SAVE MONEY! SAVE SHOES!

In a long chase for a criminal, J. E. Jones, a secret service man of Chicago, wore one pair of shoes with Neolin Soles for nineteen months. This chase covering both American continents and Australia, ended in April, 1917. The shoes were then given a mechanic at Clearing, Ill., and were worn by him another seven months.

Until I discovered shoes with Neolin Soles, I bought new shoes about every two months," said Mr. Jones.

Twenty-six months of wear under conditions such as these is indeed extraordinary even for Neolin Soles. But Neolin Soles are made by Science to be especially durable. They are comfortable and waterproof, too. You can get them on new shoes for men, women and children, or for re-soles. Manufactured by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear all other heels.

The board of education in a recent meeting appointed the superintendent of instruction of city schools as a committee of one to investigate the necessary steps to qualify for accreditation on the Northwest Association of Secondary and Higher Schools.

Blanks have already been received for this purpose. A careful survey and investigation is being made of the high school department in accordance with the standards of said association for accreditation. This will mean a great deal to the school and the boys and girls who are in attendance for then the highest standards must be met and should be complied with when one thinks of the great part that the public school must play in the period of reconstruction for the years to come.
