BARONESS HUARD AT RIALTO TONIGHT

Baron and Baroness Huard arrived from Portland last evening. They are keenly alive to the interests and the development of the west and predict that the Pacific coast will be the coming population center of the United States.

The 600,000 German prisoners which are now held in France will be most efficiently used in the work of reconstruction; roads and ground will rapidly be put in shape.

The French are essentially an artistic nation and early in the war Baron Huard was one of a group of prominent artists to commemorate with his brush and water colors, the great struggle, and sketches of the destruction of bridges, cathedrals and historic spots, which have since been rebuilt, are now preserved and form a part of the archives of France.

Both Baron and Baroness Huard have most pleasing personality and the opportunity to hear the baroness' story at the Rialto tonight should not be overlooked by any one.

STEAMER IN DISTRESS SIGNALS "S. O. S." FOR AID

WASHINGTON, Jan. 16.—Wireless S. O. S. signals were picked up today from the steamer Ansabro Tyze (?) in distress with wrecked steering gear about 175 miles southeast of Nantucket lightship.

Nazimova Chose Title.

The title "Eve for Eve," which has been given to the super-feature in which the distinguished and talented actress Nazimova is starred, and which will be the attraction at the Rialto theater tomorrow and Saturday, was chosen for the production by the actress herself.

The picture is a screen adaptation of the stage play, "L'Occident," written by the Belgian dramatist, Henri Kistemeecker, but Madame Nazimova did not consider the French title a good one to use and so adapted the Biblical words "an eye for an eye, a tooth for a tooth," which expresses the idea of the plot where a young Arabian girl wishes to take revenge into her own hands and demand "an eye for an eye," without the formality of the law of the land in which she lived.

THE DRY AMENDMENT.

RATIFICATION of the prohibition amendment by overwhelming majorities in legislatures of over three-quarters of the states, indicates the speedy banishment of the liquor traffic from the United States.

Right or wrong, the majority of the people want prohibition—and prohibition they are going to have. They have been many years weighing the evidence and have decided that the evils of alcoholic drink far outweigh the benefits—and hence booze must go.

It is the saloon, financed by the distiller and brewer, operated by irresponsible parties, a center of political corruption, criminal vice and moral degradation, leaving wrecked humanity in its trail, demoralizing youth and wrecking womanhood for commercial greed, that has brought the whirlwind of destruction to the traffic.

The adoption of the dry amendment is really a revolutionary procedure, for it marks the first complete surrender by the states themselves of state rights to control regulate and police. It is also the first national attempt to regulate the personal habits of people and control their appetites by statute.

Prohibition has been forced by the clever manipulations of a small band of fanatics with the aid of the folly of the liquor dealers. It is, by its advocates, regarded as merely the first of great reforms to be effected by regulation in the purification of mankind.

It will require an army of officers to enforce prohibition, for the next few years at any rate, for those accustomed to drink will secure it illegally. The principle benefit will be to the rising generation, who will not have the opportunity to acquire the taste for liquor or the habit of consuming it, though it is problematical whether the removal of temptation will make for character building.

The dry law in Oregon has made us a state of law breakers and hypocrites. A dry law for the nation will have the same effect—for some years at any rate. However the evil of the commercialized liquor business will have been banished, a great source of political corruption and moral decay removed and better conditions should follow.

Prohibition is here—whether you like it or not.

FREAKISH WEATHER FOR WEEK PAST

Freakish weather has been the order in the valley for a week past, frequently threatening the arrival of the long delayed and longed for good rains that are so badly needed.

There were showers also during the night but up to 8 a. m. today the rainfall was only .02 of an inch. A peculiar feature of the past 24 hours weather is that the maximum temperature of last night, 48 degrees, was higher than during the day, Wednesday, when it was 45 degrees.

PACKER'S LETTER DETAIL EFFORTS TO AVERT PROBE

WASHINGTON, Jan. 16.—Resuming his testimony before the senate agricultural committee, Francis J. Heney today read numerous letters describing the petitioners' efforts to prevent the passage in the house of the Borland resolution providing for an investigation of the packing industry.

"Representative Fitzgerald, leader of the democrats, was just as active in opposing this investigation as was Mr. Mann," Mr. Heney declared. He said he stated this to show that this opposition was not for partisan purposes.

"Has the federal trade commission submitted any of its findings to the department of justice," asked Senator Wadsworth of New York.

"Unofficially I know that some work is being done on it by the department of justice," replied the witness.

ESTHONIANS WIN OVER BOLSHEVIKI

STOCKHOLM, Jan. 16.—A considerable success has been won by Esthonian troops against the Bolsheviki who have been invading Esthonian territory. The Esthoniens, says an official Esthonian statement, occupied the city of Droput on Tuesday. The Bolsheviki abandoned military supplies.

BIG SHOE BILLS CAN BE CUT

"I will always wear shoes with Neolin Soles," writes Mr. M. Newman of the I. Newman Mfg. Co. of Minneapolis. "They are superior soles in every way, waterproof, more comfortable and more durable. After many months of wear they remain in good condition."

Mr. Newman, and millions of others, have found that the answer to the shoe bill problem lies in getting soles that wear a long time—Neolin Soles.

They are scientifically made, very tough and yet have the other qualities that soles should have—comfort and absolute waterproofness. Get Neolin-soled shoes for your whole family. They are found nearly everywhere and in all styles. Have worn shoes repaired with Neolin Soles. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally that Nobody can tell.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value their even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a ringing sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hair's Catarrh Medicine acts thru the blood on the mucous surface of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hair's Catarrh Medicine. Circulars free. All Druggists. 75c.
