URGE LOWER RATES TO ORIENT FROM PACIFIC PORTS

WASHINGTON, Dec. 30.—Secretary of Commerce Redfield today arranged conferences with officials of the operation division of the shipping board with the announced object of obtaining lower rates on water transportation between Pacific ports and Japan and China.

Mr. Redfield said investigations made by firms intending to supply railroad equipment to the Orient showed that water rates from the Pacific coast to eastern ports ranged from \$50 to \$80 per ton, while rates on the same materials from Liverpool to the same ports ranged around \$12 per ton.

The shipping board has indicated that it did not consider a reduction from the United States possible at this time. Mr. Redfield today cabled a protest to Chairman Hurley in Paris, and arranged for conferences with officials of the board here.

Liniments Will Never Cure. If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease.

S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all traces of the disease from their system.

MOTOR TRUCKS TO SOLVE MONTANA'S RAIL PROBLEMS

HELENA, Mont., Dec. 30.—Not only Montana suffered comparatively little from the slowing down of war work, but reconstruction projects, which are expected to add greatly to the activities of the state, are hardly more promising and important than those industrial and commercial projects which were halted by the war shortly, it is probable will resume full blast.

One interesting item to Montana is the news that war trucks will be turned over to the postoffice department for immediate extension of the parcel post system. Last fall trucks were used to haul crops from sections, without railroads and it was said at the time that a wide and comprehensive use of motors over good roads would tend to largely increase the population of the state within a short period. Montana's magnificent distances hardly can be ribboned with rails for many years, but a workable truck system would enable immigrants to till with profit outlying lands, which, despite their richness, have not offered proper remuneration because of the difficulty of hauling products.

NEW YORK, Dec. 30.—China will ask of the peace conference the return of Kiao Chow, the former German controlled province captured by Japan early in the war, and a readjustment of international trade relations to place China on an equal plane with other nations. Lu Cheng-Chang, Chinese minister of foreign affairs and head of his country's peace commission declared on his arrival here today on the way to Paris.

H. T. Findlay of Portland, who represents the Union Oil company is in the city on business. He has a farm on Rogue river and may return to Medford this season.

ARNOTT SUFFERED FOR THIRTY YEARS

"Nothing on Earth Like Tanlac," He Says—Troubles Overcome

"Well, sir, a neighbor of mine put me onto this Tanlac a few weeks ago and it's the finest thing I have ever run across in the sixty-seven years of my life," declared Thomas F. Arnott, of 124 South Ray street, Spokane, while in Murgittroyd's Drug Store recently.

"I have suffered for thirty years," he continued, "with a bad stomach and other troubles and spent a large part of what I made for treatments and medicines, but never did get any better until I began taking Tanlac. Everything I would eat hurt me and the gas in my stomach would rise up into my chest and cut my breath short. Sometimes my heart would beat so hard and fast that I would just have to gasp for breath. I was uneasy all the time for fear I had heart trouble. I would have blind dizzy spells when I could hardly stand on my feet. I also suffered with headaches and simply felt played out nearly all the time."

"I can now eat what I want without it hurting me for the first time in thirty years, and since my food digests and the gas has stopped forming on my stomach I don't have any more trouble with palpitation and shortness of breath. Why, before I took Tanlac the least exercise would completely tire me out, but now I can walk or work all day long and feel none the worse from it. I guess I have taken a barrel of medicines of different kinds and lived on a diet, almost starving myself, trying to get rid of my trouble, but I suffered just the same until I got Tanlac. So I know what Tanlac has done for me and I appreciate it enough to tell everybody about it. In my opinion there's nothing on earth like it."

Tanlac is sold in Medford by West Side Pharmacy, in Gold Hill by M. D. Bowers, in Central Point by Miss M. A. Alee, in Ashland by J. J. McNair. Adv.
