mrs. Grayham at one time lived near here on the Free Ferry road. Monday was quite a busy day in our little village as there were quite a number came in to sign up their questionnaires. Among the callers at the Sunnyside that day for dinner were Mr. Lovel Storm, H. B. Smith, S. G. Gresham and A. J. Gresham, J. D. Lawton, our scales and weight inspector, and while here examined the hay scales and notified the owner, Mrs. Rosetta Potter, to have them overhauled and put in good shape. J. V. McIntyre, our banker, was also here Monday for dinner. He is kept busy about all the time now filling out the questionnaires for the men who are called to serve their country. We are still having trouble getting our mail on time, and last Friday the Medford Mail Tribune failed to come altogether, and Saturday morning it was still behind time and it would amuse our editor if he could bear the anathemas that were pronounced against him. For instance, I heard one of our leading business men make the remark that "It was a shame that George don't look after it and see that the paper is out on time." As if it was the duty of the editor of a newspaper to superintend the editorial department, look over the type-making, typesetting, proof-reading, etc., and even he is charged with the duty of seeing that the papers are sent to the postoffice on time and even see that the package is put in the right mail sack. As in the case referred to it happened that the bundle of papers was put in the Butte Falls mail sack and taken on Saturday night to Butte Falls and brought back on the train in the afternoon, but the editor is blamed for everything that goes wrong even if the star route carrier happens to put the mail in the wrong box. Wm. Hayes is moving out of the George Von der Helton home on the place known as the Widow Jack place a mile or so above town, and a man by the name of A. C. Middlestead has moved into the Von der Helton house. Mr. Middlestead is the man who has taken charge of the telephone business for Mr. W. C. Clements who will probably be on his way to Fort Pike, Arkansas before this is in type. Monday evening Mr. and Mrs. C. M. Spilke and Mr. and Mrs. C. M. Thomas of Medford, were here for supper. Mr. Spilke is one of the prominent orchardists near Medford and Mr. Thomas is one of the leading attorneys in the county and a prominent figure in the political ring, and has made his mark in the legislative body by his stand he has taken against the "Portland ring" and expects to go to Salem again to keep up the fight for right and justice. Fred Frey and wife and Miss Helen Sidley of Lake Creek, came out Tuesday morning and took the Lewis Highway for Medford. There was another car of manganese shipped out Tuesday for the east. W. S. Baker and Charles Humphrey, Roy Ashpole and W. C. Clements were among the guests at the Sunnyside Tuesday. V. E. Britton and family, C. E. Bellows and family, Mrs. Dollie Grayham, Pate Bots and wife were doing business here Tuesday and while here C. E. Bellows had his subscription to the Weekly Mail Tribune stopped and subscribed for the Daily Mail Tribune. Charles Cingeade, Geo. W. Brandon, our Snowy Butte mill man and S. H. Harnish have renewed their

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach. Says inside-bathing makes anyone look and feel clean. Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do. For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body. A quarterly health measure is to drink, before breakfast each day, a glass of red hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furrowed tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly. Fiery Eczema and Skin Eruptions Readily Yield to This Old Remedy

Successfully used for 50 years. Eczema and similar skin troubles come from a disordered, impure condition of the blood, and they can only be cured by giving the blood a thorough cleansing, and removing from it all traces of impurity. This is why S. S. S. has been used so successfully in hundreds of cases of Eczema and other skin eruptions. This wonderful remedy is without

subscriptions to the Daily Mail Tribune and John Winningham renewed his subscription to the Weekly Mail Tribune. Mrs. Laura Abbott and her son Orbin of Butte Falls, spent Tuesday night with us. Mrs. Abbott's son was out to have Dr. Holt dress his arm that was broken about two weeks ago. Tuesday there was quite a bunch of cattlemen in town as they had brought in their different bunches of beef cattle for shipment and among them was the Stanleys, Carltons, Gainer, father and son, Fred Sturgis, etc., and J. C. Gaines of Trail spent the night at the Sunnyside. And while Mr. Sturgis was here he renewed his subscription to the Daily Mail Tribune. Frank Lewis, our confestory man, has been making some decided improvements in the show window department.
