CHARGE SINGER LURED OFFICERS TO HUN SPY

MISS MARGARET O'SULLIVAN, HOBOKEN CABARET SINGER, AND P. WALTER LOEHMER, FORMER GERMAN OFFICER.

Miss O'Sullivan and Loehmer are under arrest in Hoboken on charges of having served intoxicants to men in uniform. Loehmer made a practice of entertaining naval officers at wine parties in his luxurious apartments. It was at one of these parties that a petty naval officer, while intoxicated, told the guests in the presence of Loehmer that the transport George Washington was to sail the next day. On the way over one of the convoys of the transport was torpedoed.

BRITISH ADVANCE ON SCHELDT RIVER DRIVING HUNS BACK

WITH THE BRITISH FORCES IN FLANDERS, Nov. 1.—(By Associated Press.) British troops in their attack in Belgium this morning pushed the Germans back of the Scheldt river along a front of perhaps five miles above Antwerpen.

LONDON, Nov. 1, 2 p. m.—(By Associated Press.) Field Marshal Haig's forces have made good progress in their attack this morning in the region of Valenciennes. That city is reported to be surrounded on three sides. Fifteen hundred prisoners were taken by the British this morning.

WITH THE BRITISH FORCES IN BELGIUM, Nov. 1.—As the result of the operations of General Pymmer's army in conjunction with the Belgian forces there has been a great extension of the allied front northward along the Scheldt river. The obstinately defended town of Tournai is beginning to figure as the apex of a large salient.

LONDON, Nov. 1.—The local attack in Flanders yesterday made by the British and French between the Scheldt and Yser rivers proved most successful. The front of attack was about twelve miles and the German positions were penetrated to a depth of between three and four miles.

GET AFTER THAT COLD RIGHT NOW

Got right after it with a bottle of Dr. King's New Discovery

She never let a cough or cold or case of grippe go until it grew dangerous. She just sipped it when she began to snuffle or cough before it developed seriously.

Men, women, and children of every age have used this preparation for fifty years as a prompt reliever. All ages are enjoying it today because of its positive results.

Constipation Corrected Dr. King's New Life Pills tonight regular bowels, a clear head, clear thinking, a day well begun in the morning, good digestion, relaxing skin. Mild in action but sure and comfortable. At drug stores everywhere. 25c.

Wanted Reliable party or parties to cut down cord wood. Big money for both of us. No triflers. Write me immediately. I mean business.

J. ERICKSON BOX 25.

If I Had a Cold

I would use Blaxos Cold Tablets. 20 Tablets 25 cts.

Heath's Drug Store Phone 884

UPPER FLOOR OF SACRED HEART FOR FLU PATIENTS

The upper floor of the Sacred Heart hospital has been secured by Mayor Gates and the city council and will be fitted up for influenza patients under charge of Miss McGill public nurse. Dr. Porter wired consent from Boston for the free use of the Medford sanitarium under certain conditions, but rather than take the risk involved, the council accepted the Sacred Heart offer.

There are, as far as known, probably 50 cases of influenza or near influenza in the city. It is difficult to keep track of the disease as physicians have not been complying with the public health instructions and reporting the cases for quarantine. The situation on the whole is improving and but few of the cases are regarded as serious.

The city health office states: "The government urgently requests that all physicians and others report daily to the city health officer all cases of influenza or colds running an abnormal temperature. These reports may be honored to the health officer, to be followed by written report."

INFLUENZA SHOWS DECREASE IN FRISCO

SAN FRANCISCO, Nov. 1.—If the Spanish influenza epidemic in San Francisco decreases according to its present daily ratio it will be stamped out in a week, health authorities said here today. But 48 new cases developed between 5 o'clock last night and 11 o'clock today, as compared with 77 cases for the same period yesterday. But 404 cases were received by mail, as against 761 tabulated at the same hour yesterday.

"The wearing of masks has beaten the epidemic in San Francisco," the health office announced.

To Relieve Catarrh, Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmitin (Double Strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parmitin is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing rumbling, hissing sounds in their ears, should give this recipe a trial. Adv.

HAS THE WORLD GONE MAD?

Right Attitude of the Mind Wards Off Influenza Says Sanitary Engineer of Des Moines, Iowa

An editorial in The Christian Science Monitor of October 8th under the caption "A Mad World," has this to say: "Fear is the most prolific source of all evil. Of course, if fear were understood in its full metaphysical significance it would be understood to be the provoking cause of all evil of every sort. But even from the ordinary point of view of the world, fear, when it communicates itself to numbers, is capable of causing greater disaster than any other phase of the human consciousness. Some day the world will come to see that what it calls contagion is a mental contact, and that what it calls infection, is the infection of one mind from another. Orthodox medical practice today largely recognizes this."

As evidencing this contention and view-point of Christian Scientists, we quote the following statement made by Dr. W. C. Witte, city sanitarian of Des Moines, Iowa, as chairman of a committee of business and professional men who have had virtual charge of that city during the so-called Spanish influenza epidemic. Dr. Witte said: "Fear is the first thing to be overcome, the first step in conquering this epidemic."

For the purpose of instituting a course in common sense and for incorporating the basic idea of Christian Science, the establishing of an editorial policy for newspapers directed against fear, was strongly recommended for the city of Des Moines by the above mentioned committee, the membership of which included Dr. W. C. Witte, Chairman; James H. Hanna, former Mayor of Des Moines; Z. C. Thornburg, Superintendent of Schools; C. L. Herring, of the Greater Des Moines committee; Marshall Miller, President of the Trades and Labor Assembly; Ralph Faxon, Secretary of the Chamber of Commerce; Charles Saverude, druggist, and Drs. Granville Ryan, R. L. Parker, and Thomas Dunlap.

Dr. Witte further said, "I am not a Christian Scientist, but I believe an application of their principles will materially aid in preserving the health of this community. They did not originate with the Scientists, but are to be found by anyone who will take the trouble to read his Bible."

"In my work in infected communities, I have found Scientists the first to respond to the slightest suggestion of unsanitary conditions, and the first to comply with fundamental health measures."

"A great fear has stricken the world," says the editorial above mentioned, "and it is little wonder if out of fear there have emerged pestilences and diseases which have mounted on the wings of fear, and scattered their seeds in every direction."

"In such circumstances what would it be expected that a Christian community should do? Should it not naturally fling wider open the doors of its churches, confident that in right doing, by worshipping God, no ill could touch it?"

"Jesus of Nazareth himself declared, 'Ye shall know the truth and the truth shall make you free.' If the truth will not free men from microbes, it will not free them from anything at all."

That the truth as taught in Christian Science does free from microbes, is confirmed by Marshall Miller who, in addressing the meeting in question in Des Moines, further called attention to the following fact. Mr. Miller said: "Soldiers and officers of Camp Dodge, who are Christian Scientists, have not been affected by the epidemic."

Dr. W. C. Witte, in commenting on Mr. Miller's statement, said: "That by a right attitude of mind these people have kept themselves from illness. I have no doubt that many persons have contracted the disease through fear."

Yet, at the very moment when the churches should be filling the minds of the people with peace and reassuring them of the impotency of evil, it is proposed that these churches shall be shut, and that the admission shall be made that it is dangerous for men and women to congregate to worship God for fear the Lord's arm is so shortened that He cannot contend with microbes. If the arm of the Lord is so shortened that He cannot save, what is the good of calling the people to prayer every day at midday? Is it to be supposed that the prayers for the success of truth in the war will be more successful than the prayers in the churches for freedom from influenza?

Let the church doors be opened and unobstructed worship proceed in a Christian land.

CHRISTIAN SCIENCE CHURCHES OF OREGON

PROTECT the SALMON INDUSTRY VOTE 306 YES

THE WILLAMETTE RIVER FISH BILL

(also known as the Gill Fish Bill) IS VITAL TO OREGON'S SALMON INDUSTRY

Briefly, the purpose of this Bill is: To prevent the netting of salmon in the Willamette River and its tributaries south of Oswego, Oregon.

THE SALMON MUST HAVE A CHANCE TO REACH THEIR SPAWNING BEDS ON THE UPPER RIVER

If the Salmon Industry of Oregon, which totaled more than Seven Million Dollars this year (over Four Million Dollars of which went to the fishermen), is to advance and prosper, then the salmon must be allowed to propagate, instead of being caught in nets by a very few commercial fishermen who every season take salmon from the Willamette River and enjoy a considerable profit in a very few days. These are the very salmon so much needed for propagation work.

READ WHAT THESE TWO AUTHORITIES HAVE TO SAY IN FAVOR OF THE GILL BILL

"The passage of this measure is asked by the state authorities in charge of salmon propagation. It is well known that Mr. R. E. Clanton, Superintendent of Hatcheries, has advocated this measure for years, helped secure the passage of the bill in the Legislature, and is desirous that the voters of the state uphold this law."

"It is essential and important to secure the future supply of Spring chinook salmon in the Columbia River that voters in the state of Oregon should vote 306—Yes, in favor of closing the Willamette River to commercial fishing south of Oswego."

WILLIAM L. FINLEY, State Biologist

Protect the Salmon---VOTE 306 YES

Walter F. Backus, Secretary, 273 Morrison St., Portland, Oregon
