\$13,000 MUST BE RAISED IN 2 DAYS FOR WAR FUNDS

With clear skies and sunshine for the first time during the drive the United War Work campaign showed new life today and although the subscriptions only totalled slightly over \$7000, the army of men and women solicitors started out with a vim and enthusiasm which indicated that the last two days of the drive would make a new record for Medford and Jackson county north.

With \$13,000 to raise, however, it was decided by the local campaign leaders that Sunday could not be a day of complete rest so tomorrow morning over 100 men solicitors will start out bright and early to make a complete canvas of the residence districts of the city. The women who have been more effective in this drive than any of the preceding, were given the business districts and this morning visited every business house in the city, with excellent results reported from all quarters.

The extensive publicity campaign conducted throughout the week is beginning to show results and it is generally realized now that with the signing of the armistice and the withdrawal of hundreds of thousands of American boys from the front line trenches, the need of this war work is greater than ever before. Many people who held back at the start of the drive are now coming forward voluntarily and increasing their subscriptions because they want to take their place in the honor list with those who wish to show their gratitude to the boys over there for the splendid victory they have achieved.

City Engineer Arnsperger advises that it is quite essential that all property owners keep the leaves swept off the sidewalks in front of their property as the wet weather makes it dangerous for pedestrians and that the city ordinance is very plain on the subject.
