## HUNN LOSSES 50,000.

(Continued from page one.)

Gouraud on the east depends on the Hermann line holding.

The Hermann defenses are already penetrated in several places and with the entry today of General Mangin's 10th and General Guillauma's 5th army into active operations in the region of Chateau Porcen, thus extending the battlefront by 40 miles, the Hindenburg line has been fought clean thru, the Germans losing 2000 prisoners. German resistance opposite General Debeny's army has appreciably weakened.

## Operations in Belgium

LONDON, Oct. 25.—Operations in Belgium continue to develop favorably, according to an official statement issued at the war office today, which says the French have carried Zhille, in spite of desperate resistance while the British have occupied the village of Insohelm and captured Ooteghem and are advancing toward the Scheldt river.

The battle continued until the end of the day between Sissonne and Chateau Porcen. The French, breaking up the resistance of the Germans carried the strong positions organized in 1917 and which the Germans had continued to reinforce between Fanozme, Reconvaux and the Herpy mill, on a front of seven kilometers, attaining a depth of three kilometers at certain points. The French pushed forward their line as far as the road from Reconvaux to Condole-Hoy. More to the right the French captured the Herpy mill and several centers of resistance. We took a number of prisoners and a considerable quantity of material.

There was no change in the situation on the rest of the front.

# ELLA FLAGG YOUNG DEAD AT CAPITOL FROM PNEUMONIA

WASHINGTON, Oct. 24.—Ella Young, chairman of the national women's pneumonia committee, died today of pneumonia following an attack of influenza.

Mrs. Ella Flagg Young was one of the best known women educators in the United States. She was a leader of progressive educational ideas to which she devoted more than fifty years of her life.

She was chosen superintendent of Chicago's public schools in 1909.

She inaugurated many important reforms, among these being the teaching of sex hygiene, the enlargement of the kindergarten course, an increase in the scope of the vocational training department and simplification of the curriculum of the primary grades.

She was aggressive and possessed great executive ability. She insisted upon the complete divorce of politics from the public schools and fought many successful battles in support of this principle.

In 1913 a faction of the Chicago school board planned to oust her from her position as superintendent. She anticipated the move by suddenly resigning. Mayor Harrison was appealed to by the public to have her withdraw her resignation and return to her official duties although she was nearly 70 years old at the time.

Mrs. Young declined to return unless her enemies on the school board accepted the resignation of five trustees before Mrs. Young would again assume her official duties. She triumphed in every clash she had with the politicians in the school board at fairs.

Mrs. Young was born in Buffalo, N. Y., Jan. 15, 1845 and was brought to Chicago by her parents when a young girl. She graduated from the Chicago public schools and was appointed teacher in the primary grade, in 1862, when she was 17 years old.

She was married to a Chicago merchant in 1868 but her husband died a year later and she returned to teaching.

# WILSON'S NOTE MEETS APPROVAL OF HENDERSON

LONDON, Oct. 26.—Arthur Henderson, leader of the Labor party in the house of commons said today that his first impression of President Wilson's note to Germany was that it would assist very materially in clarifying the situation.

"It is of the highest importance that the German people should be encouraged to look not for a temporary cessation of hostilities, but for a permanent discrediting and destruction of the military and arbitrary system that has involved them and nearly the whole world in unprecedented suffering and loss of life," he said.

"If the German people are honestly seeking peace, they should do all in their power to provide such effective safeguards and constitutional guarantees for the future world peace that no section of their population would be in a position, if so disposed, to influence a resumption of military effort. As President Wilson has clearly shown, the best safeguard against a future war is the reduction at least to virtual impotence of all the forces which rest the direct responsibility for the horrors of the present struggle."

# Hold Wilson Errs

The socialist newspaper Vorwaerts of Berlin says it does not understand whether complete internal reforms on the part of Germany would make the terms of surrender easier. In continued.

"In any event Mr. Wilson errs if he believes that the former holders of power in Germany can ever regain their power. Henceforth there will be no power in Germany but that of the German people. Our opponents who demand the disarming of the German people must realize that a great nation cannot permanently be rendered defenseless. It will be demonstrated at the peace conference whether the war has been merely a lull or a final end."

# STRANGE U. S. SHIP AT FRENCH PORT NEVER GOES TO SEA

AMERICAN NAVAL BASE, IN FRANCE, Oct. 26.—The United States Ship Carolina, a craft that never went to sea and never will, a "vessel" with stone walls, underground dungeons, twenty miles of tunnel and a vast hulk of masonry anchored to mother earth, is one of the sights at this port.

It is a massive castle standing at the water's edge that bears this strange name. It is an ancient chateau, built 600 years ago, in the thirteenth century, and one of the marvels of Gothic architectural construction. It is used now as the United States naval barracks, and being put to naval uses, it was given a naval christening as the U. S. S. Carolina. It is no nick-name, but is the accepted title known to all, officers and men.

Being christened as a United States ship even the battlements have become decks. When down in the old dungeon, a sailor guided me upward by saying:

"This way, sir, to the main deck." Add we climbed up the "hatchway"—of crumbling stones—to the main "deck," of Gothic masonry twelve feet thick.

The way this castle came to be named as a United States warship was this: The United States Carolina is a really a small steam yacht, used during the Spanish wars. It was rather out of date and tied up to the castle wall. Here it became very useful in making out requisitions for supplies needed in the castle. To make a requisition for a castle would seem quite irregular. And so everything was requisitioned for the United States Carolina, and in that way the castle got its equipment without disturbing any formalities.

# CRIMINAL TRIALS POSTPONED BY FLU

In the circuit court Saturday, Mark Foster entered a plea of not guilty to the indictment returned by the grand jury charging him with rape. Trial of this and other criminal cases was postponed on account of the influenza epidemic.

Roy Sales, indicted thrice for adultery, contributing to the delinquency of a minor, and for larceny of a dwelling, was arraigned on all three counts and pleaded not guilty.

George R. Cowen, indicted for the larceny of a dwelling, pleaded guilty and was given 30 days in the county jail. The sentence was lightened because of his dependent family.

Harry S. Lynch, accused of using water denied him by the water master, was arraigned and pleaded not guilty.

# HOLDING MORALE OF AMERICANS TO HIGHEST PITCH

Over in the front line trenches where American boys are facing the enemy a work is being maintained by brave, self-sacrificing men and women that holds the morale of the fighting men to the highest point. Secretaries of the Y. M. C. A., K. of C., Jewish Welfare board and Salvation Army are serving under shell fire and gas attack to give these men some small measure of comfort.

These secretaries are tangible evidence that the people back home are behind the fighting men for it is the contributions of the home people that makes possible this splendid service. To maintain and extend this service, the seven welfare organizations serving the soldier and sailor, the Y. M. C. A., Y. W. C. A., K. of C., Salvation Army, War Camp Community service, American Library association and Jewish Welfare board, have united in a drive for \$170,500,000.

The campaign will take place November 11 to 18 and an appeal has gone out to the people to support this movement to the utmost. The united drive is made at the request of the president of the United States who has sanctioned it and who commends the undertaking in the highest terms. It has the ardent support of General Pershing and thousands upon thousands of letters from soldiers overseas have testified to the help and inspiration which the work of these organizations has meant to them.

# THE MEN IN CLASS A1

A sound healthy man is never a lack number. A man can be as vigorous and able at seventy as at twenty. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The bodily functions are impaired and unpleasant symptoms appear. The weak spot is generally the kidneys. Keep them clean and in proper working condition and you will generally find yourself in Class A1. Take GOLD MEDAL Haarlem Oil Capsules periodically and your system will always be in working order. Your spirits will be enlivened, your muscles supple, your mind active, and your body capable of hard work.

Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL Haarlem Oil Capsules. They are made of the pure, original, imported Haarlem Oil—the kind your great-grandfather used. Two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. Remember to ask for the imported GOLD MEDAL Brand. In three sizes, sealed packages. Adv.
