

LOCAL AND PERSONAL

Last night and this morning Medford and the valley experienced one of the most disagreeable wind and rain storms for years. While the rain was not continuous, coming in frequent spurts, the amount of precipitation from 5 p. m. Thursday until 8 a. m. today was .26 of an inch. The wind, however, was continuous, ranging in force from 35 miles an hour between 9 and 11 p. m., to 24 miles an hour at 8 a. m. today, but most of the time about 30 miles an hour. Early morning and forenoon pedestrians found it impossible to carry umbrellas in the driving storm and had to plod along and take a hard soaking. More rain is predicted tonight and Saturday.

Auto travel between Prospect and Medford is an impossibility since the thaw and rains following the recent cold spell when the roads were frozen hard, because of the deep mud. Horse drawn stages have difficulty in getting thru also. To reach this city Prospect residents have to drive to Derby and take the train. Trail residents have to drive to Eagle Point and take the train to reach Medford, or drive the whole route. It is now about a ten-hour trip between Trail and Medford.

CUT THIS OUT

Old English Recipe for Catarrh, Catarrhal Deafness and Head Noises

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Parmitin (Double strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmitin used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial. Adv.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards' Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cleanse the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.
