## RESTFUL DAY SPENT BY THE PRESIDENT

Late this afternoon he walked with Mrs. Wilson to the headquarters of the American mission where he had a short conference. During the walk the president was recognized by the crowds and returned their greetings.

The president spent a quiet and restful morning. He saw no one officially and his only activity was some dictation to his stenographers. Although the weather was fair, the president did not go out to play golf.

## YANKS FIRST TO SMASH THROUGH HINDENBURG LINE

LONDON, Jan. 8.—American troops were the first to break the Hindenburg line, according to the Daily News in its comment today on the report of Field Marshal Haig on the operations from the end of April last to the close of hostilities. The News points out that at least the first mention of a breakthrough contained in the field marshal's report was on the course of his description of the day's work on September 29, in which he wrote:

"North of Belleuse, the 30th American division, Major General E. M. Lewis, having broken through the deep defenses of the Hindenburg line, stormed Belleuse and seized Noury. On their left the 27th American division Major General O'Ryan, met with very heavy enfilading machine gun fire but pressed on with great gallantry as far as Jouv, where a bitter struggle took place for the possession of the village. The fighting on the whole front of the Second American corps was severe, and in Belleuse, Noury, Gillemont farm and a number of other points, amid the intricate defenses of the Hindenburg line, strong bodies of the enemy held out with great obstinacy for many hours."

"These points of resistance were gradually overcome, either by the support troops of the American divisions, or by the 5th and 3rd Australian divisions."
