ALLIES CONTINUE MASTERLY RETREAT

ARCHANGEL, Jan. 28.—(By the Associated Press.)—The American and allied forces operating south of Archangel evacuated Shegovarsk yesterday and retired 10 miles to the northward. The Bolsheviks continue to shell the American and allied positions at Taraxvo and Tulkas.

OMSK, Siberia, Saturday, Jan. 25.—(By the Associated Press.)—The proposal of the peace conference for a discussion between the various Russian groups probably will be submitted to the Omsk government to representatives of the various groups in Siberia for action. In the meanwhile, the government officials insist, the military situation requires that the campaign against the Bolsheviks be pushed vigorously.

The receipt of the proposal by wireless from France caused surprise in government circles here as it is feared it may have an adverse effect on the discipline of the army supporting the Omsk government.

MARRIAGE BY PROXY SANCTIONED FOR YANKS

WASHINGTON, Jan. 29.—In an opinion rendered today, the judge advocate general of the army held that the military authorities in France might facilitate the marriage by proxy of soldiers abroad to their sweethearts in the United States where such marriages did not contravene state statutes. A previous opinion had disapproved such marriages.

The judge advocate general, declaring such contracts permissible, says the best form in such cases was a single contract signed by both parties.

POST PREDICTS GREAT PROSPERITY

WASHINGTON, Jan. 29.—Louis F. Post, assistant secretary of labor, before the senate education and labor committee, today predicted that a period of unequalled prosperity would follow the readjustment period. He appeared in connection with hearings on the bill introduced by Senator Keayon of Iowa, appropriating \$100,000,000 for the prosecution of public work in order to meet the unemployment situation.

Jesse H. Evans of the employment service of the labor department told the committee that unemployment throughout the country was increasing rapidly. Reports received by the department early in December from 123 industrial centers showed 10,000 men out of work. Last week reports showed this number had increased to 212,000, while reports received today from only 60 per cent of these centers showed 291,000 men without work.

The British cabinet Tuesday decided to retain 1,000,000 of the mobilized forces "to finish the job." It was said pay would be increased largely and a new scheme of leaves of absence introduced.

SPEED COP AGAIN ON WATCH FOR THIRSTY AUTOISTS

Oh, auto folks, look whose here! Who? Why McDonald. What McDonald? Why our old friend and college chum and the mortal enemy of motorists and bootleggers, Speed Cop McDonald.

Just as tho the car owners and drivers who love to take constitutional along the Pacific highway and elsewhere a little faster than the law allows—just a trifle, you know—had not enough worry now with the legislature planning to increase auto licenses 100 per cent or more, why along comes McDonald, the Killjoy.

Rumors have been extant in the city for several days that Harold McDonald, who resigned last fall and went to Portland, had returned to the city and had been given his old position as speed cop. County Prosecutor Roberts reluctantly confirmed this information today. So look out, McDonald is already on the job but for unknown reasons this has been kept quiet and so far no arrests have been made, altho it is known that human nature has not changed in Medford and vicinity among car drivers since last fall.

McDonald since leaving here has been employed by the sheriff's office at Portland and by the various constables of that city in helping to ferret out evildoers of Multnomah county.
