FLU BAN REMOVED BY HEALTH BOARD EXCEPT ON DANCES

To the Public: After reviewing the health conditions of the city for the past week the health board has decided the situation no longer demands the continuation of the wearing of masks and permission is hereby granted for their removal. The ban on dancing will remain in force until further notice.

In taking this action the board hopes to have the cooperation of every citizen in this community, believing that every individual in the city should realize their duty to see that every person with a cold of "flu" be promptly quarantined. It is also urged that any one having the slightest symptom of a cold remain strictly at home exercising the utmost care, furthermore that no child be permitted to attend any of the schools in the city showing evidence of a cold.

We earnestly advise that the school board and teachers see that the school buildings and rooms are properly heated and ventilated, no room being allowed a temperature below seventy degrees or above seventy-four. This is most important as occupying any room below or above this normal temperature will lower the resisting power of the student and predispose to the onset of disease.
