The widow of J. H. Mitchell's ladder and screen factory at 218 East Main, has been fixed up to represent a forest screen, with a flame carrying water across. In the flame is a miniature rotary fish screen showing how the fish are prevented from descending the flume without injury, or stopping the flow of water. In the next week there will be placed a stock of young trout from the Ruite Creek hatchery in the flume, thus providing a practical demonstration of the efficiency of the screen as a preserver of fish.

RED FLAG MENACE TO GOVERNMENT DECLARES HIBBEN

NEW YORK, Dec. 6.—"When the red flag is carried upon our streets it is a protest against law and therefore a menace to our free institutions," declared President John Grier Hibben of Princeton university in an address today before the Association of Life Insurance presidents.

Dr. Hibben was emphasizing the obligations of liberty which, he said, the sons of America had established anew.

"Through superficial thinking or thru emotional frenzy, there are many people who think that where there is restraint of any kind whatsoever there can be no liberty," continued Dr. Hibben. "It would be well for us to recognize the truth that the idea of law is an essential element in the concept of liberty."

"Those who come to us from foreign shores must learn the first lesson of American citizenship, namely that in all matters of personal conduct there is an exact ratio which must be preserved between outer restraint and inner control, that as the restraint is loosened the inner control must be increased."

"We must remember at this time that our liberty has been re-established for us at a great price. It has been bought by blood. The rights we enjoy have been assured thru the vicarious sacrifice freely offered by heroic souls who have fought and died for us. We must on our part keep faith with the dead, safeguarding the liberty they have won for us with their lives, maintaining it upon the secure basis of the law of right and of justice, and daily living to realize the reign of peace and good will towards men."

EDMONDS GAINS TWENTY POUNDS

After Taking Tanlac Thirty Days He Says He's in "Pink of Condition"

"I have picked up at least twenty pounds in the past thirty days by taking Tanlac, and now I'm just in the pink of condition all around." This statement was made by William M. Edmonds, a well known employe of the Seattle Street Car company, living at 760 North 74th street, Seattle, recently.

"My stomach," he continued, "has been giving me all kinds of trouble for years. What I ate seemed to do me harm instead of good, as it would sour on my stomach and cause me so much misery. I could hardly get my breath at times on account of the gas, which would press on my heart and cause it to palpitate fearfully. I was badly constipated, my kidneys were in bad shape, and I was never free from pain in the small of my back. I couldn't sleep at all well and would lay awake for hours every night before getting a wink of sleep. I also had rheumatism in my arms and legs, and my knees would get so stiff at times that I could hardly bend over."

"All my efforts to find relief failed until I began taking Tanlac, but this medicine has certainly put me in great shape. My appetite was never better, everything tastes good and my stomach is in such a good condition that I can eat anything. And since the gas has stopped forming, I'm never bothered with palpitation, shortness of breath, or any other signs of indigestion. My kidneys don't bother me any more, all the pain has disappeared, and I sleep fine every night."

"My wife has been taking Tanlac for headache and a run-down condition and her first bottle has helped her so much that she told me to bring her another today. It certainly is great to do what it has for me and is the one medicine I don't hesitate to recommend."

Tanlac is sold in Medford by West Side Pharmacy, in Gold Hill by M. D. Bowers, in Central Point by Mrs. M. A. Stee, in Ashland by J. J. McVair. Adv.
