Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it. Wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headaches, colds, biliousness, constipation, others who wake up with bad taste, foul breath, headache, rheumatic twinges, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject. Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweats and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

MUST RAISE \$5,000 A DAY TO FILL WAR DRIVE QUOTA

Unless Medford averages \$5000 a day for the remainder of the United War work drive there will be no possibility of going over the top. Chairman William G. Tait made this announcement today after receiving the report that \$3000 had been subscribed. Medford's quota is \$20,800 and the drive ends next Monday, which leaves only three days and a half to raise over \$17,000.

But the members of the local committee are determined to do this and with the proper cooperation of the people can do it. This means not only a subscription from every man,

woman and child who can afford to subscribe but subscriptions in proportion to the individual's ability to pay. A certain wealthy Medfordite yesterday gave one dollar to the campaign when he should have given and is amply able to give \$500. Nothing like this is going to be put over if the campaign committee can avoid it.

Not only will a list of subscribers with amounts be published, but if conditions do not improve a slacker list will be made out and given to the Medford papers. The committee believes it is high time Medford people know who are and who are not supporting the boys over there. Most of the slackers now by the way have been slackers in previous war drives.

Meanwhile more solicitors are urgently needed and individuals not solicited are earnestly requested to fill out the subscription blank in this paper and return it with their subscription to any Medford bank. They will promptly receive a receipt and have their names placed upon the honor roll.
