(Continued from page one.)

he went directly to his room for a brief rest before luncheon.

Guest of Boston BOSTON, Feb. 24.—President Wilson was the guest of Boston today.

Arrived Last Night The steamer George Washington on which the president and his party made the voyage from Brest, dropped anchor off Annapolis shortly after dark last night.

A short distance off Boston harbor the George Washington was met by an escort of eight submarine chasers.

Tumult With President The meeting at Mechanics Hall was set for 2:30 o'clock in the afternoon.

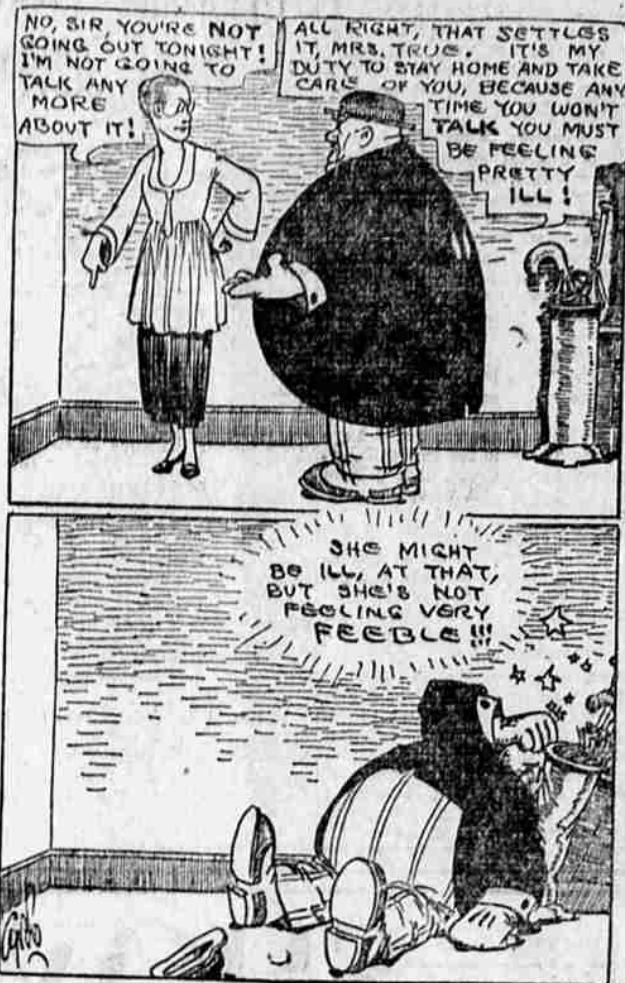

Welcoming Steamers Six other steamers were crowded with Bostonians and citizens of the metropolitan district who were fortunate in the ticket distribution.

Presidential Salute After the president and Mrs. Wilson and the members of the presidential party had been transferred to the Osippee, the president's flag as commander-in-chief of the navy displaced that of Rear Admiral Wood on the main truck of the Osippee.

Crowds Cheer Executive Along the water front crowds watched the welcoming fleet circling about the George Washington.

WASHINGTON, Feb. 22.—Brest, debarkation port in France for American troops and supplies, where President Wilson first set foot on French soil, is the subject of a bulletin just issued by the National Geographic Society.

Harbor of Brest "The Pentid river, emptying into Brest Roads, divides the major portion of the city from the section known as Recouvrance.

Medieval Costumes "Should an American soldier have missed Paris but seen Brittany—Brest is at the extreme west end of the land of the picturesque Bretons—

Marriage by Proxy "Should any returning soldier think he has evolved an original idea in marrying by proxy, a procedure solemnly approved a few weeks ago by the judge advocate general of the army, he has failed to learn much about the famous Anne of Brittany.

Crowds Cheer Executive Along the water front crowds watched the welcoming fleet circling about the George Washington.

When the Osippee neared Commonwealth pier many of the little fleet of boats which had escorted her to the harbor dropped astern.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminatory organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.
