Her First Corset. The young girl's first corset is a matter of considerable importance that mothers are beginning to realize. There has been an all too prevalent opinion that any kind of a corset was good enough for the first one, but little girls will grow into big girls, and while they are doing so their figures are greatly influenced by the corset they are wearing. The foundation of her future figure begins with her first corset. The growing figure has a natural tendency to mold itself to the lines of the corset. The corset, therefore, is responsible for a beautiful figure or a bad one. MODART CORSETS Front Laced. are recognized the country over for their perfection of design. An ideal MODART model for the growing figure or slender woman is one that is boned lightly and carefully to do away with any undue pressure. When properly fitted, as it is by our expert corsetiere service, a MODART is support without restraint—a healthful corset. M. M. Dept. Store. Reliable Merchandise. Reliable Methods.

Joe Brown's Experience With Federal Tires. Mr. Brown represents the Earl Fruit Co.—drives an Overland Model 83, weighing about 2800 pounds. His business naturally takes him over all kinds of roads—average service, you might say. He has used Federals for over two years—has a full set on now that has run close to 10,000 miles. Brown isn't surprised because the other set did the same. Pretty good service, we say. Yet they cost no more than ordinary tires. "Sure" we back them up. They make good—or we do. C. E. Gates Auto Co.
