LOCAL AND PERSONAL.

The funeral service of Private Loren Young was held at the cemetery at Jacksonville Saturday afternoon, Rev. Booser conducting the service. On account of the influenza scare there was not a large attendance. Mayor Gates attended and furnished an auto to take the pall-bearers over. By request the following members of the state guard acted as pall bearers. Sergeant Lindley, Corp. Blakeley and Privates Ackley, Tyrrell, Iverson and Berry. The firing squad in charge of Captain Canady fired salutes over the grave and Bugler Parker blew taps at the close.

While drilling at the ball grounds Friday evening the members of the officers training school and the state guard had a little surprise which gives them a chance that they have been under fire. While standing at ease a spent bullet came singing over the company and landed a few feet from Major Crowson. Saturday some of the boys went out and found it. It was of about forty-five calibre and from the sound the shot was probably fired from Siskiyou Heights.

NEW YORK, Oct. 28.—Sending of sufficient allied troops to Russia to drive out Germany and her allies was urged in resolutions adopted here last night by 50 pro-war delegates to a convention called by the Socialist Democratic League of America.

The convention named a committee, including representatives of the Russian social-revolutionary party, the Czecho-Slovak socialist federation and the Polish socialist alliance, the South Slavic federation and the Jewish socialist league, to call on President Wilson and explain to him the stand taken by the convention.

Before adjourning, Charles Edward Russell, author and member of the recent United States mission to Russia, was elected chairman of the socialist democratic league. STATE LIME PLANT AT GOLD HILL NOW PRODUCING

OREGON AGRICULTURAL COLLEGE, Corvallis, Oct. 28.—Now that the state lime plant at Gold Hill is producing it is up to the farmers of Oregon to make it a success by sending in orders, according to Dr. A. B. Cordley, chairman of the lime plant committee. The plant is now producing one, and in a few days will increase to at least two carloads of agricultural lime daily. The price is $1.75 a ton f. o. b. at the quarry near Gold Hill.

"The farmers of western Oregon fought long and hard for a state lime at cost," says Dr. Cordley. "There have been many delays in getting the plant ready for operation owing to lack of funds, scarcity of skilled labor and the fact that it was almost impossible to get machinery and supplies at all. The plant, however, is now ready for operation and the success of the enterprise is up to the farmers themselves.

"In other words, in order to operate the plant must have orders. If these are not received at the rate of at least two carloads a day it will be necessary to stop operations at once as the board not only has no funds for operating expenses, but has already become individually responsible for some of the funds necessary to complete the plant. The next ten days or two weeks will determine whether or not we are to receive sufficient orders to keep the plant in operation."

It required only one box to fix me up in fine shape and since then, I have never had any trouble with my back and kidneys."
