A STRIKE MADE IN GERMANY.

THE Seattle strike is unjustifiable, from any point of view. The shipworkers broke faith with the government and their employers when they walked out, and the sympathetic strike of the other toilers of Seattle is sheerest folly.

Few of the strikers admit favoring the strike, but they gladly obey the order of the irresponsible, promise shattering, lawless element they have placed in control, whose sole desire seems to be to show their power and spend the million or so piled up from dues in their treasury.

The general strike is not an American invention or institution. It is, like Marxian socialism which flowers in Bolshevism, made in Germany—and investigation will probably show that Germans or pro-Germans are directing this effort to bull-doze the government by paralyzing the industries of Seattle.

During the war, the government was forced to put up with unreasonable exactions of profiteers, in order to speed up production. That need is now past, and a readjustment is due.

Probably no branch of labor was ever paid more for doing less than the ship workers—among whom sabotage was a recognized institution.

The issue of whether union labor under irresponsible leadership is greater than the government and the community must be fought out sooner or later, and Seattle is as good a battle ground as any.

The nation should stand the delay in ship building and keep the yards closed indefinitely, rather than surrender to the insatiable demands of radical labor agitators whose hidden goal is the overthrow of American institutions and the establishment of Bolsheviki "proletariat" rule on their ruins.

The Returned Soldier and the Citizen

The whole program of reconstruction and readjustment is one that revolves around the question of labor. What can we do to furnish employment to the returned and returning soldier and at the same time keep those who have employment at work also?

There is little use in asking Oregon manufacturers and employers to take on more men, if they are already loaded to their full requirements.

It is a question that every citizen can answer and be of practical help. Buy the goods that our Oregon factories are making, increase the demand for our products and the demand for men to make them increases at the same time.

Oregon manufacturers employ Oregon citizens and our factories are better in many ways than any to be found elsewhere, and to fail to buy the products is to discredit our citizens as being capable of turning out products equal to other places.

It is not a question of sympathy, subs or subsidies; it is simply a practical question that every citizen of Oregon has in his or her hands to answer and adjust.

Buy the goods that our Oregon factories are making, increase the demand for our products and the demand for men to make them increases at the same time.

TROOPS PROMISE PROTECTION FOR TACOMA PLANTS

TACOMA, Wash., Feb. 7.—"We are here for the protection of property and person and the suppression of all disorder. We do not intend to take any arbitrary action, except in case of the gravest emergency."

In the above declaration Brigadier General Watson in command of the United States troops in Tacoma and vicinity this morning outlined the military policy to be pursued by men under his command.

Armed troops are not in Tacoma to intimidate anyone but to maintain the peace and to be at the instant call of Governor Lister in the event of possible disorder of whatever nature, according to the general.

As a further measure for the rapid suppression of any possible disorder six machine guns were mounted on huge army trucks this afternoon and held for immediate service in the armory.

A guard will also be furnished to provide protection for 25,000 tons of government-owned wheat now in warehouses on the waterfront.

AUTO DEFENDANTS DECLARED NOT GUILTY
