

LOCAL AND PERSONAL

In the near future Medford people will have the pleasure of hearing a concert by the high school band, orchestra and glee club, and a pleasing surprise is promised music lovers as there is much musical talent in the student body this year and exceptional talent in instruction. The band under the leadership of Prof. McReynolds, head of the commercial department, is generally pronounced by those who have heard it as the best in the history of the high school. Its membership includes a number of boys from the graded schools. Mr. McReynolds is also leader of the orchestra.

THE BEST PROOF

Given by a Medford Citizen.

Doan's Kidney Pills were used—they brought benefit.

The story was told to Medford residents.

Time has strengthened the evidence.

Has proven the result lasting.

The testimony is home testimony—the proof convincing.

It can be investigated by Medford residents.

Mrs. Wm. Charley, 305 N. Grape St., Medford, says: "My kidneys did not act right at all. Besides this, I had much pain in my back and sometimes I could hardly bend or straighten up. At night, the pains bothered me, too, and often I couldn't sleep. I tried plasters and medicines for my back but none of them helped me any. It was while I was feeling ill and discouraged that I heard of Doan's Kidney Pills and began taking them. In less than two weeks, I felt better. I took in all four boxes and got well again." (Statement given September 14, 1907.)

On March 16, 1916, Mrs. Charley said: "I recommend Doan's Kidney Pills just as highly today as I did several years ago. I still consider them a medicine of merit and whenever it is necessary for me to take a kidney remedy I use them, for I know they are most reliable."

TELLS DYSPEPTICS WHAT TO EAT

Avoid indigestion, Sour Acid Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of peptic pills or artificial digestants.

Get a few ounces of Bisurated Magnesia from any reliable drugist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and in the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat." Adv.
