It's a cold day here when the police authorities don't round up a bootlegger or two as public carriers of private stock liquors. Another victim paid the penalty on Wednesday of this week, the municipal surtax being \$50. The offender was a non-resident foreigner. In this particular instance over a score of bottles were confiscated, secured in an ordinary trip. State and federal prosecutors are liable to follow in the wake of these municipal convictions.

On Saturday, Feb. 22, at 2 p. m. Cherry day will be inaugurated as a fixed observance in the calendar devoted to horticultural pursuits in this locality. The movement is under auspices of the Ashland unit of Farm Bureau activities, and is being directly boosted by the Commercial club. The intent is to enlarge the scope of cherry production in this vicinity on a commercial basis, notably encouraging the planting of Bing, Lambert and Royal Anne trees as growths which will to a greater extent than other varieties repay the investment in cherry orchard culture. This meeting is to assume the proportions of a rally with competent speakers on horticultural topics, and it is planned to secure practical results on a big scale as the outcome of cherry development hereabouts.

The social amenities prevailing incident to the observance of Father and Son day, at Moose hall, Thursday night, were on such a hospitable scale as rivaled any previous event of the kind in this town since the annual feature has become a fixed one in the social calendar. Heretofore the observance has been somewhat upon denominational lines, but this year's event was overwhelmingly a united ratification of all the wholesome principles involved. Dads and kids met in jolly companionship around as hospitable a banquet board as the old town ever witnessed, while mothers and sisters waited upon fathers and brothers and indicated their approval of a movement which promises great results in shaping character, not to mention the social advantages as accompaniments of the moral and intellectual ones. True manliness is the personal equation involved. At this ideal reunion joviality was present in just the right proportions with problems affecting everyday life, which were illustrated and developed thru the channels of a program dealing with the practical issues associated with present day needs.

A graceful tribute to the H. L. Whited family was incorporated as a charming social adjunct to routine proceedings of the Eastern Star chapter, at its regular meeting on Tuesday evening of this week. The attendance was large, and to the entertainment committee belongs the credit of serving refreshments which were superb. A short program was ideal in its conception of musical accompaniments, with Mrs. Julia Hockett, Mrs. N. B. Reynolds, and Mrs. Marie Stock participating, also Prof. Leonard Pettit, violinist, who is a newcomer here from Honolulu, having opened a studio in the Allen block under methods pursued by the Russian school, eliminating Bolshevism in his masterful interpretation of the

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

There will be practically no beans grown in this locality the coming year on account of the prevailing low prices, which are probably due to last year's extra large crop and to the fact that from 500 to 1000 tons of beans are being imported weekly from the Orient.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to treat the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.
