Mr. and Mrs. John Heeson were Medford business callers one day last week. Mrs. Baughman and children were recent visitors in Phoenix. Mrs. Vogel was a guest of Superintendent and Mrs. Briscoe in Ashland last week. Mrs. Vogel while in the city attended the Lincoln Day exercises of the high school. Mr. and Mrs. Louis Brown, Mr. and Mrs. Welborn Heeson and family, Mr. and Mrs. L. C. Williams, Mr. and Mrs. L. Oorthuys, Mrs. M. C. Reed and Mrs. Terrell were among some of the people from Talent to attend the lecture given by Irvin S. Cobb at the Page last Wednesday. A reception was given by the domestic science class at the school house last Friday evening. A large number of townpeople were present and enjoyed a very pleasant and enjoyable evening. Lunch was served in the lunch room by the class. Walter Jeffery arrived Wednesday from Oakland, Cal., where he had been visiting his parents, Mr. and Mrs. Charles Jeffery; also his brothers, George and Ernest. Upon arriving at Ashland he was surprised to find the sheriff stop up to him and tell him he was wanted at Jacksonville. Of course Mr. Jeffery wished the officer to open his suitcase and satisfy himself, but that officer told him it would have to be opened by Sheriff Terrell and that he would have to go to the county seat for the purpose. Upon arriving at Jacksonville it was the sheriff's turn to be surprised when Mr. Jeffery's suitcase was opened there was nothing to be found except oranges, rice and his personal belongings. One would think that the officers were beginning to have enough of this sort of thing and would not molest everyone traveling with a suitcase. Miss McGrath, the county nurse, finished her examination of the pupils of the school here yesterday and reported that generally speaking the children were in good condition. The number of defective children were not so high as in some other communities. The Ladies' Aid of the Methodist church will meet at the church parlors Thursday afternoon at 2 o'clock. DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Brest Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a tencup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system. Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Liniment
When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 30 cent bottle of old, honest "St. Jacobs Liniment" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone. Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica and lame back so promptly!

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.
Just as coal, when it burns, leaves behind a certain amount of incalculable material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood. Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh. Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject. Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.
That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold. Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wynth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair. Everybody uses "Wynth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
