

PICKET ACTIVITY RESUMED TODAY AT BUTTE MINES

BUTTE, Mont., Feb. 13.—Picket activity on the part of striking members of the Butte Metal Miners union (independent) and the Metal Mine Workers' Industrial union No. 890 of the I. W. W. who are on strike here as a protest against the recent reduction in wages of \$1 a day was resumed this morning after a day of inactivity yesterday.

Only in two instances were soldiers called to assist in dispersing the pickets who gathered in crowds larger than permitted by the military. No violence was reported and only three arrests were made. Those arrested were foreigners who were charged with obstructing and interfering with men going to their work. But few men were reported to have gone to work this morning.

Delegates representing the various crafts connected with the copper mining industry in Butte at the recent conference in Washington have unanimously recommended that every man go back to work, according to George Tucker, one of the delegates. George Mahoney, another delegate who represented the boltermakers at the conference, reported informally to his organization late last night, with the result that previous action of the boltermakers endorsing the strike of miners was rescinded, the men voting unanimously to remain at work.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

BRITISH TRADES UNION CONGRESS CENSURES STRIKERS

LONDON, February 13.—Unauthorized strikes cannot and must not be tolerated under any circumstances, is the declaration of the parliamentary committee of the trades union congress in a manifesto dealing with the recent Clyde and railway strikes and addressed to all affiliated societies in Great Britain.

It is the duty of all who desire the trade union movement to be strengthened to see that a union's action be governed in accordance with its constitution and rules, the committee's manifesto asserted. It is essential, it declared, that strict discipline within the membership be maintained and where necessary the machinery of responsible government must be assisted by the executives, insisting that these decisions be carried out implicitly.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of Limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.
